H. I. WAYNE, General Agent G. N. Station Klamath Falls, Oregon

route of the EMPIRE BUILDER

GOVERNOR THOMAS E. DEWEY, Republican Presidential nominee, minced no words when declaring his position on labor in an address at Seattle, Washington, Sept. 18. Governor Dewey intends to bring the U. S. Department of Labor back to the status for which it was created—to administer the affairs of labor.

Governor Dewey pledges himself to abolish the many multiple agencies set up by the New Deal to pass on labor-management relations, but functioning more to retard than expedite labor problems. The Republican candidate for the Presidency of the United States, has promised the American people that he will select as Secretary of Labor, a man from the ranks of Labor.

"Among the things which have been holding us back here at home is an Administration Labor Policy which has bred class division, hate and insecurity. I can say without qualification that the labor policy of this administration has been one of delays, bungling and incompetence. It has put untold obstacles in the way of labor's effort to avoid wartime strikes. It has fostered strife between one labor group and another, between labor and business and between both and government."
