Senate Confirms Grew, Rockefeller (Continued from Page One) five nominees for assistant secretaries of state. The senate quickly confirmed

the nomination of Nelson Rockefeller to be an assistant secretary, by a vote of 62 to 10. Fight Nears End The fight against the six state department nominations neared collapse today when President Roosevelt made known he would

only send back the same names if confirmation is blocked now. Senator Pepper (D-Fla.), who has been leading the fight against the six appointees, said Mr. Roosevelt had informed him that he would renominate the six when the new congress

meets in January if the senate was prevented by lengthy debate from voting on the group before Christmas adjournment. Confirmation Forecast Administration leaders, announcing that a complete vote probably would be reached dur-

ing the afternoon, forecast the confirmation of the following: Assistant secretaries, Archibald MacLelish, W. L. Clayton, James C. Dunn, and Brig. Gen. Julius Holmes. Pepper said he was authorized by the president in a tele-

phone conversation to announce to the senate that Mr. Roosevelt had said that any of the nominees who did not carry out the president's policies while in office would be removed immediately.
