

Homemaking Highlights

HIGH PRESSURE good news came this week for those harassed homemakers who have been unable to buy pressure canners during the last two canning seasons. The predicted arrival of these indispensable items in Klamath Falls has been slated for late March or early April. This means that many more homemakers will be provided with this non-secret, but highly vital weapon for the home front offensive this summer.

WHIPPED CREAM (or a reasonable facsimile thereof) is one peacetime luxury that now makes its reappearance in the all-American diet, owing to the discovery of how table cream may be made to whip with the addition of gelatin. There's a "secret trick" worthy of a quiz kid Joel Cupperman, and the information may be had free for the asking at the office of the home demonstration agent, box 645 in Klamath Falls. Call at room 208. Federal building, or phone 8151.

YOU'VE READ, perhaps, of the experiment with white rats being conducted at Henley school to determine the exact results of an adequate diet as compared with a poor one. Klamath county nutrition committee members (sponsors of the project) were amused to hear that the undernourished pair of rats, when given a choice of water or soda pop, definitely preferred the latter! When the experiment has been completed, the animals will be displayed at various schools throughout the county and in downtown store windows.

JUST OFF THE PRESS are the new "Home Food Preservation" booklets from Oregon State college. These up-to-the-minute canning and curing information leaflets are available at the office of Mrs. Winnifred K. Gillen, home demonstration agent. They have been compiled by Lucy Case, extension nutritionist, and Thomas Onsdorf, of the foods industries department at the college. There is no charge for these extension bulletins.

DON'T TAKE CHANCES with your precious pressure cooker! Make SURE that it is in perfect working order when the canning season opens, because neither you nor Uncle Sam can afford even one wasted jar of food this year. Bring the gauge (unscrewed from the lid of the cooker) and the petcock or exhaust valve, to the office of the home demonstration agent to be sent to Oregon State college for testing. Remember, the sooner it reaches the HDA's office, the sooner it can be re-

turned to you . . . all set for another season of battle on the vital food front!

Dinner

KENO—Mr. and Mrs. L. A. Smith entertained a group of relatives and friends at a dinner on Friday, March 9, at their home in Keno. Guests of the evening were Mrs. W. E. Garrison of Yakima, Washington, a sister of Mrs. Smith, Mrs. Garrison's son, MM 2/c and Mrs. Lee Mayfield of Klamath Falls, Mr. and Mrs. Harvey Martin of Klamath Falls, Mrs. Smith's brother, Mrs. R. H. Karkens of Los Angeles, California, and Mr. and Mrs. Ray Atchison of Keno.

PAPER BAGS NEEDED IN SALVAGE DRIVE

A letter was received by Paul A. Lee, central salvage committee chairman, from Roderick Finney of the Portland war salvage division of the war production board, stating that an attempt is being made to reclaim paper bags once containing lime, sulphur, fertilizer, cement, and other similar materials.

This particular type of bag is made of a strong paper that is especially desirable for salvage, and all of these bags may be used as such, with the exception of those lined with tar. However, the tar lining may be separated from the rest of the bag, and the remainder of the paper used. Many of these bags, which are going primarily to farmers and building contractors, are from two to four thicknesses, resulting in bags within bags. Merrill has produced the greatest response to this appeal, with two tons of fertilizer and sulphur bags baled and ready to be called for. The sacks should be baled and tied compactly before they are picked up by the helpers in the salvage drive.

Some Wars Okay—Bible

When our boys go away to such a war as this, they are in line with the Bible at Genesis 9:8 which tells us to round up the outlaws and to make the world safe and fit.

And when will wars come to an end? Get a birds-eye view out of the Bible. Away back yonder before Christ, you see a stretch of centuries when God put the Hebrew people under a test. They must keep the Ten Commandments. This they did not do and God picked them up out of their land and scattered them among the nations.

Next came Christ, born of a woman, born under that same test—the Ten Commandments. All His days, in thought, word and deed, Christ made good under the test. He lived all to the glory of God.

And when will wars cease? When the test is ended under which we live. We are being tested as to our faith in Christ as Saviour. When the roll-call is filled out of those who have heart faith in Christ, He is to return and put an end to wars.

You make good under the test when you can say "I believe God, that the blood of Jesus Christ, God's Son, has cleansed away all my sins. If I die this minute, my heart knows that I die cleared of all sin and sure of eternal life."

PUT HIM TO THE TEST—Being saved from the penalty of sin, look utterly to Christ for Peace—Joy—Hope—Victory. Live by Power From On High. This space paid for by N. W. people. If you wish a part in upholding and extending this Gospel by Newspaper, send your sum, large or small.

THE LORD'S DAY

Are we as careful to serve the Lord's Day as we are to celebrate the Jewish passover (Easter), of which we have no command!

To meet for worship is command. "Not forsake our own assembling together as the custom of some is, exhorting one another so much the more as ye see the day drawing nigh. We sin willfully after that we have received the knowledge of the truth, there remains no more a sacrifice for sin (Heb. 10:25).
