MAILING PROGRAM

nediately, Hawkins said. There are indications that Christmas shopping is in full swing but the volume of mailing is not as great as it was last year at this time. The public is again requested to mail packages as soon as possible as delivery of gifts by Christmas will be impossible if a flood of parcels reaches the postoffice during the past few weeks before the holiday. The war-time burden on all transportation and postal authorities will make it an absolute impossibility to deliver a late rush of gifts on time, according to the postmaster.

It was pointed out by Hawkins that Christmas mail is a morale factor on the home front just as it is overseas and, knowing this, the postoffice department is doing all it can to insure all packages and cards arriving at their destinations on time. the volume of mailing is not as
