years of consecutive organization. Prior to 1920 there was a chamber here but the title fluctuated between Klamath county chamber of commerce, Klamath commercial club and Klamath chamber of commerce, omitting the "county."  
Earliest records of chamber activity for Klamath county, available, show the date 1909. The first chamber executive to draw a salary, as far as can be ascertained, was C. J. Oliver who served from 1911 to 1914.  
**Title Fluctuates**  
In 1915 the title "secretary" was changed to "manager." When the title of secretary was resumed is not apparent from the old records, but "secretary" has been used until the March 1945 chamber dinner, when "manager" was made the official designation.  
Fred E. Fleet served in that capacity from 1916 until 1918. The organization became inactive at a later date.  
An old application for membership dated 1915 was obtained by Capt. O. C. Applegate, according to the penciled signature.

## Surrender Offer Made to Allies

tees the unconditional surrender of Germany to the United States and Great Britain. The governments of the United States and Great Britain have replied that unconditional surrender will be accepted only if the offer is addressed to all the allies.  
There was no tendency to discount the possible authenticity of such reports. Although there was no denial that such an offer had come from inside Germany, neither was there any official confirmation.  
It was emphasized in strong terms that neither Britain nor the United States has any intention of accepting any Nazi offer separately or of conducting any negotiations towards the enemy's capitulation without the knowledge of and consultation with Russia.  
The London Evening Standard said: "Some sources here state that discussions have gone so far as to take into consideration specific conditions, such as how soon the surrender of 150,000 German troops in Norway and the laying down of arms by German garrisons trapped in various pockets, can be arranged."

a lot of investigating before there is any shooting.  
Our men's impressions of the Russian troops are favorable in the extreme. They seem to be the kind of people we can get along with. One GI says: "They shake hands with their right hands and offer you everything they have with their left hands."  
The conclusion is obvious that the end is nearing in Germany. There will be scattered resistance on a greater or less scale by Nazi fanatics, but the big fighting is about over.  
Cleaning up the mess is another story. That is just beginning.

## FROM THE PACIFIC TODAY, WE GET THE FIRST PORTRAITS OF THE NEW JAP SECRET WEAPON.

It is a 29-foot wing flying bomb released from a mother plane in the air and guided to its target (if not shot down first) by a suicide pilot.  
It was first used against our ships on April 12. We are given no reports as to its effectiveness, but our GIs have dubbed it the "fool bomb," indicating that it isn't too good.  
Note again the Jap suicide complex. History offers no record of wars won by committing suicide.

Russian correspondents in Berlin declared trapped Germans were trying to escape in wholesale fashion. German officers could not halt the suicidal resistance because of Nazi SS overlords, the correspondents added.

## Logger Guilty Of Assault

John Hayter, 27-year-old Shevlin timber faller, changed his plea of innocence to the charge of assault, armed with a dangerous weapon, and pleaded guilty before Circuit Judge David R. Vandenberg late Saturday morning.  
Hayter was placed on three years' probation by the court after his attorney, A. C. Yaden, had requested leniency due to circumstances surrounding the case. Hayter is said to have shot his falling partner, Claude Powell, on February 2, claiming that Powell had interfered with his family life. Powell has recovered.
