

MAJOR OIL FIRMS TO DRILL IN STATE

PORTLAND, Ore., May 29 (P)—Prediction that all major California oil companies would be represented in Oregon oil prospecting within the next five years was made here today by A. J. West, assistant chief of Richfield Oil company's department.

West disclosed his company has leased 7500 acres of private land in the Oregon City and Linton areas. It earlier applied for 300 acres of county land and 1600 city-owned acres near Linton.

West said Richfield probably will not drill on the private acreage unless it can lease the city and county land in the vicinity. He explained a fairly large block of land is needed to make a test in unproven territory profitable.

Pine Tree To Be Planted 'Down Under'

WELLINGTON, N. Z., May 29 (P)—The planting of an Oregon pine tree in memory of 88 American servicemen buried here will mark Wellington's 1945 Memorial Day observance.

The tree will be planted in the Wellington cemetery by New Zealand women who nursed the American men in hospitals, or who arranged hospitality for them, and by the wives and fiancées of American servicemen fighting in the Pacific.

New Zealand girls whose husbands and fiancées have been killed in Pacific fighting will take a leading part in the ceremony.

Seven Named To Park Committee Here

Seven long-time residents of Klamath Falls will serve as members of the Veterans Memorial park committee, the council confirming Mayor Ostendorf's appointments made at Monday night's meeting.

This group will complete transactions for property in the area bordering on Little river. Members include John Martin, chairman; Ed Dunham, A. B. Moore, Charles Thomas, E. M. Bubb, L. F. Kirkpatrick, Harold Franey, and Mayor Ostendorf, ex officio.

Yanks Asked To Buy Bond As Memorial

WASHINGTON, May 29 (P)—Americans were asked today to buy an extra war bond on Memorial Day—tomorrow—not only to remember the dead but to care for the wounded.

Ted R. Gamble, national war finance director, said in a statement that \$45,000,000 will be spent by the army during the 7th War Loan drive in treating and reconditioning its 100,000 sick and wounded men.

"No one," he said, "can quarrel over the cost."

He pointed out that to raise \$45,000,000 the treasury must sell 2,400,000 bonds of \$25 face value, costing \$18.75 each.

Sales in the bond drive to date are \$2,529,000,000, including \$1,543,000,000 in series E bonds. The goal is \$14,000,000,000. The drive began May 14 and ends June 30.

FORMER KLAMATH RESIDENT

Word was received from J. C. Argelinger, a resident of Klamath Falls, Calif., on May 28.

Cheney, a former Klamath Falls resident, was on a fishing trip in the area of the Klamath Falls dam and companion on the trip was walking tracks when Cheney fell down an embankment.

A few weeks ago Cheney's wife, the former Dale of Klamath Falls, was on a fishing trip in the area of the Klamath Falls dam and companion on the trip was walking tracks when Cheney fell down an embankment.

Cheney served in the military during World War I and was discharged in 1919. He lived in Klamath Falls for many years.

Cheney, who was 70 years old, was found by a fisherman in the area of the Klamath Falls dam and companion on the trip was walking tracks when Cheney fell down an embankment.

Cheney was taken to a hospital in Klamath Falls and died there on May 28.

Funeral services will be held in Klamath Falls on Wednesday at 10 a. m.

Morse Backs Federal Court Term Here

Senator Wayne L. Morse Monday advised members of the Klamath County Bar association at their regular Monday luncheon at the Willard, that he was glad to cooperate with Representative Lowell Stockman to secure the passage of the bill providing for a term of federal court in Klamath county.

Members of the association are particularly keen to see a term established here. A special term was held here last April 9.

In the absence of President U. S. Balentine, the vice president, Lamar Townsend, presided.

GALLONAGE TAX TO BE CHARGED MILK

All milk brought into the city of Klamath Falls, will now pay the one-eighth of a cent gallonage tax whether or not it is consumed by residents of this city.

Action taken by the city council last night, at which time an ordinance was amended to read "all milk brought into the city of Klamath Falls," involves some 39,000 gallons of milk consumed by four military installations in this area, but outside the city limits.

Dr. J. Calvin Hunt, city meat and milk inspector, advised the council that any milk pasteurized outside the city, such as milk purchased and pasteurized in Medford, would not come under local control.

"But whatever milk is brought in, pasteurized and bottled—we should have an interest in that milk," the inspector concluded.

Attention was brought to the fact that Lost River Dairy is not paying this gallonage tax on milk brought in and delivered to the Marine Barracks, Klamath naval air station, Camp Tulelake and Newell. Despite the fact this milk is not consumed locally, it still has to be inspected by the city official and in the opinion of the council should come under the one-eighth of a cent gallonage tax.

661 Jap Soldiers Reported Casualties

TULELAKE — Six hundred and sixty-one Japanese soldiers with next of kin living in WRA centers have been reported as casualties in World War II, according to May 12 figures released by WRA officials here this week.

Of the total 142 were killed, 504 wounded and 15 missing. The Minidoka center led all others with 112 casualties. Poston followed with 87.

The Tulelake center lists 22 casualties, with 6 killed and 16 wounded.

Matter Referred The matter was referred to the recreation committee with authority to grant the request.

The council adopted a resolution in regard to the county-city jail permitting the mayor and police judge to assign an option on property to Klamath county.

The resolution reads: "That the city assign the option on said premises to Klamath county, given so that Klamath county can proceed to purchase the property after which one-third interest thereon will be repurchased by the city of Klamath Falls and a joint county-city jail be constructed on the property."

Property includes 104 feet facing Klamath avenue between 2nd and 3rd, and is 255 feet deep, according to Police Judge Harold Franey.

Election Void City Attorney Henry Perkins advised the council in written form that the south suburban annexation on the June election ballot was now void, due to the emergency clause on senate bill 121 and signed by the governor on March 26, 1945. The bill calls for petitions signed by 25 per cent of the electors in the tract to be annexed.

Perkins explained that this information usually reaches city officials in June and his office had not been advised of the emergency clause on the bill.

On motion of Councilman Landry, the city hall will be closed Wednesday, Memorial Day.

UMW LAUDS FORMER LABOR SECRETARY

WASHINGTON, May 29 (P)—The United Mine Workers Journal declared today that Secretary of Labor Perkins, who is giving up her cabinet post to Judge Lewis B. Swollenbach, performed her tasks "mighty well."

The journal, official organ of John L. Lewis' United Mine Workers, said President Truman had made "a wise selection" in appointing the Washington state jurist and former United States senator.

"Secretary Perkins inherited a mess," said the journal. "During her tenure of office, many laws were passed which changed the game of our industrial relations. She had to withstand the onslaught of labor leadership's criticism and that of the pirates of big business, as well as the political 'biggies'."

"We hope that Judge Swollenbach has had an understanding with President Truman to revamp the department of labor and bring within its fold those functions of government that distinctly belong to it. We wish

for him a successful administration and we believe that he has an opportunity unexcelled in any other government department to render service to his fellow man and his nation."

Need For Salvage Continues, Report

Although the war in Europe has been won, the urgent need for salvage materials, including waste paper, tin and fats, still exists. There has been no let-up in the use of such materials, so there can be no let-up in the source, which means that every person must seriously and conscientiously save and turn in salvage. OPA officials stressed.

The central salvage depot for the county is open for use 24 hours a day on Market street at the big sign. Everyone is urged to take their waste paper and tin to the depot so that it can be shipped immediately. Waste fats may be turned in to the butcher.

The salvage program must be a continuous one, as long as the need for salvage exists.

Jury Upholds Right Of Jap To Repossess Land Leased Whites

OREGON CITY, Ore., May 29 (P)—After only 15 minutes deliberation, a circuit court jury today had upheld the right of Masayuki Fujimoto, returned Japanese-American evacuee, to repossess a 60-acre tract leased to white farmers in 1942.

Chief issue was the contention of Dale and Lorene Bergh that their lease was for "the present national emergency" and that the crisis still exists during war with Japan.

A previous court decision in favor of Fujimoto was cancelled because he failed to give proper OPA vacation notice. Bergh is a leader in the movement to exclude persons of Japanese ancestry from the Pacific coast.

PILE RELIEF

Simple piles need not torture you with maddening itch, burn and irritation. Sauer's Pyramid Suppositories bring quick, welcome relief. Their grand medication means real comfort, reduces strain, helps tissues relax, membranes, gently lubricates and softens. Protective and anti-chafing, so easy to use. Get genuine Sauer's Pyramid Suppositories at your drug store without delay—60c and \$1.20 on maker's money-back guarantee.

Advertisement for car tune-up with image of a car and text: IT'S SPRING Get a TUNE-UP TIME NOW FOR A COMPLETE CAR CHECK-UP

It takes 8 tons of supplies to K.O. one Jap

The above statement gives you an idea of the enormous volume of guns, ammunition, food and medical supplies still needed to finish the Japs. To produce mountains of material takes money—your money in War Bonds. This year there will be only two War Bond drives, not three. But only by buying more bonds during the 7th War Loan can two drives take the place of last year's three. Almost as much money is needed this year as last to fight the war. When peace comes you'll be glad you have War Bond savings for educating your children, maybe a new home, a new car, retirement and a lot of things you can buy now. The point of a bond drive like the 7th to buy extra bonds—above those you already buy. You are asked to buy at least an additional \$100 bond during the 7th War Loan—May 14th to June 30th.
