Largest Aircraft Carrier Ever Built Christened At Newport-News Yard

NEWPORT NEWS, Va., March 22 (AP)—The decks of the mighty USS Midway—heaviest, strongest and fastest carrier ever built—will be covered with a "1945 model aircraft" so new it has not yet seen combat action.

This was disclosed Wednesday by Artemus L. Gates, assistant secretary of the navy for air, in a speech at the christening of the 45,000-ton Midway.

Gates gave no hint of what the new plane can do. But he predicted the 1945 model carrier and plane will not be a "pleasant combination to be contemplated by the Japanese war lords."

Addressing the men and women of the Newport News Shipbuilding company who built the awesome weapon, Gates said: "The name, Midway, is exceptionally appropriate for it was in that famed battle in June, 1942, that the aircraft carrier came into its own. The Hornet, Yorktown and Enterprise were the backbone of that victory. And they, like the Midway, were spawned at Newport News."

To safeguard the Midway, Gates declared, it has been given heavy armor, intricate watertight compartments and improved damage control, "great strides in the direction of invulnerability."

The Midway will be com-

manded by Capt. J. F. Bolger, who served as Gates' aide for a year and a half before putting to sea as captain of an Essex type carrier. His outstanding service, Gates said, won him the promotion to head man on the greatest carrier ever built.

Portland May Feed Own Prisoners

PORTLAND, March 22 (AP)—Kitchen and dining room equipment costing \$10,000 so the city can feed its own prisoners would be provided under an ordinance before the city council today.

Present contracts for the service cost about \$11,000 annually, but the city-operated mess would supplant the system when a new addition to the police station is completed. Plans also call for a prison farm to raise much of the jail food.

NEW USE
DENVER, March 21 (AP)—Colorado's metal and plastic sales tax tokens, the use of which was abolished by the 1945 state assembly, are in demand by the navy.
An advanced base unit, ready to leave for the Pacific, has asked State Treasurer Homer Bedford for 100,000 of the tokens. Bedford is held to account for them, and filling the request is not feasible. They want the tokens to use as poker chips.

Don't Drive a Booby Trap

Watch Out!
Fleebly clever are the Booby Trap ideas used by retreating Japs and Germans. A fountain pen—offering the idea of writing a letter home—is left lying invitingly on a table. But our boys have learned to beware, for it might explode in their hand.

Watch Out!
Here at home . . . right in your own car . . . are potentially dangerous Booby Traps, too. For instance, think what might happen to you and your family if a neglected part in the vital front wheel suspension should fail at a critical moment! That's why your entire car should have Shelllubrication protection regularly.

PLAY SAFE! Get a Safety Shellubrication Today!

Until you can get a new car—and that day is not in sight—your present car must last. And you must realize that it can't stand up under continued neglect.

So watch out! Wartime Stop-and-Go driving is taking a terrific toll. You need Shellubrication Service to help hold-off the inevitable junkyard finish for your car as long as possible. The special Shellubrication system of car maintenance, evolved by Shell engineers, has no counterpart in any mere "grease job." It not only protects all vital parts

with proper grades of proper lubricants, but checks and reports on many hidden places where possible Booby Traps lurk. Thus your Shellubrication receipt not only shows what has been done, but what more should be done. That's a big protection to you.
