

Church Has Anniversary

This is the Tulelake Community Presbyterian church, which celebrates its 10th anniversary with special services on Sunday, June 10.

WARD BATTLE TO CONTINUE TO TOP COURT

(Continued From Page One)

The company is expected. The army, under Judge Sullivan's January ruling, has been in control of the appeal and is expected to remain in charge until a final verdict. (The supreme court is scheduled to recess for the summer after next Monday's session, and consideration of the case probably will not be acted on until fall. The court previously had rejected the attorney general's office request to dispose of the issue following Judge Sullivan's ruling, asserting the case properly belonged in the jurisdiction of the court of appeals.)

Avery, who has maintained that the government's taking over of the properties was illegal, asserted that the appeals court decision "means he closed shop. Certainly congress has passed no law intended to impose the closed shop. The American people may be depended upon to preserve for every citizen his individual liberty."

Yesterday's majority opinion by Superior Judge Ewan A. Evans and Judge Otto Kerner stressed that Ward's is engaged in war production. In opposing the seizure the company said it was not engaged in war production and was not subject to regulations of the war labor disputes act, which permits the seizure of producers of war materials. It maintained the president exceeded his authority in issuing the seizure order. The seizure and subsequent court action stemmed from Ward's refusal to obey war labor board directives, which resulted in strikes.

President Roosevelt said the strikes endangered the war effort and the army took over Ward's properties in Chicago, Detroit, St. Paul, Minn., Denver, Portland, Ore., San Rafael, Calif., and Jamaica, N. Y.

Fire Fighters Given Instruction At Meet

Instruction in the fundamentals of fire detection, location and suppression, was given at the fire guard training school held at Butte Falls for the entire forest personnel from June 4 to June 7. Proper procedure to be followed in case of locating incendiary balloons was also discussed at the school which was attended by 12 men from the Lake of the Woods district.

John Sarginson of the Klamath U. S. forest service attended from here.

May Rains Fail To Crowd Water Channel

The diversion channel, which will carry a capacity of 1200 second feet of water, was not crowded with May rainfall. E. Laton Stephens, bureau of reclamation, reported. Some 539 second feet were reported at the peak, and by Saturday it had dropped to 268 second feet. Between 400 and 450 have been the average lately.

In addition to 300 second feet reported May 30 in Lost River dam, over 200 feet were pumped from drain ditches, making a peak quantity of 500 second feet. By the Saturday report it had dropped to only 40 second feet.

Lightning Gives Theft Evidence

Lightning striking a tree in Moore park unearthed evidence involving a serviceman and a juvenile in the robbery of the new USO building early in the morning of the opening day. Complaints have been filed and warrants issued against a marine, PFC E. F. Conley, 23, and a minor boy, charging them with the robbery, from evidence thus disclosed.

Shortly after police were notified that the USO building had been entered and various articles reported missing, a call was received at the station that two boys had found an unusual cache under a tree in Moore park.

Investigating a tree struck by lightning, caretaker B. F. Stott's son and a friend found hidden beneath the branches a small radio, a record playing machine, an electric saw and electric cleaner with a number of other valuable articles, later identified as belonging to the USO.

Complaints were filed and warrants issued against the two.

Sweden Site Of Yank Air Base

NEW YORK, June 9 (AP)—A Mutual network correspondent in Stockholm reported today that an American air base, used for the transport of supplies to the Russians in northern Norway and Finland, has been in operation in northern Sweden since the latter part of January.

The aerial supply service is under the command of Col. Bert Balchen, the correspondent said, adding that a group of some 60 American airmen and ground crewmen maintained the ferry service for a full four months before the end of the war.

Fishing Said Good On Klamath River

Klamath anglers report that fishing in general is fairly good in this area. The Klamath river from Keno to the California line is said to be exceptionally good with the fish biting on plugs, flies and spinners.

Upper Klamath lake is good off Rocky Point, while Diamond lake is spotty, with bait fishermen reporting the best catches. Fish lake is good on bait and trollers have had some luck at Lake o' the Woods.

Anglers also report that Agency lake is good at Wood river and Seven-Mile creek. Trolling with flashers, worms, and wobblers has produced the best results. Sprague river is said to be only fair.

FATAL INJURIES PORTLAND, June 9 (AP)—Injuries suffered when his horse fell on him May 30 were fatal yesterday to Clarence Cramp-ton, 36, Gresham, police said today.

Another horseman, Wesley A. Ramage, 21, was seriously injured when his horse reared and fell, pinning him underneath.

New Point Values Slated For Army

WASHINGTON, June 9 (AP)—The army said today that the new critical score for discharge of GI's will be announced in July. While some reduction below the present 85 points will be made, "it is not expected to be very great," the announcement said.

The war department's statement also said that "in reference to news dispatches yesterday from the European theater of operation, the 2,000,000 soldiers to be returned to civilian life in the next 12 months will include those discharged for wounds, sickness, age and other specific reasons, as well as those released under the point system. This is the figure for the entire army and not for the European theater alone."

Committee Approves Klamath Falls Budget

Sinking funds, reserves, involuntary funds and budgets were thoroughly gone into at the city committee budget meeting Friday.

Budgets already previously outlined by the various departments of the city were gone over, and approved by the committee. They will be referred to the city council for final approval Monday night, and from there to publication.

Although all budgets were allowed some increases, the overall increase for the city budget was still less than the six per cent allowed by law.

LUMBER STRIKE CLOSER IN WEST

PORTLAND, Ore., June 9 (AP)—A lumber strike in five western states was one step closer today after the CIO International Woodworkers of America negotiating committee recommended a strike vote to obtain higher wages.

Most of the local unions and district councils, representing Pacific coast fir and pine are expected to comply with the request. They would ask international officers to take the vote. The CIO seeks a general 25-cent-an-hour increase retroactive to March 1. Earlier this week an AFL spokesman predicted a strike unless its lumber and sawmill workers receive a 20-cent boost asked by that union.

General wage increase demands, rejected by the war labor board, led to a two-week walkout in both unions a year ago.

rites SCHEDULED

PORTLAND, June 9 (AP)—Last rites will take place Monday for Emil C. Altorfer, 64, Imperial hotel chef who for many years worked at the famous St. Francis hotel in Switzerland.

Altorfer, who died here this week, came to America in 1905 to open the German house at the St. Louis world fair. He was born in Switzerland.

NEW LANDINGS REPORTED IN BORNEO AREA

(Continued from Page One)

anese towns as broadcasts admitted 1,700,000 have been left homeless by fire raids on Tokyo, Yokohama and Nagoya. 4. Signs of demoralization and possibly mutiny were seen among the emperor's troops in the southern Philippines.

Compress Pockets

5. U. S. marines and infantrymen, supported by intense air, artillery and naval bombardments, were tightening death pockets on the Okinawa garrison already compressed to disconnected three and 15 square mile areas.

The only cheering report for the mikado's rubber-stamping parliamentarians came from Okinawa where Tokyo claimed three U. S. first line warships were sunk and five damaged in kamikaze (suicide) air attacks Wednesday and Thursday. Adm. Chester W. Nimitz announced 67 raiders were shot down. He said they damaged two small U. S. vessels, making 25 ships sunk and 60 damaged in the entire Okinawa operation.

Senate To Vote On Price Control

WASHINGTON, June 9 (AP)—Administration forces today sought the return of absent senators for a vital vote Monday on price control extension.

They claimed the votes to defeat two proposed profit-assuring amendments which Price Administrator Chester Bowles said would bring inflation. Nevertheless they urged absent supporters to hurry back for the test.

Bard Resigns As Undersecretary

WASHINGTON, June 9 (AP)—President Truman has accepted the resignation of Ralph A. Bard of Chicago as undersecretary of the navy.

Bard will be succeeded by Artemus L. Gates of New York, now assistant secretary of the navy for air. Gates' successor will be John L. Sullivan of Manchester, N. H., former assistant secretary of the treasury who has been practicing law here recently.

GOP Wins OWI Economy Drive

WASHINGTON, June 9 (AP)—House republicans claimed credit today for the smashing success of an economy drive against OWI, while democratic leaders pondered what to do about a heavy voting majority that doesn't always vote. A reduction of \$17,000,000 from 1946 fiscal year funds of the office of war information represented a clear-cut republican victory.

It may be a short-lived victory. The senate in the past frequently has restored such house-voted reductions and the house has acquiesced or compromised by accepting half of the senate's increases.
