

Mike Turnesa Surges Ahead In Portland Golf Tourney

Bill Selkirk, assistant pro at Reames Golf and Country club, carded a 78-81-159 for the first two rounds of the Portland open.

By RUSS NEWLAND PORTLAND, Ore., Nov. 25 (AP)—The forgotten man of the tournament, his name Mike Turnesa of White Plains, N. Y., was leading the Portland open today as a crack field of professionals and amateurs teed off in the third round of the 72-hole open, \$15,500 bond event.

Mike, one of the seven Turnesa brothers of the links and a veteran of the sport, was completely overlooked when the firing started two days ago. Less spectacular than many of his fellow pros, he put together the two most consistent rounds for a 36-hole total of 142 and the No. 1 position in the parade.

Heavy footing underneath, and greens made more tricky by water failed to affect Turnesa's game. He racked up a 36-35-71 first round to take second place in the race. Identical nine hole scores yesterday enabled him to pass the opening day's leader, Sam Sneed of Hot Springs, Va.

Sneed, just out of the navy and the main attraction of the tournament, trailed Turnesa by two shots as he went into third round action. After a two under par 70 for the first day, Slammin' Sam lost his putting touch yesterday to take a 74. He was still within easy striking distance, however.

Behind these two were Zell Eaton, long time competitor, seldom winner, now registered from Los Angeles, and Harry Umbinetti of Seattle. Umbinetti is a former Washington state amateur winner and Lowery once held the Massachusetts state simon pure title while a resident of Boston.

The field was trimmed to the low scoring 51 pros and 28 amateurs for the last two rounds, the final eighteen to be played Sunday.

LEISURELY ROBBERY VANCOUVER, B. C., Nov. 25 (Canadian Press)—Herding five women and three men employees into a corner, an armed bandit made a leisurely cleanup of tills in the Bank of Commerce branch in suburban Vancouver yesterday and escaped with approximately \$2000.

"F" Company Leads Post Kegling Loop

Monday night, the keggers of the Marine Barracks Bowling League found the pins not easily leveled. Only two men, Ember-ton (216) and Robinson (208) came up with counts of better than 200, except for the powerful "F" Company team, which garnered six of those counts and established a new record with a 988 single game.

McNew, again, led the "F" Company attack, rolling games of 204 and 216. However, the biggest boost for the 988 game was Sklenko's masterful 240. Others on the team with high counts were Smith, 203, and Johnson, 207 and 201.

"F" Company remained on the top rung. That outfit won three games last week, but didn't make the match scheduled for Monday. They will be charged a forfeit as long as their games are made up before league play next Monday. In a tie for second place are

the officers and "I" Company, one game out of first.

Market Quotations

NEW YORK, Nov. 25 (AP)—Specialized buying helped the stock market keep its balance fairly well today although many leaders rested in the minus column. As in preceding sessions, bullish sentiment was propounded by earnings, dividends and technical situations. The good war news again brought a little liquidation because of reconstruction doubts while bond tax prospects and scattered year-end tax adjustments stimulated numerous profits.

WHO CENSORS RADIO, ASKS UPTON CLOSE

LOS ANGELES, Nov. 25 (AP)—Radio Commentator Upton Close says the action of the National Broadcasting Company in barring him from its network raises the question of "Who, after all, is the censor over radio," and that he will place his case before the senate and house committees on interstate commerce.

Close, in a statement to the press, said he had received a telegram from E. K. Jett, acting chairman of the federal communications commission, stating that "Determination of what commentaries should be used on networks programs is made by networks or by sponsors, subject to network approval."

The commentator said a confusion exists as to what is meant by "sponsors" subject to network approval and that "Mr. Jett seems to leave no room for the protection of the public interest in case of an arbitrary decision by a network official."

"Obviously, the entire matter must be clarified," said Close. "Otherwise we have what amounts to censorship and, in addition, a confused censorship, and it is subject to pressure from many sources."
