WHEAT

CHICAGO, April 30 (AP)—Wheat futures firmed today after a had start but traders were straggling to get very far out on a limb because of the news from Europe.

Wheat showed the most gains—well over a cent a bushel at times—on buying when news for short accounts largely by other grains held fractional gains most of the time.

Trade said that while "everybody knows the war in Europe will end soon," there is some nervousness over just when it will end and over what the market's reaction will be.

Wheat closed 1/2 to 1 1/2¢ a bushel higher than Saturday's finish, May \$1.74 1/2, corn was 1/4 to 1/2¢ up, May \$1.15. Oats were 1/4 to 1/2¢ higher, May 65 1/2¢, rye was unchanged, 1 1/2¢ higher, May \$1.35 1/2, and barley was unchanged to 1/4¢ up, May 67 1/2¢.

New Analgesic Tablet now released to public

(Pain Relief)

Thousands find it gives quicker, safe relief from headache—from pains of sinus, neuritis; neuralgia and arthritis

FOR MANY YEARS aspirin has been accepted by both the medical profession and the public as a safe, sure way to relieve pain. But many people who had complete confidence in aspirin did not find it gave as quick relief from bleeding, maddening pain as they hoped for. Hence in desperation they sometimes turned to other remedies less well proved.

To meet this situation a group of medical research men set out to see what could be done to speed up the analgesic or "pain-killing" action of aspirin—to make it bring their patients quicker relief, without heart or stomach upset.

Out of these researches came a really new kind of analgesic tablet, a combination of aspirin and calcium glutamate. In this new tablet, aspirin does its old, safe job of relieving pain. But through its combination with calcium glutamate, extensive tests by physicians showed it gave most people both quicker relief and greater relief from pain.

After this extensive testing and use by members of the medical profession as a prescription remedy, this new analgesic tablet has now been released for non-prescription sale by every druggist. It is called Superin (from super-aspirin). You can get it blessed, quick relief from pain by asking your druggist for a bottle today—30 tablets for 35¢. Ask for Superin—Superin.
