NEW kind of ASPIRIN tablet
doesn't upset stomach

When you need quick relief from pain, do you hesitate to take aspirin because it leaves you with an upset stomach? If so, this new medical discovery, SUPERIN, is "just what the doctor ordered" for you.

Superin is aspirin plus—contains the same pure, safe aspirin you have long known—but developed by doctors in a special way for those upset by aspirin in its ordinary form.

This new kind of aspirin tablet dissolves more quickly, lets the aspirin get right at the job of relieving pain, reduces the acidity of ordinary aspirin, and does not irritate or upset stomach—even after repeat doses.

Take this out to remind you to get Superin today, so you can have it on hand when headaches, colds, etc., strike. See how quickly it relieves pain—how fine you feel after taking. At your drug-gist's, 15¢ and 39¢.

MIRACLES

DEFINITION: A miracle is something done which goes beyond the ordinary laws of nature. In Mark 16:17-19 we find mention, "Casting Out Devils," "Speaking With Tongues," "Serpents Biting," "Drinking Poison," and "Healing the Sick"; In Acts 20:9-10, "Raising the Dead"; In Acts 24, "Direct Revelation." These things were all used in the days of the apostles. (See Mt. 10:8). When one ended, all ended. I think all are agreed on this point. Miracles ceased when the Bible was completed, and thoroughly confirmed, about the year 96 or 100 A. D. People are wondering why the dead are not being raised today. The answer is that these gifts were removed from the earth by the Lord.

More tomorrow.
