NEW RECORDS SEEN IN SP '44 TRAFFIC

Southern Pacific's freight and passenger loads piled up new all-time traffic records in 1944, President A. T. Mercier reported today in a year-end statement of the railroad's activities.

The company's net ton miles of freight in 1944 will be slightly greater than in 1943. This represents a new all-time high for the fifth year in a row, being nearly three times the load carried in 1939, the last year before defense production affected rail transportation.

Passenger miles for 1944, it was stated, will exceed last year's by more than 11 per cent, being five times those of 1940, a fairly normal year, and establishing a new all-time record for the third year in succession.

Net income in the year just ending, however, will be approximately 35 per cent lower than that of 1943, and is expected to run about 53 per cent behind that of 1942, it was noted, due to higher wages, increased material costs and mounting tax payments.

PORTLAND, Ore., Dec. 28 (AP)—A burglar broke through the second floor of a vacant building adjoining a downtown cafe, forced a door, and dropped into the cafe kitchen through a trap door.

His loot: one 40-cent sweet potato pie.
