ing out a triangle formed by that channel and the Noora and West-ern canals, and virtually closed up to the Maas river bend on a seven-mile front to Roermond in Holland.

Here, the German radio declared, a major attack is likely to be launched "in a few days' time."

To the south Lt. Gen. George S. Patton Jr. threw new armored forces into the third army's battle from the bridgeheads near Thionville which were punched as far as eight miles east of Koenigsmaecher.

Drawing their net tighter about Germans possibly preparing for a siege stand inside Metz, third army troops completely surrounded the Verdun fort group just southwest of the city and across the Moselle from the stronghold of Fort Briant. Infantry captured Lorry la Metz, a mile northwest of the city.

The twin offensives of the first and 9th armies had deepened the five-to-10-mile wedge in the Siegfried line by at least one to two miles, with the dough-boys now fighting within seven miles of Julich and 28 miles from the Rhine.

Strand Outlines Need for Building Program in Schools

(Continued from Page One)

Oregon and Oregon State are in disrepair and fail to serve their purpose adequately.

R. C. Groesbeck, who introduced Strand and is a member of the state board of higher education, said that the matter of providing adequate buildings should be a problem for all the people of the state, and the burden should not be loaded upon the shoulders of the boys and girls who attend the schools. He pointed out that construction money must come from the people through the legislature.

POSTWAR PLANNING GROUP HOLDS MEET

The regular monthly meeting of the postwar planning committee was held Thursday night, November 16, at the Pelican cafe for dinner. The chief speaker of the evening was E. P. Ivory, who gave a survey of the probable future of the lumber industry in this area. He pointed out that if business were allowed to run its natural course, a decided decline in income and payroll would result.

However, after painting this pessimistic picture, Ivory offered a few suggestions to counteract this probability, and his talk was followed by a general discussion with questions and answers.

Roosevelt Thanks Cabinet Choosers

WASHINGTON, Nov. 17 (AP)—President Roosevelt—saying he didn't know whether he was being sarcastic or ironical—smilingly thanked the newspapers and radio today for offering him at least five new cabinets. He commented at his news conference when a reporter asked him about speculation that Postmaster General Frank C. Walker plans to resign. Leaning back in his chair with a grin, the president said: "Between the press and radio he has offered five cabinets none of them with the same people on them. That's awfully good of the press and radio, he said, and he wanted to thank them all. Then, as an after thought, he added he didn't know whether that was sarcasm or irony."

TAX UPON TAX

KANSAS CITY, Nov. 17 (AP)—W. G. Austin, manager of the Merchants association, says some stores are charging the 2 per cent Missouri sales tax on the federal tax. For example, the federal luxury tax on a \$300 fur coat would be \$60. The store charges the 2 per cent tax on \$360, not \$300. Austin says he's going to advise stores now to compute taxes.

FUTURE HINGES ON 'FORGOTTEN PEOPLE'

WASHINGTON, Nov. 17 (AP)—A CIO vice president contended today this nation's future largely hinges on whether "decent American wages are assured the 11,000,000 forgotten people" now earning less than 65 cents an hour.

Emil Rieve, who also is president of the Textile Workers union, testified before a special senate subcommittee on wartime health and education studying legislation that would declare straight-time wages of less than 65 cents an hour substandard. Asserting when war plants shift to civilian production and cut down an overtime, "our national salary and payroll bill of \$90,000,000,000 will shrink to about \$70,000,000,000," Rieve added: "The contraction in the national payroll would start a downward spiral which would result in another rationed calamity."

Endorsing the pending bill as a minimum step, Rieve said the additional cost of a 65-cent minimum to the 1943 wage bill would be \$5,500,000,000.

"It will not in itself," he asserted, "be adequate to close the gap in buying power, but would be a considerable contribution to this end."

PORTLAND, Nov. 17 (AP)—Brig. Gen. Thomas E. Rilea, adjutant general of Oregon now on leave for active army duty, left here last night for an undisclosed military assignment overseas. equipped booth to vote there was a clashing of gears and a "voice that all America knows" complained that "the goddam thing won't work."

Time magazine ought to know better. Even if FDR did say it the probably didn't it will be successfully denied and Time will be left out on a limb. Besides, a lot of pretty decent people DO say things like that in moments of exasperation. Only the fact that it is (allegedly) the President of the United States, who is supposed to be a model for the people, makes it a story at all.

Printing such things (presumably on hearsay) certainly isn't very good taste on Time's part.
