

NAZIS GIVE UP TO U. S., REDS, BRITONS

(Continued From Page One)

9 p. m. (noon PWT) on V-E Day. Shortly after the broadcast attributed to Von Krosigk, the German communique was broadcast on the Flensburg wavelength.

This said "bitter fighting continues" in the area of Olmütz in Moravia where the Germans have been opposing the Russians. This communique usually has related the events of the previous day.

An order of the day attributed to Doenitz ordered German U-boats to cease fire. 4:11-4:19

Succumb After Six Years
"After almost six years struggle we have succumbed," the Krosigk broadcast said.

"Our sympathy firstly goes out to our soldiers. Nobody must deceive himself on the harshness of the terms which our enemies have imposed on the German people."

"Nobody must have any doubt that heavy sacrifices will be demanded from us in all spheres of life."

"We must take them upon us and stand loyally to our obligations."

"On the other hand," the broadcast continued, "we must not despair. From the collapse in the past we must keep in mind one thing—the idea of our unity, the idea of front comradeship, the idea of assistance to each other."

The Von Krosigk broadcast said that he was "leading minister of the reich government," which Doenitz had appointed him for the purpose of "winding up all military tasks."

The "Flensburg radio" has been used for several days for the issuance of German communique and official German orders. Flensburg is just below the German-Danish border in an area surrendered last week to Field Marshal Montgomery.

KLAMATH GREET'S NEWS OF SURRENDER

(Continued From Page One)

in duty routine at the Marine Barracks because of the European victory.

"It is unnecessary for the marines in Klamath Falls to be reminded that the war is not over but merely entering another and very difficult phase."

"No Celebration"
"For us, the marines, this can be no day of celebration while we are aware that our friends and comrades in the first marine division and perhaps other marine units, are at this moment engaged with the Japanese above Naha on Okinawa."

"We are fully cognizant of the cost—lives and determination of the enemy and we fully realize the tremendous difficulties still confronting us in the cost yet to be paid before the Japanese are destroyed."

"Milestones"
"For us, today is but a milestone to be noted as a feeling of pride in the accomplishments of our army in Europe, and of humble gratitude to Almighty God for His favor in this phase of the war to preserve the nation."

"For your information, superior authority has directed that today there be no special liberty, suspension of work or special celebrations. Our job remains plain—let's get on with the war with Japan."

King's Directive
Comdr. Darron was out of the city today, but the following directive from Admiral Ernest J. King, was sent to civilian workers at the Klamath naval air station:

"General Eisenhower has announced the cessation of hostilities. A thrilled and grateful nation is justifiably proud of all who made this accomplishment possible. But this is total war, a global war. We are about one-half way to complete victory. There remains to be conquered the entire Japanese nation."

"Men are still fighting and still dying, and will continue to fight and die in the hard push to Tokyo."

"The casualty lists tell the story, tragic yet glorious, of the fighting man's will to win unconditional victory no matter what the cost. We have a solemn pact with these men. The road that lies ahead demands from each of us a matching determination and unity of effort that will shorten

the time during which sacrifice must continue.

"Today every worker should rededicate himself or herself to the theme of providing these men with the firepower they need to smash the remaining enemy."

"To delay now in celebration of past success, would be fatal to carefully laid plans. We cannot and must not pause in discharge of our duty so long as a Jap remains a threat to the life of a single soldier or sailor."

"Let each of us get on with our job."

Continue Work
Camp Tulelake at Newell continued on with their work today and tomorrow, we've a job to do and we're getting on with it," Major Hazlett said.

"It doesn't make any difference whether today is V-E Day or tomorrow, we've a job to do and we're getting on with it," Major Hazlett said.

Principal logging and mill operations in the basin paused today in observance of the surrender. Mills ceased operating in mid-morning and approximately half of the logging camps continued work.

Thanksgiving
Out at the neighboring community of Bly, residents planned to gather at 5 o'clock this afternoon for a service of, thanksgiving.

Preparations had been made many months ago by the Klamath county chamber of commerce for a procedure to be followed on V-E Day, and this procedure was set in motion this morning and carried out.

As far as Klamath Falls is concerned this is official V-E Day celebration.

Schools at Merrill, Malin and Tulelake were closed today and all business ceased in that area, including mail delivery.

of sardonic joy out of seeing a competitor in the same fix.)

AS a result of the slip, it seems this morning that Britain will observe TOMORROW as official V-E Day. There are no intimations as to what Russia will do. From all accounts, we've beaten the gun and are doing our hat-throwing today, and any official celebration later will be a much warmed over affair.

SUCH is the state of general confusion on the morning of the 7th of May. What happened will probably be clearer by tomorrow.

MOSCOW says this morning that the Russians, who have been meticulously searching the bodies found in the reichs-charcellory building in Berlin, have found none that they can identify as Hitler's—although they have found plenty of members of the German general staff, leading storm troopers and high-up nazi officials, all dead by their own hands.

Moscow still thinks the announcement of Hitler's death is a nazi trick.

TODAY'S dispatches say in summing up that at least 40 MILLION men, women and children have been casualties of this global war that started when Hitler plunged into Poland.

It is terrible. But it carries this stern lesson:
The only beneficiaries of ANY global war, or ANY war of conquest, are the buzzards that feed on the dead bodies of the VICTIMS.

If common people throughout the world can learn that lesson so thoroughly that they will NEVER forget it, there will be some hope of ending global wars of conquest.

But not until then. As long as whole peoples follow the Hitlers and the Napoleons and the Alexanders and the Genghis Khans, there will be wars of conquest.

NOTE the trouble there has been in finding ANY GOVERNMENT to act in Germany, although it long has been apparent that Germany is hopelessly beaten.

That may explain why we are handling Hirohito so tenderly—practically keeping him wrapped in cotton batting so that no slightest jar from our bombs falling on Tokyo can shake him.

We may be saving him up to tell the Japs to stop fighting when the time comes (if he tells them to stop, there will apparently be no loss of "face," which is something the Japs must avoid at all cost).

No other explanation of our solicitude for Hirohito's personal welfare seems to make sense.

Nazis To March From Norway

STOCKHOLM, May 7 (AP)—The newspaper Expressens said in a dispatch from the Norwegian frontier today that a German march across the Swedish border into internment would begin this afternoon under capitulation terms.

In official Swedish quarters there was no confirmation of the newspaper's report. A semi-official source said the matter "seems to be under deliberation" but that there had been no decision on the technical arrangements so far as Sweden was concerned.

Court Rules on Miners' Wage

WASHINGTON, May 7 (AP)—The supreme court ruled today that bituminous coal miners are entitled to portal-to-portal underground wages.

Justice Murphy delivered the court's 5-4 decision. Justice Jackson wrote a dissent in which Chief Justice Stone and Justices Roberts and Frankfurter concurred.

The court on March 27, 1944 ruled that iron ore miners must be paid portal-to-portal wages—that is pay for the time spent traveling from the mine opening to the actual working place and back again.

Rodeos Turn Down Demands Of Cowboys

HAYWARD, Calif., May 7 (AP)—Representatives of California's 10 largest rodeos have voted to operate "without interference by any cowboy organization."

Announcement of the action was made here Sunday by Fred McCarger of Salinas, secretary of the Rodeo Association of America, after a meeting at a nearby ranch.

The vote resulted from "unreasonable demands for impossible increases in prize lists, plus payments of royalties," McCarger said, adding that similar meetings are being held in other districts throughout the country.

be explained by this reason alone.

"We end this gravest hour of the German nation and its reich. In this gravest hour of the German nation and its reich we bow in deep reverence before the dead of this war."

"Their sacrifices place the highest obligations on us. Our compatriots first to our soldiers, it goes out above all to the wounded, the bereaved and to all on whom this struggle has inflicted blows."

Severity Foreseen

"No one must be under any illusion about the severity of the terms to be imposed on the German people by our enemies. We must now face our fate squarely and unquestioningly."

"Nobody can be in any doubt that the future will be difficult for each one of us and will exact sacrifices from us in every sphere."

"We must accept this burden and stand loyally by the obligations we have undertaken. But we must not despair and fall into mute resignation. Once again we must set ourselves to stride along the path through the dark future. These are the factors guaranteeing the best state: unity, justice and liberty."

"From the collapse of the past, let us preserve and save one thing—unity, the ideas of the national community, which in the years of war have found their highest expression in the spirit of comradeship at the front and readiness to help one another in all the distress which has afflicted the homeland."

Plea for Unity

"Shall we retain this unity and not again split up under the stress? (Two or three words indistinct) Can we get over the future hard times? We must make right the basis of our nation. In our nation justice shall be the supreme law and the guiding principle."

"We must also recognize law as the basis of all relations between the nations: We must recognize it and respect it from inner conviction."

"Respect for concluded treaties will be as sacred as the aim of our nation to belong to the European family of nations as a member of which we want to mobilize all human moral and material forces in order to heal the dreadful wounds which the war has caused."

"Then we may hope that the atmosphere of hatred which today surrounds Germany all over the world will give place to a spirit of reconciliation among the nations, without which the world cannot recover."

"Then we may hope that we will again receive the freedom without which no nation can lead a bearable and dignified existence. Let us devote the future of our nation to the meditation of the innermost and best forces of the German spirit, which has given the world lasting achievements and values."

"To our pride in the heroic struggle of our nation let us link several words missing of the Christian western civilization to make to the honest work of peace a contribution which shall be worthy of the best traditions of our nation."

New Analgesic Tablet now released to public

(Pain Reliever)
Thousands find it gives quicker, safe relief from headache—from pains of sinus, neuritis, neuralgia and arthritis

FOR MANY YEARS aspirin has been accepted by both the medical profession and the public as a safe, sure way to relieve pain.

But many people who had complete confidence in aspirin did not find it gave as quick relief from blinding, maddening pain as they hoped for. Hence in desperation they sometimes turned to other remedies less well proved.

To meet this situation a group of medical research men set out to see what could be done to speed up the analgesic or "pain-killing" action of aspirin—to make it bring their patients quicker relief, without heart or stomach upset.

Out of these researches came a really new kind of analgesic tablet, a combination of aspirin and calcium glutamate. In this new tablet, aspirin does its old, safe job of relieving pain. But through its combination with calcium glutamate, extensive tests by physicians showed it gave most people both quicker relief and greater relief from pain.

After this extensive testing and use by members of the medical profession as a prescription remedy, this new analgesic tablet has now been released for non-prescription sale by every druggist. It is called Superin (from super-aspirin). You can get it blessed, quick relief from pain by asking your druggist for a bottle today—30 tablets for 39¢. Ask for Superin—Superin.
