Today's Roundup

By MALCOLM EPLEY

KLAMATH'S favorable transportation set-up, plus its county seat status and the fact it is the largest city of Southern Oregon, are the apparent factors that brought about the designation of this city for a national cemetery. The army quartermaster corps undertook, in selecting cities for these establishments, to minimize the distance to be traveled by families and friends of those eligible for burial in the national cemeteries.

EPLEY
The specific local site has not been acquired, but the city has been asked to cooperate in the project and is preparing information for the quartermaster corps. It is planned to prepare for 25,000 grave sites at Klamath Falls, and 50,000 at Portland. The expenditure here will exceed half a million dollars, and it is expected the government will make the national cemetery one of the most beautiful plots in this mid-coast region.

Farm Wage Hearing

HIGHLY important to the agricultural community of the basin will be the joint WFA wage board hearing to be held at Merrill Thursday. Farmers and workers are being urged to participate freely and fully in this hearing, in order that the best possible information be presented as a basis on which to determine wage ceilings.

It is the responsibility of the people of the community to submit their views on this occasion. The ceilings to be established on wages paid agricultural labor will be official and binding, and this is the time for local influence to be brought to bear to make them as fair and sound as possible.

This hearing will be comprehensive in scope, covering onions, wheat, potatoes, barley, other grains, hay of all varieties, dairying, sheep, cattle, poultry and all other agricultural activities. For public convenience, the California and Oregon sections of the basin will be covered in the single hearing.

At a similar hearing last fall, wage ceilings for the potato harvest were established at \$1.25 per hour for harvest work, and a piece rate of 5 cents per half sack of 60 pounds. The WLB later set a shed labor (sorting) wage ceiling of \$1.25 per hour.

Inasmuch as the notices for the forthcoming hearing mention potatoes and all phases of agricultural activity, it is assumed that testimony will be taken, if offered, looking toward the continuance of these rates, or their revision if justified. Those who have any concrete ideas on this subject should not hesitate to present their views on Thursday. Wage ceilings will be a vital factor in the job of getting our crops in and harvested.

Briefs From the Pocket File

BILL RANDALL, former Klamath flier and now a lieutenant commander in the navy, is stationed in the Marianas group, from where he writes that he is "commanding officer of the hottest damn aircraft carrier unit in the islands" . . . Population of the Tulelake WRA center is now 17,864 as compared with 18,727 on December 31, 1944 . . . The eyecuees contributed \$2745.35 to the Red Cross war fund, against a quota of \$2663 . . . Appeals for contributions to blood banks are wasted on Klamath people, unless they have opportunity to go to a donor center while visiting in such large centers as Portland or San Francisco . . . There is no equipment here for receiving blood donations . . . Young farmers at the Klamath Falls Marine Barracks are itching to get their fingers in the soil and a project is being worked out for them

Merrill

Mrs. R. L. Dalton returned this week from Los Angeles where she and Mr. Dalton spent the winter with their daughter, Mrs. Tom Willis and children. Mrs. Willis, the former Louise Dalton, and her son and daughter returned with Mrs. Dalton and will remain here for the present. Mr. Willis joined the navy several months ago. Mr. Dalton came back to Merrill about two weeks ago. Mr. and Mrs. Frank Hunnicutt, who lived in the Dalton home during the winter have moved to the R. E. Wilkerson home. Mr. and Mrs. Wilkerson and family moved recently to Klamath Falls.

Traffic Fatalities Reach 27 In Portland

PORTLAND, April 9 (AP) — This city's traffic fatalities climbed to 27 today with the death of Samuel S. Miller, 26, Vanport, whose car crashed into a telephone pole last night. Miller's wife and Thomas Miller, 31, who were riding in the same car, were hospitalized with serious injuries.

Malin

Eleven-year-old Martha McAuliffe, daughter of Mr. and Mrs. Mike McAuliffe, broke an arm recently when she fell from a ring on the playground at the Bonanza elementary school. The arm failed to heal properly, and it has been necessary for the attending physician to break it over.

Minister's Widow Dies In Sutherland

Friends at Beatty have received word of the death of Mrs. Addie Young of Sutherland. Mrs. Young was the widow of the late Reverend Frank Young, former minister at Beatty. Reverend Young and son, Frank Jr., and daughter, Josephine, died in the fall of 1943.

Former Cab Operator Dies In Hospital

George Washington Duke, 56, former cab line operator in Klamath Falls, died Saturday night at Hillside hospital following an illness of the past 10 days. Mr. Duke suffered a heart ailment and was moved to the hospital late in March. His home residence was 130 Martin. A native of Gonzales, Tex., Mr. Duke had made his home here for the past eight years. In addition to his wife, Ida, he is survived by a son, Stanley, both of this city. Final rites will be announced later by Ward's.

Cash Wheat Prices Higher At Portland

PORTLAND, April 9 (AP) — Cash wheat bid prices were higher at Portland at the end of last week, reflecting the strength in mid-western wheat futures, the war food administration said today. Ordinary classes showed an increase of about 2 cents a bushel.

King Would Win

If a vote were taken upon Stettinius or King in the senate today, King would win overwhelmingly, at least upon the single issue of whether we should own those bases which are essential to our postwar cause of a peaceful world. A superficial canvass shows little sympathy for mandates or "trusteeships" which might prove insecure or embarrassing.

that will utilize a piece of nearby land . . . That grand old tree that shaded the playground back of Fremont school for many school generations has yielded to the saw and the axe . . . At the request of some of our citizenry who use the range in the Tehama country, we are carrying Red Bluff weather reports in the daily table in this paper.

News Behind the News

WASHINGTON, April 9.—"We cannot have prosperity in the United States if the rest of the world is sunk in depression and poverty," said State Secretary Stettinius to the Chicago council on foreign relations. He advocated among other things an American trusteeship for Pacific islands.

The very same night and at almost the same hour in New York, the Carnegie peace endowment dinner heard Admiral King and other influential speakers say (quoting precisely from news accounts):

"World security depends upon American security and world prosperity depends upon American prosperity."

He advocated that we keep bases in the Pacific, in line with making our own security first.

This direct conflict of viewpoint was advertised as a cleavage in the "cabinet" between the navy-war departments and state, but behind it was the new movement running through the whole government for a change of front.

Altruism is facing a gradually opening opposition. The theory that if we first save others we may save ourselves is hitting up against the doctrine that if we save ourselves we can keep others safe.

This new theory (particularly on the point of bases) first developed in the services many months ago. The men who went into those islands in the Pacific have seen British, French, Australian and French administrators move in to take civilian control as soon as the firing ceased, or in some cases the civilian administrators actually went in with the troops and exercised civilian control.

Back to Owners

AIRPORTS our men conquered, and so vital to the future security of the world, became the civil property of those nations which owned them before the war.

A check of the islands in the Far Pacific under army control shows none outside the Philippines definitely established as postwar bases for us. We still have use of them for military operations, but the property of our allies remains theirs. They have given us nothing.

New Guinea has officially been placed under Australian and Dutch administrators. Bougainville has been taken over by the Australians (who incidentally murmured in the press against doing it on the ground that the Japs held it so long they had created civilian difficulties).

In the navy area of the Central Pacific, the British administration is supposed to have gone back in most places but the navy refuses strangely enough to give out the facts of the situation, saying:

"We cannot speak for the British." (Whatever that means.)

The service people who have fought through these campaigns know these situations, although they are not generally known or observed by our public. From such beginnings, I think, has sprung the position which Admiral King is now openly pressing.

Even Foreign Relations Chairman Connally, an administration man, thinks we should have New Caledonia, which was French. However, he has not gone so far yet as to permit hearings for the McKellar resolution which would take practically all the islands we are conquering including the Japs.

Average senate opinion strikes firmly to the line that we should have as many bases as we need for our own security and thus for world security. Also as all these nations—all our friends—owe us more money than they can repay in cash or goods, it appears a bargain for bases might not be out of line.

Thus a more enlightened and practical future-visioning theory of world peace is fast gaining ground.

Average senate opinion strikes firmly to the line that we should have as many bases as we need for our own security and thus for world security. Also as all these nations—all our friends—owe us more money than they can repay in cash or goods, it appears a bargain for bases might not be out of line.

SIDE GLANCES

"Do you know when the war's going to end, Mrs. Jones? Mama says you know lots of things that never even get into the paper!"

Klamath's Yesterdays

From the files — 40 years ago and 10 years ago.

From the Klamath Republican April 6, 1905
Tom Ballis plans to start a new hotel at Merrill.

The Weed Lumber company was sold last week to R. A. Long, millionaire lumberman of Kansas City. The company has agreed to build a railroad to Klamath Falls.

From the Klamath Herald April 9, 1935
The city council, under leadership of Mayor Mahoney, has decided to call a special election seeking authorization to issue \$1,500,000 in bonds for a municipal water system. The issue promises to be highly controversial.

Road to Lake Resort Partly Accessible
The road was accessible for about half a mile from the bottom of the hill to Lake o' the Woods, Saturday, according to a snow inspection made by John Sarginson of the forest service.

Sarginson found the snow melting, with a thin layer of ice on the bottom. The road from Klamath Falls to Lake o' the Woods junction was in very good condition, being recently maintained by the state.

Conditions may be different since the weekend storm, Sarginson observed.

Tom Nealey will furnish information on snow conditions within the Lake o' the Woods. It is expected that the county will start removal of snow from the roads within the next week or 10 days.

One factor which strengthened the market was light open market offerings, since terminal demand was only moderate for ordinary types of wheat. Mill demand was good for high protein hard whites and hard winters.

It's a "frozen" article you need, advertised for a used one in the classified.

Loyal Order of Moose elected officers for the ensuing year as follows:
Governor, W. K. Thomas Jr. Gov., L. Weinberg
Prelate, Thos. Duke
Secretary, W. C. Hooper
Treasurer, L. Hagemann
Trustee, 3 yrs., A. A. Wilkinson
Trustee, 2 yrs., S. M. Kilgore
Trustee, 1 yr., J. C. McFarland
Retiring Governor A. Nyback, will serve as Past Governor.

Refreshments were served afterward and the members sang and played until midnight.

30 PARTICIPATE IN TRAP SHOOT

Twenty members of the Gun club here and 10 men stationed at the Klamath naval air station participated in a trap shoot held Sunday at the club.

Ralph Jenkins of Kentucky, president of the American Trapshooters' association, competed in the shoot which consisted of a 100-yard, 16-yard event. Jenkins shot a score of 92, Paul Hill of Klamath Falls shot 84, and E. N. Hardenbrook shot 82.

Two men from the air station, R. Wolfe and Dale Pierce, turned in scores of 89 and 88, respectively.

The wind and snow were definite handicaps to the participants, and especially bothered Jenkins, who is among the best trap shots in America.

SUPPORT OF 7TH WAR LOAN PLEDGED

Unanimous support was pledged to back the payroll savings plan of the 7th War Loan drive by top management of Klamath district concerns, at a meeting April 6, with John Hodgkins of the headquarters office of the Oregon war finance committee of Portland.

Purpose of the meeting was to procure support and backing for the payroll savings plan for the 7th War Loan drive.

Those attending included R. R. Macartney, Weyerhaeuser; P. Albertson, Pelican Bay Lumber company; A. J. Vove, Big Lakes Box company; J. Keesterson, Keesterson Lumber company; Art Blockinger, Chiloquin Lumber company; P. M. Cowbrough, American Box company; Loren Palmerton, Klamath Lake Moulding company; T. A. Jarow, Great Northern railway; L. S. Stitt, Southern Pacific railway; A. M. Collier, finance board chairman; Vern Owens, co-chairman; Charles H. Mack, payroll head of the Klamath county war finance committee.

RECORD CROWD AT DANCE REPORTED

Probably one of the largest crowds to be seen in Klamath Falls for a long time gathered at the armory on Saturday evening, April 7, for the Shrine benefit dance, with "Baldy" Evans and his orchestra furnishing the music for the affair.

Entire proceeds of the dance have not as yet been tabulated, but definite figures will be announced later, according to Shriner H. E. Jones. Approximately \$400 in tickets were sold at the door on the night of the dance, and still more is being sent in, Jones said.

All the net proceeds of this dance, which has become an annual affair, go to the children's hospital in Portland for the purpose of giving them the proper medical attention, and to supply necessary equipment.

Klamath Woman Dies In Vancouver

Mrs. Etta Joy, former resident of Klamath Falls, passed away at St. Joseph's hospital in Vancouver, Wash., Friday, April 6, friends here learned today. Her death occurred after an extended illness.

Mrs. Joy lived in this city until 1943, while her husband, Thomas, was manager of the Klamath Bus company. She was active in general organizations prior to her death, including the Vancouver lodge of Rebekahs.

She is survived by her husband, Thomas Joy of Vancouver, and one daughter, Mrs. Virgil Biekman of Honolulu, Hawaii.

The funeral took place in Vancouver today.

Fiery Itching of Occupational RASHES

If you're suffering such maddening torment, and relief seems impossible, try comforting Resinol. Like many others, you'll probably be surprised how quickly its medication relieves itching and soothes the angry, irritated skin. Resinol Soap is ideal for tender skin.

MCDONNELL AIDS BOMBERS
Sgt. William J. McDonnell, 25, who is the son of Mrs. J. J. McDonnell of Wenatchee, Wash., and who was employed by the Great Northern railroad before entering the army in April of 1941, is now assigned to the 452nd bomber group of the third air division, and helps in the dispatching of these same bombers on eighth air force assaults on targets in Germany.

Until German artillery and mortar shells gave him free passage to England and the eighth air force via a chain of hospitals, McDonnell was in non-commissioned officer's service with Lt. Gen. George S. Patton in the immediate vicinity of Metz. He is now working in the distribution section, channeling important messages to the proper sections of his station.

During his experience with the infantry, McDonnell was in on the main drive for Metz, and was wounded twice in the right leg, once in the other, and also in his right arm. The wounds were caused by mortar shells when the Germans sent down a surprise artillery barrage.

After being transported back to the rear lines, he traveled from hospital to hospital until his arrival in England.

HANKINS PROMOTED
15TH AAF IN ITALY — Promotions come thick and fast to Kyle W. Hankins, Bonanza, veteran aerial gunner on an AAF B-17 Flying Fortress, who was recently promoted to the grade of staff sergeant. This was the second promotion in less than 60 days for the 19-year-old Bonanza high school graduate.

Sgt. Hankins entered the army on January 12, 1944, and received his gunnery training at Las Vegas, Nev., winning his wings on May 6, 1944. Arriving at his overseas station five months ago, he flew his first combat mission on December 25, when his group bombed an oil refinery in Brux, Czechoslovakia.

Since that date, Sgt. Hankins has participated in 13 combat sorties against vital enemy installations in Germany, Austria and the Balkans, and has been awarded the Air Medal for sustained operational flight over enemy territory.

His parents, Mr. and Mrs. L. M. Hankins, live in Bonanza.

FEISS ON LEYTE
WITH THE AMERICAN INFANTRY DIVISION IN THE PHILIPPINE ISLANDS — For weeks Pvt. Edgar O. Feiss, son of Mr. and Mrs. Earl Feiss, of Chiloquin, and his M-1 have been helping to clear the hills of western Leyte of Japs.

A veteran of Solomon Island fighting, Feiss, like his comrades, thinks combat in the Philippines is about as tough as it comes. At times the Nips came in handfulls, at other times by companies.

Thinking they had killed about 30 on one hill, Feiss' company looked closer and found the total of 150.

Another, Feiss, his brother Earl, is also in on the Pacific phase of the war—with the navy. Edgar, before becoming an infantryman, was employed on a construction project in Flagstaff, Ariz.

BURKE IN MEDITERRANEAN
WITH THE AAF ENGINEER COMMAND IN ITALY—1st Lt. John F. Burke, box 171, Merrill, recently completed two years of active duty with the aviation engineers building bases for allied air power in the Mediterranean theater of operations.

PORTLAND, April 9 (AP) — The Sandy river smelt run taken its third victim. Kenneth C. Burke, 40, into the stream yesterday watching fishermen and clambling out once, again his balance and tumbled the fast-flowing river. He and a party of friends nearby, helpless to aid him, he was swept downstream.

ASHLAND, April 9 (AP) — Plant manufacturing five of dry ice a day will begin at this plant here within two weeks, company officials said today. The factory, a division of larger dry ice plant at Klamath Falls, will increase production to ten tons a day when machinery is available. V. Newbern, Klickitat county, who has plenty of dry ice, said the plant site.
