Beauty IS YOUR DUTY
By RITA WHISENANT
Licensed Cosmetologist

I've had so many inquiries about the DuBarry "Bare Necessities" treatment (to help make your arms and elbows smooth and lovely) that I think I'll tell it briefly here. The first step is to use DuBarry Special Preparation to get rid of horny epidermis on elbows and rough arm spots. Spread it on, allow to dry, and flake off with a dry washcloth.

FOR softening, you simply apply DuBarry Special Skin Cream to the elbows and arms, and leave it on for ten minutes. Before going out, rub DuBarry Foundation Lotion well into the skin. Then pat the surface with a towel. As a finishing touch, use DuBarry Powder Lotion or Beauty Cake for a lovely arm make-up. Be sure to use this in accordance with instructions—for then it won't come off on your escort's suit.

THEN there's an arm massage and an arm-beauty reducing exercise... but I think you'll have to come in and let me tell you about that personally.
