

# FOUR-H CLUBS HOLD ANNUAL FAIRS IN AREA

Countywide interest is being shown in community 4-H fairs being held now throughout Klamath county.

Last week Altamont, Henley and Shasta communities held their annual fairs in the school buildings. Fairs will continue throughout this week until Thursday. Maryolve Snarr, club agent from Oregon State college judged the exhibits.

The Danish system of judging was used, which allows four places in each class of blue, red, white and pink ribbon groups. Therefore, if the best item in an exhibit really rates fourth place, according to the standards of judging, it is rated fourth although there may be no first, second and third awards made for that exhibit.

Altamont's fair was held May 2, and awards were given in clothing, cooking, knitting, room and bachelor sewing projects.

Achievement pins were given for from one to four years of activity with the 4-H club, with Lois Young and Stanley McClellan receiving four-year pins, and Ruth Peyton receiving a gold five-year pin.

One-year pins were awarded 28 students, two-year pins to 14 students, and three-year pins to eight students.

Henley's 4-H club fair was held in the gymnasium of the Henley grade school, May 3. Exhibits included sewing, cooking and homemaking.

A style show by boys in the bachelor sewing project followed judging of the morning exhibits. The five boys in this division were camp or carpenter aprons which they made.

Style reviews were given by the three sewing groups, showing dresses made during the year in clubwork.

Henley girl scouts conducted a drill following the style reviews. A PTA meeting was conducted by Mrs. Earl Mack, as part of the afternoon program.

Friday, May 4, Shasta 4-H held its fair. There were 43 exhibits in the two projects, clothing and camp cookery.

Mrs. J. E. Steele was in charge of the exhibits and decorations for displays.

Fourteen awards were made for clothing exhibited, and 22 in camp cookery. The afternoon program presented by fourth and fifth grade pupils was well attended.

Awards and achievement pins were presented by Miss Snarr.

Bronze pins, for one year of club work were awarded by the state department of education to 40 club members. Two-year pins went to two students, and the silver third-year pin was awarded to one student.

## Dutch Want Land

Holland is going to ask for a slice of Germany to compensate for ruin caused by the Germans, says Foreign Minister Dr. Eelco van Kleffens, above, in San Francisco for the United Nations Conference. Experts have estimated it would take 30 years for The Netherlands to reclaim all land saturated by salt water when the enemy cut the dikes.

## MESSAGE ARRIVES FOR SGT. FULLER

City police are seeking to contact Sgt. Edward D. Fuller, army engineer corps, who is thought to be on authorized furlough in Klamath Falls. Police are holding an important message for this man and anyone knowing his whereabouts is asked to notify the police department immediately.

Two traffic arrests were made by city police over the weekend. Dolph C. Cosper, 2032 Wantland, was arrested for making an improper left turn and having no muffler. He was cited to appear in police court today.

Arthur Lyloy, naval air station, posted \$10 bail for running a stop sign.

Seven drunks and one vag appeared in police court this morning. Eight drunks and one drunk and disorderly case bailed out. Three parking tickets were paid.

Capital invested in the United States motion picture industry totals \$2,061,500,000; employees total 204,000.

## City Police Maintain Full Identification Equipment

City police now have a complete identification bureau for photographing and fingerprinting all prisoners. Sgt. Leigh Ackerman is in charge of this department of police work here.

A Gra-flex type camera is used for all outside work such as automobile accidents and crime scenes. It is also utilized to develop latent fingerprints at the scene of a crime.

Plastic moulage and plaster of Paris is used for casting footprints, tire tracks, and lethal weapons.

A standard camera is used for photographing purposes at the station. The picture of each man or woman photographed is then filed for future reference. Photographs of crime scenes and individual persons are accepted in court as evidence and this type of evidence is highly beneficial toward obtaining convictions, police report.

One Elwood enlarger is used by the local police in blowing fingerprints for identification purposes and a solution for the restoration of serial numbers on firearms and other articles is also used.

Sgt. Ackerman is well trained in this field of police work. He qualified as a fingerprint expert in 1912 while a member of the Portland police detective bureau. He was later sent to the University of California at Berkeley where he studied the establishing of a bureau of records under August Vollmer, who was then chief-of-police of Berkeley.

## EVACUEE HOSTELS PLANNED ON COAST

TULELAKE—In order to aid in solving the problem of temporary emergency housing for Japanese evacuees returning to the west coast, WRA has developed a plan for loan of certain equipment including beds, mattresses, pillows, blankets, chairs, kitchen utensils, crockery and cutlery to responsible organizations for establishment of hostels in Oregon, Washington and California.

Hostels, under the plan, must be operated on a non-profit basis and must be open for inspection by WRA employees to insure that facilities are utilized properly. A minimum of 20 persons must be served under the agreement and tenancy would be limited to not more than three weeks except in cases of hardship.

Such hostels may be sponsored by responsible committees or representative groups of people other than the evacuees or in addition to the evacuees with approval of the WRA area supervisor in the district where such hostels are located.

## The Milkman's Lute So What!

The baby doesn't have to get "on the job"—but YOU do!

## If Your Car Breaks Down You've Got Real Trouble

You can make sure your car or truck will start every morning—and keep you "on the job"—when you have it serviced regularly by our trained mechanics, using factory-engineered parts! Save time—save trouble—save expense—by making an appointment... TODAY!

## Navy Steps Up Wave Recruiting Quotas

WASHINGTON, May 7 (AP)—The navy announced today that recruiting quotas for Waves are being stepped up from 850 to 2000 monthly to meet "current needs."

Many of the recruits will be assigned to the hospital corps which already has 13,000 Waves on duty. As of May 1, approximately 82,000 Waves were in service.

All recruits will be given eight weeks' training at the naval training school at The Bronx, N. Y., before being assigned to duty. Hospital corps assignments will be sent to school for additional training.

## Records for Navy Personnel Requested

Anyone possessing popular records they are willing to donate for use of navy personnel, are requested to leave them at the Klamath county chamber of commerce.

Sailors at the navy air station have purchased a record playing machine, but have very few modern records.

## Records for Navy Personnel Requested

The chamber of commerce will see that any records left at the air station.

James A. Garfield, 20th president of the United States, served as bowman, deckhand and driver of a canal boat, cooper, carpenter, and farmer.

# NEW LOWER TIRE PRICES

GET MORE MILES-OF-SAFETY ON RIVERSIDES WARDS RIVERSIDE

## The War At a Glance

**By The Associated Press**  
European Front: Germany signs unconditional surrender at 2:41 a. m. (5:41 p. m., PWT Sunday) at Eisenhower's headquarters at Reims, France. In allied pincers on Czechoslovakia, U. S. third army took Pilsen 50 miles from Prague, and Russians reported 65 miles north of Czech capital.

Pacific Front: Australians win airstrip on Tarakan off Borneo; land-based U. S. bombers sink or damage 20 Japanese ships at entrance to Sea of Japan, and Superfortresses bomb airfields on Kyushu; British fleet shells southern Ryukyu islands.

Approximately 800,000 sick and wounded patients of the Allied forces have been transported by the army air forces in all theaters of operations in the past two and a half years.

## A Fence to Meet Every Need

Made from selected 48 in. full size wood slats, evenly spaced and woven between 5 cables of heavy wire. Colors, red or green.

It's easily, quickly and permanently erected. Long lasting and makes a good appearance. It's inexpensive, too.

Just the thing for Victory Gardens. Keeps dogs in—or out!
