four to five miles northward against scant opposition and seized Yabuchi islet off the east coast. The 24th corps pushing southward behind strong tank support ran into increasingly strong opposition as they neared the concentration of the estimated 60,000 Japanese soldiers on Okinawa. There were increasing indications the Japanese may have abandoned northern Okinawa entirely.

175 Yanks Killed

Admiral Nimitz announced that the five days during which the Yanks overran 100 square miles of Okinawa, 175 Americans were killed and 798 wounded, excluding naval losses. Sixty-five Japanese planes were shot down.

The Japanese, who are also being steadily pushed back by the British and Chinese in Burma, posed a new twin-pronged threat to China with a double drive toward Shensi province guarding the northern approaches to Chungking. Massing of these enemy forces overshadowed local Chinese successes against Japan's west wall in China.

Meet Threat

Chungking announced three Chinese columns met the threat, annihilated an enemy battalion, encircled a number of strong points and were engaged in continuing heavy fighting.

MacArthur's bombers carried the war to the China coast where Liberators in their second successive attack on Hong Kong sank nine freighters, damaged three other ships, and left shipyards, docks and oil tanks in flames. Twenty-two small freighters were wrecked off the Asiatic coast and among southern islands.

Air-supported infantrymen landed on Luzon, Negros and Cebu islands in the Philippines. Bombers and PT boats began working over isolated Jolo, principal island of the Sulu archipelago, indicating it may not be long before it is added to the reinvaded islands.

'Sky-High' Pay Given Cooks, WLB Reports

SEATTLE, April 6 (AP)—Acting to halt what it termed "sky-high illegal wages and labor piracy," the regional war labor board today ordered every eating establishment in Bremerton immediately to "police" wages paid to help. The order affects 93 establishments and 1280 employees.

"Discovery by war labor board investigations of cooks being paid \$16 a day—the rate of pay authorized by the WLB for cooks in Bremerton is \$8.64 a day—and of waitresses being paid more than workers repairing combat-hit warships in the navy yard, with widespread 'pirating' of restaurant help through the offer of illegal higher pay, led to today's action," the press release quoted Board Chairman George Bernard Noble.

Lee Loses Bet On Can Salvage Drive

The bet which Paul Lee, chairman of the central salvage committee in Klamath county, hurled across the Cascades to Robert A. Duff, Jackson county salvage chairman, that Klamath county could top its rival county in the tin can drive was lost by Klamath and Lee must now deliver a 100-pound sack of Klamath No. 1 Netted Gem potatoes to Duff.

Jackson county topped Klamath easily, its school children having gathered 45,000 pounds of tin cans in the drive, as compared to only 30,000 pounds collected in Klamath county.
