

SCHOOL GROUP TO FORMULATE SUPPORT PLAN

The southern Oregon division of the Oregon State Teachers' association will meet in the office of Fred Peterson, superintendent of Klamath county schools, Saturday morning at 10 o'clock. This committee was responsible for the recent proposal for permanent state school support which appeared on the ballot at the last election in the form of a constitutional amendment. It was defeated by a narrow margin.

Realizing that a real emergency exists and that some form of legislation must be passed at the coming session of the state legislature if Oregon schools are to maintain even a semblance of their former high ranking in education, this committee is called to attempt to formulate some plan to present to the legislature. Prior to this emergency Oregon held sixth place in the nation in the field of education.

Dr. Walter Redford of the Southern Oregon College of Education, Superintendent C. R. Bowman of Jackson county, Superintendent M. Winslow of Grants Pass and Theo Norby of Ashland, C. C. Caldwell of Lakeview, E. H. Hedrick of Medford, Fred Peterson and Arnold Grapp of Klamath, and Principal Cecil Roberts of Grants Pass, Wyatt Padgett and Clifford Rowe of Klamath Union high, are members of the committee who will take part in the discussion and help make plans for future action.

There are nine other such committees in the state working on the same problem. The findings of each committee will be forwarded to a central committee made up of the chairmen of each regional committee. The central committee will coordinate the findings of the regional committees.

FORMER HEALTH BUILDING BOUGHT

Purchase of the former county health center building at Eighth and Pine streets, long known as the Hanks property, was completed this week by William H. and Margaret A. Fluhrer as an investment looking toward future business development. The consideration was not given. The property consists of a large residential structure and corner lot, long owned by Mrs. Marion Hanks. It is at present occupied by a business college, and for a number of years was the home of the county health center, which moved recently to the former Lightfoot hospital building.

NEW TYPE OF MONEY ORDER TO BE SOLD

Postmaster General Walker announced today that a contract was awarded today for the manufacture of 100,000,000 postal notes and efforts are being made to place this new and inexpensive type of money order on sale at all of the 1575 first class post offices by approximately January 1, 1945.

The new type of money order will be made available to post offices other than of the first class as rapidly as adequate stocks of postal notes come from the presses. However, from the beginning they may be cashed at any post office in the United States.

Eighteen denominations of stamps will be issued in connection with the postal notes. They are from one to 10 cents, and in 10 cent graduations up to 90 cents. There will be 11 denominations of notes from \$0.00 to \$10.

The new postal note is designed as a safe, convenient and economical way of sending through the mails amounts of money not exceeding \$10. Simplified methods of sale and accounting make it possible to handle the notes at a uniform fee of 5 cents. The conventional money order is not being displaced by the new note.

This is the procedure that will be followed when postal notes become available. A person who wants a postal note for \$2.93 will go to the money order window. The clerk will affix a 90 cent and a 3 cent stamp to a \$2 postal note, and exchange the note for \$2.98. There are no applications for the purchaser to fill out, no writing to be done by the clerk.

The purchaser leaves the window, writes in the name of the payee on the note, detaches his record stub on which he records the payee's name, and mails the postal note. The note itself is a preprinted calculating card form.

MRS. DUNCAN READS PAPER ON TRAPPERS

Geneva Glenn Duncan presented a paper on "Trails and Trappers of the Klamath Country" whose visits here antedated the coming of the explorers and the pioneers, at a meeting of the Klamath County Historical society Wednesday night.

Finan McDonald's trip into the northern part of the Klamath region in 1825 is generally regarded as the first recorded visit of a white man here, Mrs. Duncan said. She told of the trails followed by McDonald that year and Peter Skene Ogden the next year, and other trappers who were reported around Klamath and Goose lakes, as well as in the Mt. Shasta country, in the early part of the last century.

Mrs. Duncan pointed out in her paper that the Klamath country had been under the flag of four nations—Spain, Russia, England and the United States.

PROFIT SHARING PLAN APPROVED

A plan whereby eligible employees of Pacific Fruit and Produce company will share in the company profits has just been approved and is now in effect, according to Frank Clanton, manager of the Klamath Falls branch.

This plan, it was reported, will enable employees, who participate, to build up a sizeable personal retirement fund without any contribution to the fund on the part of the employee. The company makes all contributions to the fund for the individuals who participate.

Announcement of the profit sharing plan was made to all employees of the Klamath Falls branch at a dinner held last night in the Winema hotel. A. H. Klug, district supervisor for Pacific Fruit and Produce company, was guest at this dinner and later explained all the features and benefits of the plan to those present.

Many Juveniles Apprehended

A number of boys and girls under the age of 15, apprehended by the city and juvenile officers on the streets of Klamath Falls, the curfew deadline of 11 p.m. of this continues. It will be court action. The city ordinance provides that children under 17 be brought on the streets, or be subjected to a fine of \$10 or both.

This curfew is necessary because of the increase in juvenile delinquency. A stricter enforcement of the curfew ordinance is contemplated in an attempt to prevent the delinquency.
