WASHINGTON, Dec. 28 (Pr)—
The United Nations relief a nd reliabilitation at ministration (JNRRA) plans to use \$21,000,000 earmarked for domestic weel purchases to supply fabricating plants in liberated countries, Rep. Barrett (R-Wyo.) asserted today.

The \$11,000,000 the agency expects to spend for clothing will consume little domestic wool and make virtually no dent in the nation's big wool stock-pile, he added.

Wool state congressmen, in writing into the UNRRA approphation bill the requirement that [21,000,000 be spent for domestic wool. expressed hope that it would be manufactured into tlothing in this country to sell Europeans on the quality of American clothes.

Unfortunately, Barrett said, UNRRA is unable to make any purchases of wool at this time secause of unsettled conditions in Europe, lack of shipping and peed for rehabilitation of the forign factories.

"It looks as if we are going is have to depend on the services and a few domestic mills to utilize our own product. It seems played that, with a national consumption of 900,000,000 to 1,00,000,000 pounds of wool a fear it should be hard to get rid four own wool crop of only 100,000,000 pounds a year."

The wool stockpile in this fountry now totals about 1,250,400,000 pounds, he said. He included about 140,000,000 pounds of British wool bought by the deby British wool bought by the defense supplies corporation, about \$200,000,000 pounds of domestic wool in the hands of the commodity credit corporation, 200,000,000 pounds of all kinds in mill stocks and 500,000,000 pounds of British-owned wool.

Reps. Fisher and Poage, Texas democrats, also said they were concerned about UNRRA clothing plans and would investigate.
