Today's Roundup

By MALCOLM EPLEY
THE prevailing tolerance of the American people is a shining light in this dreary world. Consider the case of the Hood River American Legion post incident. After the post erased the names of Japanese-American soldiers from its honor rolls, the whole country was swept with indignation.

EPLEY

There's a Difference
THERE is a difference between intelligent tolerance and sentimental softness. The latter, more often than not, is likely to harm those it is intended to benefit, and to make fools of those who indulge in it.

Folkes Case
WHILE we are on this subject, let's take a look at the case of Robert Lee Folkes, the negro convicted in the Lower 13 murder case.

What Goes, Ep?
IT will be remembered that a short time ago we chided our friend, Bill Bailey, of the Siskiyou News, for calling the Klamath Marine Barracks a "hospital" in a headline.

Also by watering he wearleth the thick cloud; he scattereth the bright cloud . . . And now men see not the bright light which is in the clouds; but the wind passeth, and cleanseeth them. Fair weather cometh out of the north: with God is terrible majesty. Touching the Almighty, we cannot find Him out; He is excellent in power, and in judgment, and in plenty of justice; He will not afflict.

News Behind the News

By PAUL MALLON
WASHINGTON, Dec. 22 — Mr. Churchill's cutting of the Curzon line through Poland came as a shock to the public, but not to the diplomats involved. A year or more ago, even the newspapermen in London knew Britain had an understanding with Russia for this very Stalin acquisition of prewar Polish territory.

Shows Up Opposition
THE sensational way he presented it to parliament as a cold cut finally acceptable to him may have been inspired by a different motive. To shove it forward on the table now showed up the opposition which was pressing him on the Greek affair.

Takes Portion
THE disillusioning fact of the matter was that Britain went to war to save Poland. That is how this started. While the British and French were in Moscow trying to make a deal with Stalin, Hitler announced a nonaggression pact with him (August 21, 1939) to run for 10 years whereby neither would oppose the other.

Poland Not Excepted
THE Stettinius statement was issued in respect to Italy and Greece, where the British were interfering, but no exception was mentioned of Poland where the Russians are taking.

That is the case—and the issue.

Housing No Problem for Ducks

Humans may have to scurry around in Washington looking for sleeping quarters, but there's no shortage of housing for ducks in the district, as is shown by this plentiful flock, vacationing briefly in the capital before journeying farther south. Picturesque National Capital Parks' refuge on Potomac is favorite parking spot of pintails and such.
