

NAZI SHUFFLE IN GOVERNMENT HELD POSSIBLE

(Continued From Page One)

able to manage both the matters of state and war leadership.

"Favorable Basis"
By becoming the president of the reich—a post he abolished—Hitler would be "laying a favorable basis for taking up international negotiations," the paper said.

According to the report, Dr. Hjalmar Schacht, former president of the Reichsbank, would become economic and finance minister, and Field Marshal Walther von Brauchitsch, former commander-in-chief of the German army, would become minister of war.

Reported Executed
Brauchitsch is one of the German generals reported at various times to have been executed in the blood purge following the assassination attempt on Hitler last July.

The newspaper said Schacht was released from prison a few days ago after being under arrest since last July 24.

"The objective of these measures would naturally be to set up the first condition for taking up armistice negotiations and at the same time to pave the way for reconciliation with inner opposition elements," Aftenbladet said.

FATE OF PVT. WEBER SUBJECT TO REVIEW

(Continued From Page One)

democratic congressman from Washington, explaining her husband's convictions—taught by the American socialist labor party—against killing. Savage wired her yesterday pledging a complete investigation of the court-martial.

"Revolutionary"

CAMP ROBERTS, Calif., Feb. 7 (AP)—I have a revolutionary mind," Pvt. Henry P. Weber, soldier sentenced by court-martial to hang for refusing to drill, told an Associated Press photographer who came here yesterday to take his picture.

"Wars are caused by the society in which we now live, and which cannot prevent a third world war."

Asked if he refused to drill to get out of the army, Weber answered:

"No. I asked for a transfer to non-combatant duty three or four days before the incident for which I was court-martialed occurred, but that was not granted."

Former Court-martial

"The men at the camp know of my feelings in the matter because I was court-martialed for a similar offense some time previously, and was sentenced to six months at hard labor."

WASHINGTON, Feb. 7 (AP)—If he finds the facts warrant it, Senator Morse (R-Ore.) will support Senator Wheeler's request for an investigation of Pvt. Henry P. Weber's case, aides said today.

Morse asked the adjutant general for a complete report on the Camp Roberts, Calif., court-martial, which sentenced the Vancouver, Wash., soldier to hang for refusal to drill. He also invited the adjutant general's comment.

A Cappella Choir Entertains Lions

The Lion's club was entertained by the high school a cappella choir, under the direction of Andrew Loney, at its meeting, Tuesday, February 6. Selections included "Tennessee Facte Surt," by Pales Triae; "The Angelic Choir," by Colbeck; "In the Solemn Silence," "When Johnny Comes Marching Home," and "The Ramparts We Watch."

Guests at this meeting included a visiting Lion from Summit, Pa. Lt. Cmdr. W. W. Westfall of the Klamath naval air station, William Sheldon, Al Pollard, Norman Wood and Mack Lillard, Chairman of the day was John Best.

Vienna Oil Hit By Yanks Bombs

LONDON, Feb. 7 (AP)—Oil refineries in the Vienna area, the most important remaining source of natural motor fuel oil for the Germans since the Russians seized a large part of Silesia, were bombed by U. S. 15th air force bombers from Italy today.

The German radio said allied bombers were striking from the west also.

Specific targets of the Italian-based bombers were at Moosebierbaum, 22 miles northwest of Vienna, and Lobau and Schwechat, both seven miles southeast of Vienna. The planes cast their bombs through a smokescreen put up by the Nazis.

SAILOR CHANGES PLEA IN COURT

(Continued From Page One)

Attorney Joseph C. O'Neill represented Lynn.

Demurrer Overruled
Attorney A. C. Yaden, representing Joseph Raymond Segobiano, held on a charge of entering an automobile with intent to commit larceny, secured a demurrer to the indictment, questioning sufficiency of the indictment. The court ordered the demurrer and it was overruled. Segobiano had entered a plea of not guilty to the charge and date for trial was set for March 5.

A demurrer to the indictment of assault with intent to rob, returned against Herbert Daniel Stevens, Marine Barracks, was filed by Attorney O'Neill. The court set Tuesday, February 13, at 10 a. m. as time for argument. Stevens had previously been granted statutory time in which to enter his plea. He is being held in connection with the death of Karl Bold, Henley rancher.

Sets Sentencing

Judge Vandenberg announced from the bench during the Wednesday morning session of court that Glenn Edward DeHart, charged with larceny of an automobile, would be sentenced February 13. DeHart entered a plea of guilty to the charge, after being granted statutory time to plead. He is also represented by O'Neill.

Robert James Baker, who entered a plea of not guilty at the calendar call February 5, will be tried February 26, the court informed O'Neill, his attorney. Baker is charged with larceny by embezzlement. Clarence Thompson, involved in the same case and charged with being an accessory to a felony, entered a plea of not guilty this morning and date for trial was set for March 12 at 10 a. m. O'Neill is his attorney.

Walter Henry Bull, Merrill, charged with possession of stolen property in connection with theft of beer from a Great Northern boxcar near Merrill, was sentenced to four months' probation by the court. Bull, it was brought out, has no criminal record and his employers, Hill brothers, sought leniency on the basis of Bull's good character. Bull is a veteran of World War I when he served with the marine corps. Attorney O'Neill represented Bull.

French Interest In Peace Seen

WASHINGTON, Feb. 7 (AP)—Acting Secretary of State Grew reaffirmed "our full realization of France's vital interest" in the shaping of a European peace.

At the same time, he told a news conference that the United States hopes to see a Yugoslav government established at Belgrade but is not entering into differences between King Peter and Marshal Tito.

Grew made his statement on France shortly after Richard Law, British minister of state, gave his government's endorsement to inclusion of France in a big power conference to redraw the map of Europe.

The acting secretary made no direct reference to the Big Three conference now reported to be going on or to any plans for possible future conferences.

See how white, cream-like, soft, and tender they soften them up. Get foot happy today the Ice-Mint way. At all drug stores.

Army Chaplains Rescued in Daring Luzon Raid

Among the 510 Allied war prisoners rescued from Jap-held prison camps on Luzon by American Rangers and Filipino guerrillas were these three Army chaplains, veterans of Bataan and Corregidor. Left to right: Lt. Col. Alfred Oliver, Washington, D. C.; Lt. Col. John K. Borneman, Niagara Falls, N. Y.; and Captain John J. Dugan, Boston, Mass.

MOVING BUS SCENE OF FATAL STABBING

(Continued From Page One)

pective association of Portland offered to secure an attorney for Poindexter.

Henry Lowe, whose larynx and wind-pipe were severed, wrote details of the fray on note pads while in a hospital at the Dalles. State police will enter them as testimony if Lowe, near death, fails to recover.

City Marshal Jack Harford arrested Poindexter here last night after he jumped from the well-filled bus while the driver, Oliver Taylor, sought the sheriff. State Police Sgt. N. W. Smith said several passengers related that the driver noticed the scuffle on the bus, stopped, and took a razor from Poindexter.

Smith quoted the negro as saying he "killed them first" because the other two had threatened his life. Poindexter said the three had been employed at the Bremerton, Wash., navy yard, Smith reported.

STALEMATE BROKEN IN ITALY BY YANKS

(Continued From Page One)

Italy to guard their Russian-menaced home front.

Frontline dispatches said the attack did not constitute a large scale offensive and headquarters described it as aiming at "limited objectives."

However, it was the allies' biggest offensive gesture since bad weather settled over the Italian front last October. The heaviest artillery bombardment of months preceded the drive, which was supported by tanks. Some 15,000 rounds of ammunition were fired by American guns of all sizes.

Many Casualties

Numerous casualties were reported.

"Jumping off after a short artillery preparation, we met enemy artillery, machinegun and mortar fire as gains were made up to 500 and 600 yards against stiff opposition," said an official announcement.

The men moved through thawing snow over mountainous terrain against strongpoints the Germans have defended through the ice-bound winter months.

Germans raked American columns with some 1500 shells. Thick mine fields were encountered.

Oder River Line Sags Under Red Pressure

(Continued From Page One)

of the capital. In Silesia, the Germans said, the Russians forged new gains in the drive menacing Berlin from the south-east.

Marshal Ivan S. Konev's first Ukraine army has shattered the Germans' upper Oder line with a hard-won crossing on a 50-mile front southeast of Breslau. A Moscow dispatch said the fresh collapse of German positions before the 12½-mile advance of Konev's troops beyond the stream ushered in a new phase of the battle for Germany.

Pour Through to Reich
Red army forces, rapidly exploiting a chance to slash into the southern flank of the Berlin-Prague defense axis, poured through the Oder breach and fanned out on a network of paved roads, one of them a broad superhighway leading directly 180 miles northwest to Berlin.

Lt. Gen. George S. Patton's Americans stormed into Germany between Echternach and a point in northern Luxembourg, five miles northeast of Clervaux, assaulting the Siegfried line in the face of strong small arms fire. The new invasion gave the allies virtually a continuous 120-mile front in western Germany between Holland and Saarland.

M'ARTHUR BACK IN CITY FOR SHORT VISIT

(Continued From Page One)

a background the bitter fight for the burning city. American artillery began a bombardment in an effort to drive out the Japanese who "wantonly" set fire to the city, MacArthur said. The enemy force was strongest in the southern area and the American command resorted to the extreme measure of shelling it—something they had hoped to avoid—only when other efforts to rout out the enemy had failed.

Wreck Part of City
There was no indication that Japanese demolition squads were ready to surrender their slender hold on that portion of the city's center lying south of the river. Already they have wrecked about a square mile of the metropolitan district north of the Pasig.

Japanese demolition crews added new explosive fires to those already kindled on both banks of the Pasig and in other sectors of the city. One appeared to center in Manila's Chinese hotel, near the Escolta. At least three other fires appeared to be burning south of the river. They were large but not widespread.

Damage south of the river is not extensive—yet. It will be

CIVIL RIGHTS BILL BEATEN BY SENATE

(Continued From Page One)

democrat, both of Portland, were co-sponsors of the bill.

The senate galleries were packed for the first time of the session for the debate which failed to take place.

Besides the three co-sponsors, those voting for the bill were Sens. Rex Ellis, Pendleton republican; William A. Moser, Grants Pass democrat; and W. H. Strayer, Baker democrat.

The house passed and sent to the senate bills to increase the state labor commissioner's salary from \$4000 to \$5000 a year; let the game commission buy paths along streams for use of fishermen, let the state board of health require vitamin enrichment of flour and bread, let school districts buy buildings and land for other than school purposes by vote of the people, and let school districts take out accident insurance on school athletes.

The senate passed and sent to the house bills increasing annual nurses license fees from \$10 to \$15 a year, and the annual fees for physicians and osteopaths from \$5 to \$10.

Board Completes Cruise Hearing

(Continued From Page One)

VANCOUVER, B. C., Feb. 7 (CP)—A Royal Canadian navy board of inquiry has completed hearing evidence in connection with allegations that women members of the U. S. coastguard show, "Tars and Spars," were "insulted and molested" by Canadian sailors, it was announced here last night.

The incidents were alleged to have occurred Sunday aboard a Royal Canadian navy tug during a pleasure cruise in Vancouver harbor.

The Spars complained that naval ratings on the tug were "unfit for duty," according to the reports, and were molesting them, and the cruise although scheduled for three hours lasted only 40 minutes as the Spars demanded to be put ashore.

At Seattle yesterday a girl member of the traveling show company said there was drinking among Canadian seamen aboard the tug.

But she denied knowing of instances of girls being molested or reports the cruise was cut short.

come so unless the Yanks run down these demolition crews and incendiaries.

It was hard to tell whether the Japanese were destroying merely their own supplies and stores in concentrated sections of the city or trying to burn the city in retaliation for the American invasion.

Enemy Falls
If the enemy hoped to catch American troops in the blasts they failed. The few soldiers in the area managed to draw back along with almost all of the Filipino population and the loss of life was light.

The exploding munitions of course spread the fire far beyond the zone of military stores. Each blast threw fire over dozens of blocks, sometimes into the residential area. But the main wreckage was in the city's business district.

ALBUQUERQUE, N. M., Feb. 7 (AP)—District Attorney's Investigator Bill Apodaca hurried to investigate a reported near-fatal stabbing.

He returned without making an arrest. The victim, Apodaca found, was wounded by a whiskey bottle—broken in his pocket when he staggered and fell.

ness forces in southeast Asia. Four times it has left the base of Superfortresses bombing June 6, November 27, December 14 and January 2.

In their first strike at Saigon on January 27, the B-29s meted multi-ton loads of destruction on this key naval base. Some 3200 miles from the India base, Saigon has a dock made of floating rafts and a fleet of damaged vessels. Other priority targets are three military airfields, important storage tanks and railroad yards.
