Don't Drive a Booby Trap

Watch Out!
Pretty fancy 'phone, isn't it?—not like the ones back home! That's why the Japs wired it to a mine, made it into a Booby Trap. But American soldiers don't fall for it—they've been taught to spot Booby Traps and avoid them.

Watch Out!
Lacking proper lubricants, your transmission and differential gears can chip or score—cause you plenty of sudden trouble. That's why these important points are included in Shell's check-up of vital parts during Shelllubrication. Let this service protect you.

Da's na fijn, zunne!...Have a Coca-Cola
(SAY, THAT'S GREAT!)

... an American custom lands in Brussels
In Flemish, it's vriendelijkheid. In American, it's the plain, everyday word friendliness. Everywhere your Yankee doughboy goes, it comes from his heart in a good old home-town phrase, *Have a Coke*. Friendliness is bred in his bone and it bubbles out—like the bubbling goodness of Coca-Cola itself. Yes, the pause that refreshes with ice-cold Coke becomes an ambassador of good will—the old home spirit carried across the seas.

Coca-Cola the global high sign
You naturally hear Coca-Cola called by its friendly abbreviation "Coke". Both mean the quality product of The Coca-Cola Company.

PLAY SAFE... Get a Safety Shelllubrication Today!

Shelllubrication is a scientific answer to the damaging effects of Wartime Stop-and-Go driving on your car. It's a system of inspection and maintenance developed by Shell Engineers—performed by Shell Dealers and Shell service stations.

In giving your car Shelllubrication service the operator inspects hidden danger spots—checks possible "break-up" points as he works! And he gives you a record of service performed, plus a report on the conditions he finds at various vital spots where continued neglect could create a dangerous and expensive Booby Trap.
