Matt Finnigan

COUNCILMAN

WARD ONE

I have resided for the past seven years in ward number one.

I own my home in said ward and I am a taxpayer.

For the past five years I have been the owner and operator of a business on Main street in our city.

We have three children, two of whom are attending our schools.

I have no connections with any group or organization and I am not obligated to any person, persons or groups whatsoever.

I believe in the future of Klamath Falls.

I believe that the city of Klamath Falls should be operated in a business-like manner; that complete harmony should exist between the city and other departments of our government; and I will endeavor to do my part in such cooperation.

I believe that ordinance number 3420, in effect since January of 1943, commonly called the "BLACK SNOW ORDINANCE," should be enforced, and as your councilman I will expend every effort to see that this ordinance is enforced.

I also believe that North Third street should be made a through street and that all intersecting streets be made "STOP" streets so that our children will be protected in going to and from school.

I believe the playground in our ward should be made usable for our children and I will make every effort possible to the end that the Old High

School Park Site be made the beauty spot of Klamath Falls.

If elected your councilman, I promise to honestly and energetically perform all of my duties with all of the sound judgment I am able to command.

I earnestly solicit your vote.

DEWEY

JOBS AND OPPORTUNITY

"It took a World War to get jobs for the American people.

"Now, Washington is getting all set for another depression. They intend to keep the young men in the Army. The New Deal spokesmen are daily announcing that reconversion will be difficult, if not impossible. They say that relief rolls will be enormous.

"The reason for this long continued failure is twofold. First, because there never was a worse job done of running our government.

"When the W.P.B. fell apart, so did your chance under this administration for jobs after the war.

"The other reason for this long continued failure is because this administration has so little faith in the United States. They believe that our task is not to produce more goods but to fight among ourselves over what we have.

"I believe that we have not even begun to build our industrial plant. No living man has yet dreamed of the limit to which we can go if we have a government which believes in the American economic system and in the American people.

"There can be—there must be—jobs and opportunity for all at a high level of wages and salaries."

—THOMAS E. DEWEY
Address—Philadelphia, Pa., September 7, 1944.
