# BOY IMPRISONED IN TOOL CABINET

LONG BEACH, Calif., Nov. 13 (AP)—A nine-year-old boy was recuperating in Seaside hospital today after his release yesterday from a 12-inch-wide tool compartment of an abandoned auto trailer in which he had been imprisoned eight days.

The boy, David Bourbonnais, was suffering from exposure, hunger and shock and his weight had been reduced from 70 pounds to approximately 35 pounds. However a navy physician reported that considering the experience his condition was surprisingly good.

A. B. Pearson, a juvenile officer, said David related that a "big boy" whose name the victim did not know, slammed the door of the tool compartment shut on him last November 5. David said he had climbed inside to retrieve a jacket which he said the other boy had thrown in after an argument.

# German Journalist Minimizes Menace Of Postwar Reich

SEATTLE, Nov. 13 (AP)—Minimizing the potential menace of a defeated Germany, Konrad Heiden, German journalist who escaped from the Nazis into France in 1933, declared yesterday that England, along with Germany and France, will drop to the rank of a second rate power in a postwar world dominated by the United States, Russia and China.

Heiden, one of 28 intellectuals given special visas to enter the U. S. from France in 1940, said "for at least 20 years she (Germany) will be psychologically afraid to effect the alliances that conceivably could permit her to become dangerous."

"And within 25 years Germany, like France and England, will appear among the nations that do not count any more as first rate powers."

# Wanted--One of Patsy's Puppies for Billy Mann

Does anyone have a female puppy out of "Patsy," pedigreed Irish setter belonging to Billy Mann, formerly of this city? This may seem a strange request, but there is a heart-rending story behind it.

"Patsy" was given to Billy here by a young soldier, and from that minute on, the two were inseparable, and when the family moved to California, Patsy was taken along. The dog literally worshipped the young

boy, and each day at 3:15 she would cross the road to a designated spot to await his arrival from school.

On Halloween, Billy was delayed at school because of a special program, and "Patsy," becoming worried, ventured up the road to look for him. Suddenly a car swerved around the corner and hit the dog, killing her instantly.

The family is grief-stricken over their loss, and Billy has been temporarily removed from school, because his sorrow is so extreme. He refuses to eat, cries during the night, and seems unable to reconcile himself to the misfortune.

This story was given to The Herald and News by Billy's grandmother, Mrs. Maye Stillwell, 2115 Stark, Portland, Ore., because the Mann family had so many friends in Klamath Falls and the dog was equally well-known and loved by adults and children alike.

She has had two litters of puppies within the last two years, many of which were sold or given to residents of Klamath county.

Mrs. Stillwell would like to find someone who owns one of the female puppies, and if possible, buy the dog and ship it to her grandson. It would be the best way to help lessen his grief, and about the only thing that could ever take the place of "Patsy."

# NOT ENOUGH BLOOD, SAYS ARMY PAPER

PARIS, Nov. 13 (AP)—The army newspaper Stars and Stripes in an editorial today declared "There just isn't enough blood being given by the folks back home" for the bloodbank in the European theater of operations.

Under the editorial, headlined "It Takes Blood to Win a War," appeared a picture of British girls donating blood with the caption: "Stack this against what medical headquarters report about blood shipments from the United States to the ETO."

The editorial went on to say that medics have a quota of five pints of blood for every GI in combat and thus far they have been able to store up only two pints for every man in action.

"For the lack of that blood—some suffering GI—many suffering GI's—will die," the editorial stated.

"Strangely enough blood donations in the states rise when the war news is bad and fall when it gets good," it continued. "But when the war news is good is when the blood is needed, because it takes blood—lots of blood—to make it good."

The editorial concluded "All honor to these patriotic British girls," adding "American patriots please copy."
