MORGENTHAU FAVORS HIGH TAX STRUCTURE

WASHINGTON, Jan. 11 (AP)—Treasury Secretary Morgenthau said today he favors maintaining a "strong tax structure" after the war to speed retirement of the national debt.

He told a news conference: "I think people of my generation—of my age—should realize that for the rest of our lives we will be paying high taxes. And I think we should."

Morgenthau is 53. His views came in the wake of a prediction from Chairman George (D-Ga.) of the senate finance committee that the post-war federal budget will be about \$20,000,000,000 a year. This compares with the \$83,000,000,000 which President Roosevelt has asked for the coming fiscal year.

Further, George told reporters, he is prepared to fight to see that \$2,000,000,000 or more of the \$20,000,000,000 is set aside for reduction of the public debt. According to the president's own estimate, the debt is due to rise to \$292,000,000,000 by June 30, 1946.
