

# INFLAMMABLE NIP TARGET HIT BY BOMBS

(Continued from Page One)

bomber command "if any, will be determined and announced after final enemy reports are carefully tabulated."

Upsetting enemy defenses, the Superforts made a feint toward Tokyo and then cut north-west to Nagoya, withdrawing over Nagoya bay after making their bombing runs.

Wind Slows B-29s

Where bombing runs on Tokyo were made with the wind at great speed over the target, today's Superforts went into action in the face of a westerly wind, slowing their speed and probably increasing the accuracy of their bombing.

The planes also flew 3000 to 4000 feet lower than they did in the Tokyo raids, flying under the cirrus cloud layer to avoid leaving vapor trails.

As Gen. Jimmy Doolittle's daring raids did more than two years ago, the B-29s employed the great Nagoya castle on the city's highest ground about seven miles north of the docks area as a landmark.

Black smoke billows high in ack-ack filled sky from this American destroyer, victim of Jap dive bomber in Philippine Sea. The small white plume of smoke next to the doomed ship marks end of the Nip plane, shot down in a hail of anti-aircraft fire. U. S. Navy photo.

## SNOW INCREASES TRAFFIC HAZARDS

(Continued from Page One)

The deep south also was enjoying mild, clear weather.

In the east central and eastern states, the weather bureau said, cloudiness and snow flurries persisted. Traffic deaths in this area mounted as new deposits of snow put a treacherous coating on streets and highways.

Schools Closed

In eastern Kentucky, which already had seven inches of snow, precipitation continued and many roads were declared unsafe for travel. Schools in that area were closed.

While snow still fell in several eastern sections—already having reached a depth of 36 inches in West Virginia—the bureau predicted a cessation before night-fall.

In Canada 18 persons lost their lives from causes directly attributed to a storm which centered in Ontario.

Moves East

The storm which struck the midwest sector during the weekend yesterday spent its fury in Pennsylvania, West Virginia and New York state, although the whole east coast and the southern tier of states were in the grip of the swirling snow and gale-like winds.

The storm inflicted severe hardships to thousands and brought curtailment of production at numerous war plants due to absenteeism caused by impaired transportation facilities. Trains and planes operated far behind schedules while automobile and bus travel was seriously hampered by snow-covered highways.

## Service Men and Women Home on Leave

A/S Melvin Tingley from Farragut, Ida. Here until December 19.

S2/c Gerald Arthur Bradford from Farragut, Ida. Here until December 17.

F1/c Wayne Yancey from Norfolk, Va. Here until January 1.

ANM 1/c James L. Bratton from South Pacific. Here until January 7.

Pvt. Leo Molatore from Ft. Jackson, S. C. Here until December 17.

## SENATORS ATTACK RUSSIA, BRITAIN

(Continued from Page One)

the foreign affairs committee, leaped to his feet with the assertion that Gavin had "rendered a disservice to his country and to the allies."

"Encourages Hitler"

"We ought to suppress statements like this," Johnson said, adding that they tend "to promote disunity, prolong the war and encourage Hitler."

Republican Representatives Fish (N.Y.) and Hoffman (Mich.) defended Gavin's right to speak his mind. Fish admonished Johnson for criticizing a member who "dares to tell the truth."

Representative Bulwinkle (D-N.C.), pleading for unity among the allies, cautioned his colleagues that "careless words used on the floor of this house cost lives just as much as careless words anywhere else."

Fish, who had returned to his seat, took the floor a few minutes later to declare "it is the duty of all us—republicans and democrats alike—to speak out and tell the truth regarding our allies."

## DISPUTE DELAYS SPUD SHIPMENTS

(Continued from Page One)

present it is not known when the situation will be cleared up.

The shortage of railroad cars for shipping which has existed on both the Southern Pacific and Great Northern lines has been overcome and plenty of cars are now ready to roll.

The onion crop, which has remained frozen in the field since November, has also begun to be moved and growers figure only a six to 10 per cent loss on the crop. Six carloads were moved out Monday to Gilroy, Calif., where they went to the C. B. Gentry Dehydrating company while other growers are reported to be putting the onions in storage to dry out.

## Armour Replaces Hayes in Spain

WASHINGTON, Dec. 13 (AP)—The White House announced today the resignation of Carlton Hayes as ambassador to Spain and the nomination of Norman Armour to replace him.

Armour now is acting director of the state department's office of American republic affairs. At the time of the appointment of Secretary of State Stettinius and the reshuffling of the top level of department positions, President Roosevelt announced he would give Armour an important new position.

Armour formerly was ambassador to Argentina. He was recalled several months ago when United States-Argentina relations became strained.

## Britain, Russia Set Up Spheres of Power

(Continued from Page One)

advocating formation of a security-economic bloc which would include France, Belgium and The Netherlands.

The resolution, put forward by the party's executive committee, carried by a card vote of 2-445,000 to 137,000. These votes were cast by about 1000 delegates, each of whom represents a union of known membership.

Demands that the party break away from the government policy won applause but were beaten in the balloting after Ernest Bevin, minister of labor, bluntly told the delegates that the laborite ministers in the Churchill coalition government accepted full responsibility with the prime minister for British policy in Greece.

## New Move Set To Save Folkes

PORTLAND, Ore., Dec. 13 (AP)—A new move to save Robert E. Lee Folkes, 23-year-old negro, from the lethal gas chamber in the "Lower 13" murder case developed here today.

Nicholas Granoff, attorney, said he had been employed by a committee of California negro women who hope to enlist public support sufficient to prevent his execution, and, if necessary, intend to carry the case to the president of the United States.

Folkes, former dining car cook, was convicted of killing Martha Virginia James, 21, of Norfolk, Va., as she lay in a lower berth on a Southern Pacific limited train in January, 1943. He was sentenced to death. Both the Oregon state supreme court and the United States supreme court refused to disturb the verdict. He has been resentenced to death on January 5. Granoff hopes to obtain a rehearing by the U. S. supreme court.

## Magnuson to Sponsor Alaska Highway Bill

WASHINGTON, Dec. 13 (AP)—Warren G. Magnuson, senator-elect and appointee from Washington, today set in motion plans for an Alaska highway bill next session.

Magnuson, now a representative, was elected to the senate for the term beginning January 3, and was appointed yesterday by Governor Langlie of Washington to serve the remainder of the term of Senator Bone (D-Wash.), who resigned to become a federal judge.

# CONVOY SUNK OFF WESTERN LEYTE SHORES

(Continued from Page One)

swarms of Nipponese fighters over the convoy, sank three destroyers, a transport of 10,000 tons, a second of 3000 tons and a third of 4000 tons.

That night, two patrol-torpedo boats sent down a 3000-ton transport of the convoy at anchor at Palompon.

Palompon, connected by a poor, winding trail to the Ormoc corridor, is the supply port of last resort for the Japanese since the loss of Ormoc port, 16 miles to the southeast.

Tuesday at Palompon, Yank planes so severely blasted a fourth destroyer and two freighter-transporters that all probably sank.

The enemy airforce not only made a stiff fight over the convoy but also scored some damaging blows against an American supply convoy Sunday night as it was retiring from Ormoc after unloading.

"Fifty enemy planes were destroyed in combat with five additional probable," today's communique said.

"We lost eight fighters."

Japan has lost well over 1000 planes in the fight for Leyte. The reinforcement convoy losses to date total 39 transports and 28 escorting warships.

Still plagued by rains, Yank ground forces on west Leyte maintained pressure on Lt. Gen. Tomoyuki Yamashita's defenders below Limon in the north sector of the Ormoc corridor. Captors of Ormoc port organized the base "for further operations."

## Clark, Wilson To Liquidate Lumber Holdings

PORTLAND, Dec. 13 (AP)—Stockholders of the Clark and Wilson Lumber company, Portland's largest and the third largest in Oregon, voted today to liquidate the company's 40-year Oregon holdings by the end of December, 1947.

Carl G. Kinney, vice president and general manager, said the company would be forced to cease operations because "we have simply run out of timber and there is no more that we can buy."

The company's holdings include two small sawmills at Linnton, one at Prescott, Ore., and extensive logging operations in Columbia county. The company employs some 825 persons.

More than one-half of the fresh water area of the world lies within the boundaries of Canada.

## Tug Sinks After Colliding With Ship

SEATTLE, Dec. 13 (AP)—The 120-foot U. S. army tug LT-239 sank within four minutes after colliding with the Alaska Steamship company vessel, Victoria, in the inland passage to Alaska, 90 miles south of Prince Rupert, B. C., Dec. 6, it was announced here yesterday.

The tug's 13-man crew was saved but all belongings lost.

## EDITORIALS ON NEWS

(Continued from Page One)

has many weird slants. This might be one of them.

For whatever reason, our policy is obviously HANDS OFF HIROHITO.

THERE'S a new mystery on the western front. The Germans are throwing up GHOSTLY SILVER BALLS which FLOAT IN THE AIR. What else they do, the censored dispatches don't say—asserting merely that "no details are available."

THE Russians take the strong point of Godollo northeast of Budapest and draw up their artillery in CLOSE formation north and south of the city. Civilians have been pretty well evacuated already, and the dispatches say the Germans appear to plan a last-man, last-hour stand.

Red Star says the Germans are hurriedly removing military depots and war plants from the AUSTRIAN BORDER.

THERE is apparently considerable dissatisfaction in England with Britain's Greek policy. The British labor party, voting through its executive committee, adopts a resolution calling on the government to bring about an IMMEDIATE armistice in Greece, but carefully avoids denunciation of Churchill's intervention policy.

A spokesman for the important miners' union says: "We have to support it out of UNITY, but we regret the bankruptcy of our present leadership."

This paragraph slips through the CENSORED dispatches telling of the labor party action: "An army captain in uniform—Raymond Blackburn—asserted that British policy in Greece has stuck in the gizzard of even big Businessman Stettinius, U. S. secretary of state, and has made Moscow VOMIT."

## Mattoon Accompanies Prisoners to Salem

Deputy Sheriff Dale Mattoon left Wednesday, accompanying four prisoners to the Oregon state penitentiary at Salem. The four who will serve time at Salem are Donald Leron Johnson, convicted on a forgery charge; Clarence Norman Johnson, forgery; Calvin Bruce McCowan, statutory rape, and Everett Earl Laurie, a parole violator.

Both of the Johnson boys and McCowan received their sentences from Circuit Judge David R. Vandenberg on Saturday, December 9.

Return Here—Mr. and Mrs. George Moulton have returned to their home at 1841 Orchard, from Red Bluff, Calif., where they accompanied the remains of their son Billy, who died here December 1. Billy was buried in the family plot at Oak Hill cemetery and services were conducted by George Wright of the Four Square Gospel church. Billy, 15, was a freshman at Klamath Union high school at the time of his passing.

## HE STARTED WORD

The ancients taught that all material was composed of four elements—earth, air, fire and water. Aristotle added a fifth, which he called the essence of matter, and this gave us the word quintessence.
