Gresham Schools Reopen Today

PORTLAND, Feb. 1 (AP)—Gresham schools reopened today as temperatures rose, but schools at Corbett and Troutdale closed for a second day to avoid travel over icy roads.

The Columbia river highway was ice-sheathed from Corbett to Taibot, and ice was forming in the Bonneville area. Snow was falling at The Dalles; and the Oregon State Motor association warned drivers not to set out along the gorge without chains.

In hills around Portland, yesterday's silver thaw gave way to rain. The weather bureau forecast more snow east of the Cascades, and rain in the western valleys.

Snow fell this morning at Redmond, Crescent, and Burns.

Germany's War-Heart—Between the Rhine and the Oder

Germany's defensive dikes against the tides of defeat which roll from east and west are expected to be along the lines of the Rhine River on the west, the Oder on the east. Between them lies the heart of German war production. In the Rhineland are the great mines, steel works and factories of the Saar and Ruhr valleys. In Silesia, now under the shadow of the Hammer and Sickle, lies the only big industrial region left to Hitler not attacked or threatened by the Western Allies. To Silesia were transferred many war industries bombed out of the Ruhr and Saar.
