

PROTECTION OF FISH SOURCES EYED IN BILL

WASHINGTON, May 31 (AP)—Aimed at protection of the fishing resources of the west, a bill is before congress to permit the fish and wild life service to participate in planning reclamation facilities.

Senator Cordon (R-Ore.), a wildlife enthusiast, introduced the bill last month and it was referred to the senate's special committee on wild life resources. Hearings are planned late this summer, when the many congressmen now absent on investigations or inspections have returned to their offices.

The bill would declare that "no impoundment, diversion or other water control facility shall be constructed by any agency of the federal government, or by any public or private agency under federal permit, that does not include adequate means and measures, so far as practicable, as approved by the fish and wild life service, in cooperation with the constructing or authorizing agency, to prevent loss of and damage to fish or aquatics, dependent upon the waters affected"

To carry out its part of the program, the fish and wild life service would be authorized to make the necessary investigations and the cost of these and such protective devices as are necessary to effectuate its recommendations, would constitute "an integral part of the costs of the project."

The bill also authorizes investigations into stream pollution and orders that reports shall be made to congress with recommendations for alleviating dangerous and undesirable effects.

Flashes of Life

GONE WITH THE WIND
IDAHO FALLS, Idaho, May 31 (AP)—Sailor Russell Hayden on board an aircraft carrier wrote friends here that he received a letter from his brother, Ben Lynn Hayden, a sailor on another ship in the Pacific.

"I seated myself in a cool, shady spot," Russell wrote, "and anticipated enjoying the letter. I opened it and proceeded: 'Dear Russ . . . whoosh! A gust of wind and over the side goes the letter.'"

PERILS OF A POSTMAN
TOPEKA, Kas., May 31 (AP)—Tom Higgins, Topeka mail carrier, told of an attack by a riled rooster—a baniam at that—as he made his regular rounds.

Higgins said he surrendered the yard unconditionally.

GREAT DAY
OMAHA, Nebr., May 31 (AP)—It was a busy, eventful day for the Carl W. Jensens. A few hours after Jensen was inaugurated as Omaha city commissioner, his wife presented him with an 83 pound daughter.

NECESSARY TRIP
CHICAGO, May 31 (AP)—Seven-year-old Joseph LeJoy, clad in pajamas and shoes, boarded a street car late last night, told Conductor Chester Lenz: "I've just left the hospital and I'm going home."

Lenz called police and they turned him over to his mother, Mrs. Eleanor Graham. She explained Joseph's reason for leaving the hospital—he climbed down the outer walls from a second floor ward. He didn't want to undergo a tonsillectomy scheduled for today.

Mrs. Graham said the operation would be postponed.

Navy Units Under Construction

Homaja huts being built to house navy personnel are constructed in the shape of airplane hangars. There will be 31 two-apartment units.

Some relief from the housing situation here is expected with the completion of 31 Homaja huts, the latter part of June, being constructed adjacent to the naval air station.

The huts, 20 by 56 feet each, will contain two apartments and house two navy families. Each apartment will have two bedrooms, living room, kitchen and bath. They will be connected with the station sewer and water systems, and will be heated by coal stoves.

The navy provides linen, bedding, dishes and furniture. In all there will be 31 two-family huts, a laundry building and a maintenance building.

The 80 units out on Washburn way are completed and have been occupied by 48 navy and 32 marine families since May 1. These were constructed by the federal housing authority, under Project Engineer Harry Gamble. Additional construction has been started by Halvorsen Construction company on 155 family units adjacent to the 80 unit project. These facilities are expected to be completed September 1, 1945, Gamble stated.

Forty of these units will be occupied by navy families and 115 by marine.

Only a few laborers are working now on account of the bad weather, Gamble said. The lumber bottleneck has eased up, however, and work is progressing as quickly as the weather allows. Twenty per cent of the work is already completed.

Construction on the 50 civilian prefabricated buildings on the hill has been delayed because of late deliveries of plywood, and exterior wall surfacing material.

Trailer houses in the trailer unit on Washburn way are being renovated by the government with new paint inside and out. The work is progressing without disturbing the families occupying them.

Streets for the Shasta View units, finished last fall, will have black top surfacing as soon as the weather permits. Lawns and landscaping by Lakeshore nurseries is being held up on account of wet weather.

Preference for living quarters is given men with families, returned from overseas combat

within the last six months, and those at present living in unsuitable quarters.

Lt. Robert S. McGregor is navy housing officer and S/Sgt. Richard Thomas is in charge of housing at the Marine Barracks.

The coast guard maintains the world's largest fireboat fleet.

TREASURED LINENS!
HOW DO YOU KEEP THEM LOOKING SO NEW?

THAT'S EASY! CLOROX GENTLE BLEACHING MAKES THEM SNOWY-WHITE AS NEW!

Prized old linens often possess sentimental value in addition to their lovely appearance. Such linens, as well as those hard-to-replace everyday linens, deserve the utmost care . . . especially in laundering. They deserve Clorox extra-gentle bleaching . . . for Clorox lessens rubbing, thus conserving fabrics. Clorox is ultra-refined . . . it is free from caustic, an exclusive, patented quality-feature. Let Clorox help preserve the beauty and life of your linens.

Clorox in routine cleansing of kitchen and bathroom "danger zones" provides greater home health protection . . . for Clorox has intensified disinfecting action. Ask for Clorox. Simply follow directions on the label.

AMERICA'S FAVORITE BLEACH AND HOUSEHOLD DISINFECTANT
CLOROX
FREE FROM CAUSTIC
Disinfects
DEODORIZES • BLEACHES • REMOVES STAINS

Clorox in laundering makes white cottons and linens snowy-white (brightens fast colors), removes stains, scorch and mildew. It also deodorizes and disinfects.

When it's CLOROX-CLEAN... it's Hygienically Clean!
