

REDUCING GAINS IN LEGISLATURE

RENO, Nev., March 14 (AP)—Production gained impetus in California legislature today as the senate revenue and tax committee reported a recommendation to the senate passage of the Warren tax bill to continue the tax made in 1943 for another year.

The committee action was unanimously after Richard Warren, spokesman for the state of California Cities and County Supervisors association, had pleaded at a hearing yesterday for postponement of the bill. Warren said the bill would favor the state by adding a \$100,000 cut to the \$115,000,000 in 1943.

Warren's tax bills concerning the 1943 tax cuts another year, he said.

The only objection to the bill is that it goes far enough. They cut deeper and make reductions. There is not even the amount of the 1943 tax structures.

At the end of this biennium will have a state surplus of \$100,000. Our tax rates will be fixed with the idea of reserving this \$100,000.

Having been done, I think the cities and counties are going to go far enough. They cut deeper and make reductions. There is not even the amount of the 1943 tax structures.

Warren's Conference Held in Reno

RENO, Nev., March 14 (AP)—A regional governors conference will be held in Reno, Nev., today, Gov. E. P. Carville said yesterday, to study the development of the state.

Governors of Alaska, Arizona, Idaho, Utah and Wyoming are expected to attend. Gov. Earl Snell of Washington said he would make every effort to be present.

Medical Dental Building Cleaned

The Medical Dental building is undergoing a facial treatment. The grime of 18 years is being removed by steam cleaning which was started last Wednesday and will be completed this week, it is expected.

Western Steam Cleaners of Seattle is in charge of the work, with Davis and Mitts performing the actual cleansing operation. The two men were balanced on scaffolds, swinging down the sides of the six-story building of light-colored brick.

The progress of the cleaning is marked by a definite difference between the dingy and bright, clean bricks.

This is the first face-wash the building has had since it was erected in 1929. The building was opened for rentals, March 30, 1930.

Klamath Chamber May Aid In Launching

Klamath county chamber of commerce may have a part in the launching program of the SS "Modoc Point" scheduled for May 5 at Swan Island shipyard.

The chamber is expecting Don Frederickson of the public relations department of the Kalsar company in Portland to confer with them on arrangements suggested in a letter to the company.

Assistant General Manager A. R. Nieman of the Portland yard acknowledged the cooperation of the local chamber of commerce and expressed appreciation in a recent letter received by Charles Stark, secretary.
