Elderly Steamboat Captain Dies

ASTORIA, March 16 (AP)—William Larson Sr., 84-year-old Columbia river steamboat captain and dairyman, died last night after a long illness.

During years of plying a milk-loaded boat from his farm to Astoria, Larson rescued some 20 drowning persons. He helped organize the Oregon State Dairymen's association and served several terms as Clatsop county commissioner.

Larson came here from Sweden as a stowaway on a merchant ship.

WAS FIRST IN ENGLAND

According to tradition, Queen Elizabeth owned the first mahogany known in England. Sir Walter Raleigh, the sea-faring courtier, presented her with a table made of it.

LITTLE BUTCH FLIES

A NINTH AIR FORCE BOMBER BASE, FRANCE—3 B-26 Marauder, "Little Butch," one of the original planes of the 344th medium bombardment group, was still flying when the group passed the 200 mission mark after less than a year's operations.

Sgt. Robert Reniero, Klamath Falls, is responsible for maintenance of the plane which has flown from bases in England and France.

Only 15 of the original planes in the group are still in operation. The remainder either have been shot down over enemy territory, or so badly damaged that they have had to be dragged off to the salvage dump.

CHARLE SHUNT DONATES $100 TO RED CROSS

Greatly significant among contributions to the Red Cross war fund is the donation of M/Sgt. Charles Hunt, escaped prisoner of war of Japan.

Hunt is in a position to know the value of Red Cross overseas activities. The Red Cross was instrumental in getting long overdue mail to the former prisoner, he gratefully acknowledges. Hunt was taken prisoner after the fall of Bataan, later escaping from his camp.

It is through the voluntary donations of the American people during the war fund drive each year that the American Red Cross carries on its lifesaving and merciful work among our men of the armed forces.

Sgt. Hunt donated $100 to aid the worthwhile cause.

Donations to date have reached $20,227.25 in Klamath county's $64,000 goal for 1945.

A NEW SERVICE FOR YOU
Having just been appointed the Exclusive Licensee for The TruTred Process, we are taking this means of inviting you to inspect our new plant which has just been placed in operation.
The TruTred Process is easier on your tires. Temperature and pressure are concentrated on the tread. Sidewalls and beads are not overstrained or "overcooked." Tires are inserted and removed from the mold without prying or forcing.
As your present tires may be all you'll have, you want to protect them! If the rest of your tire will stand it, you can triple the life of the tires you have by having "Trucaps" applied by The TruTred Process. We lend you tires while recapping yours.
Come in and let us show you how it's done.
