# HUGE INDIAN HELD IN MURDER CASE

McMINNVILLE, Ore., May 18 (AP)—A 350-pound Grand Ronde Indian was under arrest here today in connection with the death of Henry W. Blair at Grand Ronde Sunday.

The huge Indian, Phillip John Warren, 29, and a white acquaintance, Vern Martin, were arrested on a warrant issued by District Attorney Earl A. Nott. Nott said the two admitted being with Blair when he died last Sunday. Blair, a white day worker of about 56, was first thought to have collapsed of a heart attack, but Dr. Joseph Beeman, state criminologist, said an autopsy showed death caused by a blow on the head.

The gigantic Indian, arrested at Grand Ronde last night, declared Blair suddenly collapsed and that he carried the dying man into the house.

Martin was to be brought here today from Toledo, Ore., where he was arrested earlier this week on a minor charge.

# BIENNIAL BUDGET FACES OPPOSITION

SACRAMENTO, May 18 (AP)—Governor Warren's biennial budget bill, raised by amendment to more than \$703,000,000 from the original figure of \$683,710,000 was back in the assembly today facing opposition from democratic Floor Leader Alfred Robertson.

Renewal of the debate on the state's fiscal program for the ensuing two years followed a 24-hour truce established at the request of the minority party leader in the assembly on the plea that additional time was needed to study the big money bill.

Meanwhile the assembly worked virtually all day yesterday on the "full employment" bill revamping the state's post-war reconversion setup. An effort from the democratic side to abolish the existing reconstruction and reemployment commission failed, but numerous lesser revisions were amended to the measure.

# Winnie Okayed Last Military Orders Of Germans, By Proxy

LONDON, May 18 (AP)—Before Germany's unconditional surrender, Nazi officers were irritated no end one day when important military documents turned up marked "Passed by Winston Churchill" and "approved by British military censors."

Flying Officer David Rosenthal of Calgary, Alberta, now at a released war prisoner camp in Britain, explained how it was done.

The documents were lifted from a German officer's car when he visited the camp for allied prisoners where Rosenthal was held.

"We gave the documents back in a few days," after they were marked up, Rosenthal said. "It was fun."

# Tuberculosis Hits 30-59-Year-Olds

PORTLAND, May 18 (AP)—Most Oregon tuberculosis sufferers are between 30 and 59 years old, and the disease affects more Oregon men than women, the state tuberculosis association reported today.

A survey showed most women affected are in child-bearing ages, said Mrs. Sadie Orr Dunbar, executive secretary, who recommended X-rays for expectant mothers.

# 48-Hour Work Week To Continue

PORTLAND, May 18 (AP)—A work week of at least 48 hours must continue in this city for the "time being," the state war manpower director said today, because of vital shipyard production.

L. C. Stoll said authority to revoke the 48-hour week—given to Portland and six other western cities—would not be used here now.

# ROOSEVELT AGAINST ABUSES OF FORESTS

MILWAUKEE, May 18 (AP)—Ten days before his death, President Franklin D. Roosevelt declared in a letter that "abuses of our forest resources should be stopped." It was disclosed today by the Women's Conservation League of America, Inc.

The letter, dated April 2, was addressed to Mrs. A. F. Toepfer of Milwaukee, president of the league, and commented on a resolution adopted by the organization on public control of forest cutting practices.

"I have pretty deep convictions that our forests can and should be handled so that they will contribute much more adequately to our national welfare," the president wrote.

"Forests protect watersheds that are vital for power, irrigation and flood control. They provide outdoor recreation for millions of people. Productive forests add to our national wealth and support permanent industries. They mean jobs and payrolls for hundreds of thousands of workers and opportunities for other thousands in professional, personal and public service . . ."

They helped him set his stove back up.
