The great drive below Warsaw through Poland meanwhile had carried soviet vanguards within 27 miles of German Silesia, rich in coal and steel, Moscow dispatches said.

250,000 Tons Of Jap Ships Sunk by Navy

WASHINGTON, Jan. 17 (AP)—The naval forces striking at the Japanese in the western Pacific during the past two weeks have sunk more than 250,000 tons of the enemy's ships.
Rear Admiral M. F. Schoeffel, assistant chief of staff for naval operations, made this announcement at Navy Secretary Forrestal's news conference today, and said the operations which began January 2 with an aerial strike against the island of Formosa were all a part of a general pattern.

Former Klamath Man Passes Away

William W. McNealy, for many years active in civic and club interests in Klamath Falls, died Monday night, January 15, in a Portland hospital, according to word received here by friends. Death was attributed to pneumonia.

Mr. McNealy came to Klamath Falls in 1920 from Mt. Hebron, Calif., where he had been associated with the Southern Pacific. For five years he served as office manager for Henry N. Moe, who owned and operated Moe's store at that time. Later Mr. McNealy went into the insurance business and for some 11 years was with the Klamath Ice and Storage company. He was secretary for the Klamath Falls Kiwanis club for many years. Several years ago Mr. and Mrs. McNealy moved to Portland and he was employed at the Kaiser shipyards.

In addition to his wife, Arlene, Mr. McNealy is survived by a daughter, Mrs. William (Ruth) Donnelly, one granddaughter and one grandson, all of Portland. Mr. McNealy was a member of St. Paul's Episcopal church here. The family has resided at 6120 N. Campbell in Portland. Final rites are being arranged by A. J. Rose and Son, SE 6th and Alder, Portland.

Klamath Gets Quota of Snow

Klamath county joined the rest of the nation in receiving its quota of snow as a blanket of white covered the basin Wednesday. Starting in mid-morning, big flakes swirled over this area but mild weather caused streets to be covered with a muddy slush which melted in the gutters.

Men at the Marine Barracks and the Klamath naval air station, who have an active winter sports program ready to go as soon as weather permits, welcomed the change from thawing conditions of the past few days.

County Engineer Walley Hector reported the thaw had brought considerable damage to a number of county roads, and that stretches in Langell valley and near Sprague River were particularly hard hit.

The US weatherman, who said the mercury fell to 26 degrees early this morning, had nothing to say about continued snow but forecast Thursday "generally clear" by mid-afternoon but continued cool.

"No Jap Trade" Wanted in Valley

PORTLAND, Ore., Jan. 17 (AP)—Anti-Japanese feeling manifested itself in a new way in two Oregon communities today as signs appeared in store windows warning returning Nisei that "no Jap trade" is solicited.
Placards sprouted throughout Hood River valley, where the American Legion post recently provoked bitter controversy by erasing names of Japanese-American soldiers from its honor roll. Groceries, repair shops and filling stations joined in the move.

(Mich.) for four-power pacts to demilitarize Germany and Japan, and by Senator Connally (D., Tex.) for formation of a provisional council to study European political problems while peace organization treaties are being ratified.

Secretary of State Stettinius today gave the senate foreign relations committee an hour-long report on international affairs, but Connally later said "the discussion was not on any particular matter—it was simply a general review and conversation."

To Discuss Later
Connally added he did not bring up his proposal for a provisional council but said he will talk to Stettinius about it later.

Mr. Roosevelt already has given the Vandenberg plan an encouraging word. Referring at his news conference yesterday to a White House meeting with eight senators last week, Mr. Roosevelt said he and the senators had a pleasant meeting and that they were in agreement.

Marine Given 2-Year Sentence

PFC John W. Thrash Jr., 20, stationed at the Marine Barracks, was sentenced to two years in the state penitentiary when he entered a plea of guilty at 10 a. m. Wednesday to a charge of attempted larceny. Sentence was passed by Circuit Judge David R. Vandenberg.

Young Thrash, a native of Florida and an overseas veteran, admitted to the court the theft of a car on January 10, and that he was arrested January 12 after he had broken into E. L. Paddock's machine at the Wi-Ne-Ma parking lot. City police were forced to pursue Thrash when he made an attempt to elude officers. The marine had five convictions for various offenses during his two and one-half years service in the marine corps, it was learned from Barracks officials.

Deputy Sheriff Dale Mattoon will take Thrash to Salem Thursday morning. Sheriff Lloyd Low said, Mattoon will also take Leo Johnson to Salem where the man will serve a five-year sentence following his conviction on a larceny charge.

Small Jap Counter Attack Slows 6th Army's Flank

Then he issued "preliminary incomplete reports." These will be filled out later.

Even the preliminary accounts bring out these startling points:
1. The puny showing of the enemy armor, suggesting it lacks the diversified strength to spread out along the Asiatic shores while at the same time challenging the Superfortresses over Japan and attempting to impede American invasion progress on Luzon in the Philippines;

Aerial Belting
2. The aerial belting given Nippon's sorely needed oil tankers and oil stores; and
3. The ability of Admiral Halsey to roam the South China sea unchallenged by Japan's navy and unimpeded by her continental air power.

IF the big Russian push in Poland (and maybe East Prussia) is on, we may look upon Budapest as a closed incident. We may expect that there will be no more German spurges in that direction, such as their recent effort to relieve the beleaguered Budapest garrison.

They will need all their energy to meet the Russian drive farther north.

Deadline Set For Dog Licenses Here

Dog licenses must be obtained by March 1, according to the county clerk's office. Failure to purchase a license by that date will result in a \$1 fine.
Licenses need not be secured until a dog is eight months old and the charge is \$1.50 for a male or spayed female and \$2.50 for an unspayed female.

Swedes to Engage In Military Practice

Evacuee on Way Home After Three Years From Family

NEWELL, Calif., Jan. 17—George Danzuka is going back to his Oregon Indian reservation home, from which he has been absent nearly three years.
Danzuka could have gone home nearly a month ago, but he did not know it.
Before evacuation he had lived for 30 years on the Warm Springs Indian reservation, in Clackamas, Wasco and Jefferson counties, the nearest railroad town to which is Madras. He married an Indian woman, and awaiting him on the reservation now is a family of several children and grandchildren.
When George was relocated from the war relocation authority's Tulelake center here, August 16, 1943, he could not go to his home, which was 15 miles inside the U. S. army western defense command's excluded zone. He did the best he could, and went to work for the Great Northern railroad at Chemult, just outside the zone.
When the army lifted its blanket exclusion order, Danzuka did not hear about it until informed by his employers. He wrote the Tulelake center asking advice, and was informed by teletype immediately that he was free to go where he chose.
Now he is on his way.

Roosevelt Dog's Priority Delays Return, Says Gob

(Continued From Page One)
since only priority freight normally is included in the cargo on such planes.

Lost Time
LeRoy told his story to the American Red Cross chapter at Antioch when he enlisted its assistance in tracing identification papers and in obtaining fast transportation back to his ship because he had lost so much time in getting to Antioch from Memphis.

"I hitchhiked from Memphis to Dallas, Texas," he said, "and somewhere during the hitchhiking I lost my leave papers. The MP's picked me up and held me for two days until I was able to straighten that out. I then went to the ATC office in Dallas and finally got on a plane bound for Memphis."

Not at Home
Miss Emerson's studio in Hollywood said she left last night for Washington to attend President Roosevelt's inaugural. Reporters who called at her home found no one there.
LeRoy's story to the Red Cross was that a large box containing "a huge shaggy dog" was put aboard the plane at Dayton, O., with a list of instructions about feeding, care and walking of the dog which were given to the flight engineer.

Cargo Removed
Then on January 11, he said, more high priority cargo was put aboard the plane at Memphis, necessitating removal of some of the plane's cargo.
An army lieutenant, he added, after examining the various priorities told LeRoy, an army sergeant just back from 31 months in the Orient and a Seabee that they would have to leave the plane.

"We protested," LeRoy said, "and the lieutenant showed us the dog had an 'A' priority, while we only had a 'C' priority. The dog's crate was so large it took up three seats."
In Memphis, fourth ferrying group officials refused to comment on the incident and referred all questions to the army air forces in Washington.

ALBUQUERQUE, N. M., Jan. 17 (AP)—Mrs. Elliott Roosevelt, daughter-in-law of the president, denied today a story told by an Antioch, Calif., navy seaman that he and two other servicemen were "bumped off" an army transport to make room for a 130-pound bull mastiff consigned to her.

"I assure you that my dog travels as freight and awaits his turn," said Mrs. Roosevelt. "I certainly don't believe the dog had a priority."
She suggested to reporters that the story told by LeRoy "be very carefully checked."

Dug in Well
The Japanese are well dug in along foothills of the Benguet mountains and are making a stout and diligent attempt to prevent the Americans from securing their left flank. Pozorrubio is the key town on a highway leading to Baguio, summer capital of the Philippines.
Other Japanese tanks were sighted on the right flank of the 50-mile-wide beachhead, but the enemy has been hesitant to risk his meagre supply of thinly-armored tanks against the American firepower.

Like to boss railroad cars around?

Really make 'em move and put 'em where you want 'em? And have a switch engine to do the shoving for you? And work with a good engine crew . . . and see the war freight and the troop trains pouring in? Well, Mister, this is your job if you want it: Switchman with Southern Pacific at about \$220 base pay. (Overtime can make it a lot more.) No experience to start. We train you in a few days, pay you an allowance while training . . . make you a full-pledged railroad. It's a very important job, this. We've got to keep those war trains humping. And we've got a whole of a job ahead of us—which means lots of work ahead for you. Many other jobs open.
