

NONSTOP TRIP TO COAST SET BY PRESIDENT

WASHINGTON, May 26 (AP)—When President Truman goes to San Francisco to close the United Nations conference he will make a nonstop flight to the coast in daylight.

The White House, announcing further details of the trip today, said it probably would take about 12 hours with the president arriving around 5 p. m., Pacific war time at Hamilton field. He will motor from there to the Fairmont hotel to spend the night before the final plenary session of the conference which is expected to be around June 6.

Charles G. Ross, White House press secretary, said the morning after he arrives the president will attend a session at the Fairmont to meet the conference delegates. In the afternoon he will go to the opera house to witness the signing of the charter by representatives of the 49 nations. This is expected to take about a half hour.

His speech, to run from 10 to 15 minutes, will be around 4 p. m., PWT. Almost immediately afterward Mr. Truman will board a plane for a daylight trip to Olympia, Wash., to be the overnight guest of Gov. Mon C. Wallgren.

It was not announced where the president would stay in the Washington state capital. He will leave sometime the day after he arrives there for a return flight direct to Washington.

There will be two planes in the party.

Heinrich Himmler's Body Gets Unceremonious Burial

(Continued From Page One)

blanket he chose to drape about him when his own clothing was taken away after his arrest.

Unmarked Grave
The Himmler grave in the woods, a patch of pines, was not marked, for the allies do not want the Germans to remove the body or mark the spot for some monument later.

Some efforts were made to obtain a pine coffin in the type used by the Germans to bury victims of the notorious Belsen concentration camp, but none could be found.

"Let the worm go to the worms," a Tommy said. That was the only comment spoken at the grave.

Ground Smoothed
Dirt was shoveled on the body and the ground smoothed so as to leave no trace that it was the final resting place of one of the men who strode most heavily across the Nazi stage.

An intelligence officer who was present when Himmler clamped his teeth into the little vial of poison said the quick-acting draught took effect almost immediately and Himmler died without saying a word.

The Nazi chieftain had been stripped and examined, the officer said, and his last request was for a shirt to cover his nakedness. He had just slipped on this garment when he took his own life.

Lakeview Judge To Preside In Case

Circuit Judge Charles H. Combs of Lakeview will preside in the jury case of Walter Hannon vs. Ohlemeyer and Larkey, in the Klamath county circuit court Monday at 10 a. m. The case involves damages sought in a car accident.

An affidavit of prejudice against Circuit Judge David R. Vandenberg was filed by Hannon and Judge Combs assigned. Hannon will serve as his own attorney, and the defendants are represented by Attorney Richard Maxwell.

EDITORIALS ON NEWS

(Continued From Page One)

lies dropped in Europe during the past 12 months."

WE know now that wreckage from the air of Europe's war factories and transportation systems destroyed German will and ability to fight and upset their scheme to retire into the mountains and hold out to the last Nazi.

Europe is relatively large and Japan is relatively small. Dropping on much smaller Japan TWO AND A HALF TIMES the bomb tonnage dropped on larger Europe will make a nasty mess of the land of the rising sun.

It rather looks as if we aren't going to accept the Jap dare to "come in and kill the whole 70 million of us in our holes and caves if you think you can."

Instead, we seem to be getting ready to do the job OUR way.

MEANWHILE a blistering 18-hour battle—fought largely the Jap SUICIDE way—rages on and around Okinawa.

The little yellow men, drawing on their dwindling plane fleet and in the ensuing swirling dogfight damage 11 light units of our fleet (a light unit, generally speaking, is apt to be anything from a destroyer down). They lost 111 planes in the Okinawa scrap and 35 more in American sweeps from Okinawa to Tokyo.

Since the battle of the Ryukyus started, we have destroyed (not including those damaged) 4247 Jap planes.

AS announced by the Japs themselves yesterday, they sprung a new suicide scheme on us, sending in specially trained "giretsu" teams in twin-engine cargo planes to make belly landings on our airfields.

As these planes slid in, their crews, numbering apparently from 8 to 15 men, piled out and dashed toward our parked planes, ammunition dumps, operational buildings—ANYTHING in sight—seeking to blow them up before the explosive-toting Japs could be killed.

AP Vern Haugland says the first of these attacks left our men so goggle-eyed with surprise that the Jap crew had time to pour out of the plane, huddle for a conference, then reach back in for their gear before getting fired on. Then they opened up and mowed the death-seeking Japs down (those that were only wounded promptly committed suicide).

AS disclosed by a check-up so far, at least 11 of these "giretsu" planes, carrying crews of up to 15 Japs, were finished off by us. Seven of our planes, as so far counted, were destroyed in the attacks. As nearly as can be judged from these incomplete statistics, it doesn't look like a good swap from the Jap standpoint.

IT'S a bitter battle at Okinawa. Our losses in KILLED so far amount to a combined total of 9602, of which 44 per cent is navy, 39 per cent army and 17 per cent marines. The Jap loss (counted bodies) is around 50,000.

IN yesterday's B-29 raid over Tokyo, we lost 19 of the big bombers—3.8% of the 500 announced as participating.

We must remember that our losses when we were destroying the German airforce and starting wholesale destruction of German war plants were grim. No one is likely to forget soon the day we lost 84 American bombers and their crews of American boys over Schweinfurt. Our losses over Japan will be correspondingly heavy. Unfortunately, victory can't be won without losses.

But we'll destroy the Jap airforce, and later we'll destroy the Jap war industry—as we did to the Germans. The Japs KNOW it.

PLANE OUTPUT PROGRAM CUT BY ARMY RULE

(Continued From Page One)

the first half of next year it will drop to 60 per cent and then fall to 55 per cent in the second half.

200,000 Affected
The air forces declined to estimate the number of workers involved in the cutback, but war manpower commission officials said about 200,000 workers might be off aircraft plant payrolls by the beginning of 1946.

They emphasized, however, that was merely an estimate. Since the cutbacks are graduated, layoffs will be tapered correspondingly, without any sudden impact, they explained.

Truman, Hoover To Talk On Food

WASHINGTON, May 26 (AP)—President Truman has invited former President Herbert Hoover to the White House for a conference on the food situation in Europe.

The former republican chief executive was asked to call next Monday morning. Mr. Hoover has accepted the invitation.

Charles G. Ross, Mr. Truman's dress secretary, said Mr. Hoover would be here at 7:30 a. m., Pacific war time, Monday.

The former president was food administrator in the first World war and made several trips to Europe during and after that war to arrange for feeding the starving in Belgium and other countries.

Ross said the president "felt that Mr. Hoover had information which would be valuable to him."

Thefts Reported To City Police

Three drunks and two vags appeared in police court Saturday morning. Two drunks bailed out.

James Stanford of Klamath Falls, posted \$10 bail on a charge of failure to stop at the scene of an accident. Bail of \$5 was posted by Betty Arten, 126 Division, charged with letting her dog run at large.

The E. M. Carlson Mattress works, 2405 S. 8th reported to police that a console radio had been stolen from the premises. Doreen Blodgett reported a purse containing currency, bank book and personal miscellaneous articles, stolen from the Safeway store at Main and Esplanade Friday. The empty billfold was later found in a driveway.

Sgt. James C. Gilmore, Marine Barracks, was involved with William E. Shafer, Klamath Heating company, in a car accident in which considerable damage was done to the Gilmore car.

Japan To Feel Twice As Many Bombs As Germany

(Continued From Page One)

budget could be cut as much as 30 per cent below the \$49,000,000,000 appropriated for the current year.

Not Over 20
"We will be pleased with a 10 per cent reduction, and it won't be over 20 per cent," one committeeman said after the meeting.

Continued heavy spending, members said, will be necessary because of transportation requirements in the Pacific and stepped-up production of munitions, especially big bombs.

Chinese Retake Taohwaping

CHUNGKING, May 26 (AP)—Chinese troops are again in possession of the Hunan province highway town of Taohwaping, 25 miles west of Shaoyang (Paoching), after it had changed hands four times in fierce fighting in the past 24 hours, the high command announced tonight.

Casualties were heavy on both sides. The high command announcement indicated that fighting persisted and that the outcome was still in doubt.

Other Chinese detachments wiped out most of a Japanese force caught on a plateau northwest of Taohwaping.

In Kwangsi province the Chinese recaptured the road town of Szean, 75 miles northwest of Luichow, a key point on Japan's overland route to French Indo-China.

ARMS CONFAB MAY FOLLOW JAP DEFEAT

(Continued from Page One)

prospect that it would go to a meeting of Secretary of State Stettinius and the other big power delegation chiefs by evening. This means failure of the effort to settle the controversy this week, since the full conference committee on the security council will not get the statement before Monday.

It is expected that critics of the big power veto will carry their fight to a showdown in the committee. Big Four leaders continue to claim enough votes to block the great variety of proposed amendments designed to limit their authority in the council.

Five Thought Dead In Blast

GRAND ISLAND, Nebr., May 26 (AP)—Officials of the Cornhusker Ordnance plant eight miles west of here said they believed five persons were killed and four injured, one critically, in the explosion of a bomb-loading unit this afternoon.

The first cotton gloves were manufactured in America in 1916.

Children Hurled Into River By Young Mother

(Continued From Page One)

GLASGOW, Mont., May 26 (AP)—A 24-year-old mother of six children hurled four of them to death in the Milk river yesterday, Sheriff E. L. McPherson said, then plunged from a bridge to her own end in the muddy river.

A fifth child thrown into the river from the bridge a half mile west of Glasgow escaped death by swimming to the rocky shore and was quoted by the sheriff as saying that his mother, Mrs. Andrew Campbell, "hit me on the head with a hammer" and threw him into the water first.

The sheriff said the survivor, Johnny, 7, told him that he watched his brothers and a sister being thrown into the river.

The father of the children, a Montana-Dakota utilities company employe, found a note he said was in his wife's handwriting. It began: "I know I am going crazy . . ." The rest was illegible.

New Secretary—Mrs. Ona Mae Grimes commenced her duties as secretary of the AAA county agent's office Thursday.

Ruth Henry, former secretary, has resigned from this position and will be married June 2. Mrs. Grimes was employed as secretary for radio station KFJI for a year and a half, and has been home for the past three months.

The first cotton gloves were manufactured in America in 1916.

BLAST KILLS 12, INJURES OTHERS

(Continued From Page One)

jured were confined to the station hospital. Thirty-four others were treated and returned to duty. All were civilians.

Gas Masks Used
Gas masks lent effective aid to persons braving smoke, flames and recurring explosions to pass out unexploded phosphorus bombs in buckets and extricate casualties.

The bombs were described as the "ball of flame" igniters for the incendiary gas tanks being used by American flyers against the Japanese.

Japs Fire New Hatred For Yanks

SAN FRANCISCO, May 26 (AP)—Japanese propagandists attempted to burn new hatred for Americans into the heart of the Nipponese today with the flames of a Tokyo razed by Superfortress fire-bomb raids.

"The American people will surely get an answer in some form or other," declared radio Tokyo as it recounted the damage from today's 500 plane attack.

Later Tokyo asserted, "Every one who has experienced the enemy's inhuman atrocities have further stirred up their feelings of hostility and are firmly determined to fight to the last Japanese."

Demand For Nurse Draft Bill Out

(Continued From Page One)

WASHINGTON, May 26 (AP)—The war department today dropped its demand for a nurse draft law, explaining that rapidly changing circumstances of the last six weeks have minimized the need for it.

Acting Secretary of War Robert P. Patterson disclosed a letter to Chairman Thomas (D-Utah) of the senate military committee.

Deadline Set For Traffic Citations

Acting Police Chief Charles Hamilton has announced today, May 26, as the deadline for taking care of all back traffic citations.

Warrants will be issued, Hamilton stated, for all citations not taken care of by Monday. Those al have been issued recently, he said, and have apparently been ignored.

Ample time has been allowed for these to be taken care of the police station in case of hours a day including overtime and no further delay will be tolerated.

Your freedom can be insured with War Bonds, Hans Kroll Insurance, 118 N. 7th.
