

NEW EXPLOSION OF RED DRIVES LOOMS IN EAST

LONDON, Nov. 8 (AP)—The promise of explosive action hung today over the long eastern front, where for the past two days Moscow has announced there have been no essential changes.

Torrential rains hindered red army troops jabbing at the outskirts of Budapest. The Russians were moving infantrymen into the front lines beside their tanks, while soviet artillery plumped shells into the city. Berlin said the Russians were preparing for a new large scale attack toward Tarnow in southwest Poland from the soviet bridgehead on the west side of the Vistula river. The nazis declared the Russians have been withdrawing mechanized formations from the east Beskids area of the Polish-Czechoslovakia border to reinforce assault divisions and "the early beginning of a big battle is assumed."

Ultimate aim of an offensive in this direction would be a penetration of German Silesia. Soviet troops in northeastern Hungary have pushed two new blows 75 and 125 miles above Budapest, the Germans admitted.

A supplement to the broadcast soviet communique said a reconnaissance in force was carried out in East Prussia, and that 800 Germans were killed in East Prussia and eastern Czechoslovakia.

Roosevelt Reduces Dewey's Michigan Lead; May Win

DETROIT, Nov. 8 (AP)—Aided by a heavy democratic vote in Wayne county (Detroit), President Roosevelt today rapidly was reducing the lead of Gov. Thomas E. Dewey in unofficial returns from Tuesday's election, and democrats began talk of a Roosevelt victory in normally republican Michigan.

The president, who earlier trailed Dewey by 133,000 votes, trimmed this to almost 25,000 as nearly one-third Wayne county returns arrived. Still to be counted were some 400,000 votes, from 405 precincts in heavily democratic Wayne county and 426 in scattered out-state areas normally republican.

The Detroit News, which supported Dewey, foresaw a Roosevelt victory in Michigan by nearly 35,000 votes. The Roosevelt ballot strength was not felt by the democratic state ticket, incomplete returns indicated. Michigan's republican Gov. Kelly appeared to be piling up an outstate lead of nearly 250,000 over Edward J. Fry, democrat.

Rep. Clare Hoffman, republican bitterly opposed by the CIO, was re-elected to congress in the

fourth district, and six other republican incumbents also were assured of re-election. Complicating the prospects for an accurate decision was a tabulating mixup by inexperienced election workers in Wayne county (Detroit) which may leave up to 50,000 votes unaccounted for until the official canvass.

County election officials said workers in 100 precincts failed to consolidate totals for regular ballots and for soldier ballots. In some cases the clerks reported only the regular totals; in others they entered only the soldier total.

Guests at Tuesday's meeting were Cpl. Dee Gilbert, Harry Goeller and Howard Van Vleet. Following luncheon, a March of Time foreign edition film on Brazil was shown.

Boeing Contracts For Superforts

SEATTLE, Nov. 8 (AP)—Boeing Aircraft company Chairman C. L. Egtvedt today announced the company had signed a contract for 1000 more B-29 Superfortresses, bringing its unfilled orders to approximately \$1,145,000,000 and calling for near-capacity operation of its Seattle and Renton, Wash., plants.

The number of Boeing B-29's included in previous war department orders was withheld for security reasons. Egtvedt said the 1000 plane order is in addition to a recent one for 700 B-29's placed with the company's Wichita, Kans., plant.
