YANKS SMASH NAZI ROAD, RAIL POINTS

LONDON, Jan. 3 (4%—Eleven hundred American Flying Fortresses and Liberators smashed rail and road centers in western Germany for the 12th consecutive day today for a new record for sustained winter bombing.

The skies were cloudy. Only a solitary German fighter, which made an ineffectual pass at one bomber formation, was sighted by the 600 escorting Thundershop to the foot sand Mustangs.

The bombers spread from 3000 to 4000 tons of explosives over highway intersections, ripe for traffic jams, northwest of Karlsruhe and along the Belgian-German border, and over raily yards jammed with front-bound treight at Cologne, Aschaffenburg and Fulda, near Frankfurt.

They followed RAF raids last night on Nurnberg, Ludwigshafen and Berlin.

British and American forces teamed yesterday in 1wo 1000-bomber blows—one by day and the other by night. Their targets were railway yards congested with freight, key highway intersections and tank and troop concentrations concealed in woods.
