MOTT PROTESTS SUBSIDY MEASURE

WASHINGTON, June 4 (AP) — Mott (R-Ore.), though he is not a beneficiary of the subsidies, protested today that the beneficiaries are not being protected. Mott continues for one year production incentive payments on meat, butter, flour, peaches, minerals, etc. Mott recalled that a bill to halt subsidies failed last year by one vote. Mott expressed hope that the banking and currency committee will bring out legislation to amend the program. Mott said, "The administration has not only concentrated through the years on failure to perform but it has made a failure out of nearly everything it has done." Mott said the buttermakers are vehemently against the subsidies, but they came back last year asking for a continuation of the program. "That," Mott declared, "is a system of degrading which is very dangerous."

Churchill Hits Socialist Policy

LONDON, June 4 (AP) — Prime Minister Churchill opened the Conservative party's election campaign tonight with a forthright attack against the socialist policy of the labor party which he said "is abhorrent to British ideas of freedom." Churchill said there can be no doubt that socialism is inseparably intertwined with totalitarianism and that the labor party's policy is to subject the laboring classes to the rule of a few. He said he would declare it to you, from the bottom of my heart, that no socialist system can be established without a political police. Churchill said, "No socialist government conducting the entire life of a country is likely to allow free, sharp and honest expression of public discontent. They would fall back on some form of 'tapo.'"

A year. The monsoon season lasts from late April until early October.
THE Near East is still a powder keg, and the fuse still smolders in Syria. The Arabs are apparently definitely down on the French and at present seem to feel more kindly to the British.
What they want is their INDEPENDENCE—as all of us do. One fears that the time is not yet here when rich (in oil, etc.) and strategically located LITTLE, WEAK nations can live in happy independence among big and power-hungry neighbors.
If problems such as that can be satisfactorily solved by international co-operation of the sort that is currently under discussion at San Francisco, we shall indeed be entering a new and more hopeful world.

EXTENT OF RAIN DAMAGE UNKNOWN

The full extent of damage to crops in Klamath basin, caused by the unusual rainfall and storms during May, cannot be determined yet. J. R. McCandliss, assistant AAA county agent, said Monday.
The rains generally were good for the grain, however crops near Pine Grove suffered in the cloudburst Tuesday, May 29, when a broad streak of hail swept across the country. Trees were stripped of their leaves, and alfalfa fields flattened in the areas. Some other damage caused by the cloudburst has been reported to the county agent's office but the full extent will not be determined for a while yet.
A few fields of potatoes planted on hills and next to slopes were reported washed out by the downpour and considerable soil erosion reported in some areas. A few crops have been reported affected by rot, but as far as present information goes, crop loss was not drastic.

Agricultural Census For Klamath County Completed

R. L. Ackerman, local supervisor for district three of Oregon, announced today that the 1945 census of agriculture has been completed in Klamath county. It is believed, however, that some agricultural enterprises may not have been enumerated, and, since it is desired to have the enumeration as complete as possible, any persons who were missed by the enumerators are requested to submit their names to the local office of the bureau of the census, located at 606 Medical-Dental Building.
All general farms, also enterprises or establishments—even though small in area—such as greenhouses, mushroom cellars, nurseries, hatcheries, keeping of cows or other livestock, chickens and other poultry, or bees, or growing of flowers, vegetables, or fruit—the value of the products from which sources amounted to \$250 or more in 1944—are to be included in the 1945 census of agriculture. The limitation of \$250 does not apply if the establishment covers three acres or more.
Those who operate an establishment which comes under any of these categories and have not been enumerated, or are in doubt as to whether their agricultural enterprise has been enumerated, should fill out the following blank and mail to R. L. Ackerman, Bureau of the Census, 606 Medical-Dental Building, Klamath Falls, Ore.

LABOR OPPOSES WATKINS LISTING

PORTLAND, June 4 (AP) — Organized labor — both AFL and CIO — today stood opposed to appointment of Elton Watkins, Portland, as United States district attorney for Oregon.
Democratic leaders have recommended him to Robert Hannegan, national democratic chairman. Term of incumbent Carl Donough expires July 23.
The CIO said it understood choice lay between Watkins and Bruce Spaulding, former Polk county district attorney now practicing in Salem. CIO spokesmen expressed willingness to accept Spaulding but voiced preference for Henry Hess, Bend, defeated for governor in 1938. Spaulding prosecuted union leaders in 1937 "goon" trials.
Stanley Earl, state CIO executive chairman, stated disapproval of Watkins had been communicated to Philip Murray, national CIO president.

ESQUIRE MAILING PRIVILEGES VALID

WASHINGTON, June 4 (AP) — The United States court of appeals ruled today that Postmaster General Walker had no right to revoke the second class mailing privileges of Esquire magazine.
The court reversed a district court decision which had upheld the postmaster general's ruling that the magazine failed to comply with legal requirements for second class mailing privileges. Walker found it uses "indecent, vulgar, risqué" pictures and writings as "a dominant and systematic feature" which "most certainly cannot be said to be for the public good."
Second class mailing privileges have estimated that loss of such privileges would cost the publication more than \$500,000 annually.
The appeals court remanded the case to the district court.
