480 German Ships Found

SUPREME HEADQUARTERS ALLIED EXPEDITIONARY FORCE, May 15 (AP)—At least 480 German ships, perhaps half of them sunk, damaged or scuttled, have been found in German ports surrendered to the allies, supreme headquarters disclosed today. The vessels include the liners Europa and Bremen and two cruisers.

The 49,746-ton Europa is in relatively good condition but silted in, and the 51,731-ton Bremen is a total loss.

The 8-inch gun cruiser Hipper was found sabotaged in her dock at Kiel, and the 6-inch gun cruiser Emden was stranded and burned out. A dozen submarines were found scuttled at Kiel.

Japanese-American Casualties Listed

TULELAKE—The WRA this week listed five more Japanese-American casualties among those in the U. S. armed forces who have next of kin residing in the Tulelake segregation center. All were wounded, four of them in Italy during April.

The men were Pvt. John S. Oki, son of Mr. and Mrs. Junichi Oki, Italy, on April 5; PFC. T. Doi, son of Mr. and Mrs. Manjiro Doi, Italy, April 19; Pvt. Tom Yagi, son of Mr. and Mrs. Tenjiro Yagi, Italy, April 20; PFC. Tadashi Arita, son of Mr. and Mrs. Tsurumatsu Arita, Italy, date unknown, and PFC. Hisaya Hasegawa, nephew of Shimasuke Maruyama, in the European theater of war.

If U. S. shoppers paid as little as five per cent above ceiling prices for everything purchased, the extra cost to American families would amount to $4,000,000,000 a year, or about $120 to each family.

BRITONS DENY CRISIS RUMOR ABOUT TRIESTE

Yugoslav army of committing cruelties upon the Trieste inhabitants. Yugoslavia has never refused to confer and express its requests as concerns frontiers at the peace conference."

Kardelj said the Yugoslav army had "liberated the Slovene littoral, Istria and Trieste at the cost of many lives." He added, however, that "the Yugoslavs cannot be denied the right to organize a military occupation authority in order to assure law and order until the problem of fixing frontiers is solved by direct agreement between Italy and Yugoslavia."

The incident re-emphasizes the EXPLOSIVE nature of the situation in Europe.

TRIESTE, at the head of the Adriatic sea, is bobbing up in the news in its historic role of powder keg. Both the Italians and the Yugoslavs WANT IT. Italian Premier Bonomi says his cabinet will resign if Trieste isn't given to Italy.

There will be hundreds of cases like that before it is all over.

OUR congressional mission that flew to Europe at Eisenhower's invitation to inspect German concentration camps, murder factories, etc., reports in Washington today that what it saw "forces the conclusion that the nazis carried out a calculated and diabolical program of planned torture and extermination."

That's what we have to STAMP OUT in Europe—and will have to stamp out in Asia. It can't be done by pouring on perfume to drown out the stench, or by shaking bloody nazi hands when the shooting stops.

We'll have to go to the ROOTS of the thing—and we'll have to be pretty GRIM about it.

YOU'RE probably confused by San Francisco, and have an uneasy feeling that we're getting nowhere.

Remember your confusion at the opening of legislative sessions—where everybody talks and talks and TALKS, but does nothing you can get your teeth into. Later on, MUCH later on, the real accomplishments begin to emerge.

ALSO remember that what finally emerges at San Francisco can be only a PATTERN, to be tested in the fires of experience by the process of trial and error.

7th Army Denies Handshake Report

WITH THE U. S. SEVENTH ARMY, May 15 (AP)—The U. S. seventh army issued an official statement today that "there were no handshakes or chicken dinners at headquarters of the seventh army" for Reichsmarshal Hermann Goering.

"As for special quarters for Goering," the statement added, "upon arrival at the army he was confined at a seventh army detention camp."

Gen. Eisenhower issued a statement Monday condemning the treatment of nazis and high German officials on a "friendly enemy" basis. British and American newspapers had criticized the reception of Goering, who surrendered last week to the U. S. 36th division. The 36th is a unit of the seventh army.

probably will remain in use throughout 1945.

Relaxation Eyed

It will be relaxed on July 1, Krug said, to give most types of civilian goods access to an uncontrolled pool of steel, copper and aluminum but he added that it now appears the "free" pool of steel will amount to only about 500,000 tons in the July-September quarter.

Therefore, he said, it probably will be necessary to retain after July 1 the flat prohibitions and limitations on manufacture of the big metal-using items, including stoves, building construction, automobiles, refrigerators, metal furniture and radios.

However, July 1 probably will see a start on considerable manufacture of washing machines, electric kitchen appliances, typewriters, sewing machines, vacuum cleaners and other goods which would not draw heavily on steel supplies.

Reports from Detroit that the automobile industry would get its go-ahead signal on July 1, Krug declared, "are unfounded—the date has not been decided and little can be said until after meetings here tomorrow and Thursday with spokesmen for the industry."

Krug said there will not be sufficient jobs in Detroit for the approximately 300,000 workers who migrated there for war work. These persons, he added, ought to take jobs in lumber and textile fields where there is an urgent need for higher production.

The program includes the story of Klamath Falls, what the city has done for service men stationed here and a number of local names will be mentioned.

Vandals Deface Eugene Church

EUGENE, May 15 (AP) — Vandals entered and defaced rooms in Lane county's only synagogue here over the weekend, and Chief of Police L. L. Pittinger, who classed the vandalism as that following the pattern of the worst kind of religious persecution, was today attempting to discover the identity of the vandals in a city-wide search.

The Beth Israel temple, Jewish church operated here in a remodeled home by some 24 families and 100 members, was entered and a large swastika was scratched on a service honor roll that included the names of 14 men and women members of the church serving in the armed forces. Swastikas were also cut into the wallpaper and four rooms were marked with crayon. The American flag was knocked from its standard and the gold eagle broken from the top, and the velvet on the altar was half torn away.

Pittinger said he believed adults were responsible for the vandalism. The church, which has no resident rabbi, had been closed since a Friday night service and the vandalism was not discovered until late Monday night—by a member, Jack Nudleman.
