

# STOP FOR RED LIGHT, AGAIN WARNS CHIEF

It was again strongly emphasized today by Acting Chief of Police Orville Hamilton that a blinking red light requires a full stop in Oregon, according to state law. Hamilton said that this was not the case in many mid-western states, where a blinking light is regarded as a caution signal, and consequently many new residents of Oregon fail to come to a full stop. Failure to halt completely is a traffic violation in Oregon, however, and must be treated as such, he stated.

Joseph V. Arnold, naval air station, was arrested this morning for running a stop sign and is due to appear in police court this afternoon.

George Santaul, Marine barracks, was apprehended making an improper left turn and having no operator's license. He is cited to appear in court this afternoon.

James Perkins, naval air station, paid a fine for running a red light.

H. D. Barnhart, 705 N. 8th, reported to city police that his car was removed from his garage last night and coasted to the corner of 9th and Lincoln. Police are investigating a possible theft.

Gus Demetrakos, 2137 Main, reported his billfold lost at 5th and Klamath, containing \$35 in currency, driver's license, and A and B gas ration books. A. O. Person, 702 Victory, driver, reported a license plate lost off his car bearing the Oregon license number 332-358.

Two juveniles were picked up by police Wednesday afternoon, who are wanted by John Arkell, special officer at the Klamath Indian agency.

# WEEK SLATED TO HONOR 4-H CLUB MEMBERS

March 3rd to 11th has been set aside for national 4-H club week.

The increasing need for help in war production plants and on the fighting fronts has left a real challenge to 4-H club members to help to supply the food for the nation and its fighting forces.

4-H members have demonstrated organized preparedness and ability to serve on a monumental scale, with their wartime achievements in the three years since Pearl Harbor.

Victory gardens, poultry, dairy cattle have been raised and cared for in enormous figures.

Peanuts, soybeans and other legumes so essential during food conservation times have been produced. Meals have been prepared by 4-H'ers in keeping with nutritional needs of the family and they have canned 47,000,000 quarts of food.

Scrap weighing a total of 300,000,000 pounds has been collected by members during the past three years and war bonds and stamps numbering 140,000,000 have been purchased or sold to others.

With the increasing tempo of war the burden this year is greater than ever upon 4-H clubs.

National 4-H club week has been set aside to provide members an opportunity to check on their own efforts to date in helping to win the war in keeping with the 1945 4-H goals.

Approximately 800,000 active and former members of 4-H are now in the armed forces of the United States. This means that one out of every 14 men and women in military service has been at one time or another an active member of 4-H.

## Small Newspapers Contain Good Writing, Says Sprague
