

CAFE OWNERS BOUND OVER TO GRAND JURY

Gino Carnini, Tik-Tok driver, Mary E. Wells, butalio lunch, and Little J. Pretari, Lucca cafe were bound over to the grand jury of Klamath county this morning by Justice J. A. Mahoney, charged with possession of a gambling device.

Each has been admitted to bail in the sum of \$100. Don R. Newbury of Medford represented the defendants yesterday afternoon in preliminary hearings held in justice court. J. H. Napier, deputy district attorney, acted for the state.

At the preliminary hearings yesterday afternoon in justice court, testimony was given by state police officers as to how they entered the three establishments and tagged, sealed and confiscated the eight machines.

It was revealed that the raids were directed by Sgt. Earl Tichenor of the state police with no previous direction from the district attorney's office here.

State police officers who testified included Tichenor, Lawrence G. Bergman, Thomas Martin and William Colbert.

The raids were made in the early evening of Monday, July 9, by state police. The machines are held for evidence at state police headquarters on Altamont drive.

Mere possession of slot machines is a crime if the owner has them available so they can be operated, Attorney-General George Neuner has ruled for District Attorney Stanley J. Mitchell of Clackamas county.

State police raided a restaurant there in which one machine was being operated, and they saw five other machines standing idle in an adjacent storage room. The owner was convicted for operating the one machine, and for possession of the other five.

Neuner ruled that possession of the other five was a crime, although it wouldn't have been if the five machines merely were being held for safe keeping.

Three Killed In Air Crash

COLUMBIA, S. C., July 13 (AP)—While the passengers prayed, the pilot of a crippled eastern airlines transport brought the ship to an emergency landing in a Carolina cornfield yesterday after it collided with an army plane 3000 feet up, killing two army pilots and a two-year-old boy.

The child was one of 20 passengers and three crewmen aboard the Boston-Miami airliner, which went down 80 miles east of here. Four others, including the boy's mother, Mrs. A. E. Williams of Miami, Fla., were reported seriously injured, and several were shaken up.

Sells Berries Above Ceiling, OPA Charges

PORTLAND, July 13 (AP)—Eli Drapela, Rt. 2, Lebanon, has been accused of selling strawberries above ceiling prices by the OPA, which seeks \$1498 in triple damages.

The OPA also has charged the General Ice Cream corporation, Portland, and Earl B. Strubel, agent, with paying too much for berries for processing. A permanent injunction is sought.

Needs No Notes

Rightly used automobiles are a source of great pleasure. In the hands of a careless driver they are a source of death and destruction. Likewise, one tree could make a million matches! One match could destroy millions of trees. Be careful of burning material. Protect the trees. Keep Oregon Green.

One of the most amazing minds revealed at the United Nations Conference in San Francisco was that of Lt. Andre Kaminker, of France. An interpreter, he sat through all English speeches and, without making a note, repeated them verbatim without a mistake. In upper photo he is shown concentrating; below, interpreting.

THE WAR TODAY

(Continued From Page One)

words," as they came to be described in the press, also caused some speculation in America and other countries. British Minister of Information Brendan Bracken then issued a statement that Churchill's remarks were no different than those that he made on September 8, 1940, a few months after he became prime minister. Bracken quoted Churchill thus: "There is no country in Europe that has more need of peace and food and opportunities of prosperous trade than Spain. Far be it from us to lap Spain and her own economic needs in the wide compass of our blockade. All we seek is that Spain shall not become a channel of supply to our mortal foes. Even less do we presume to interfere on the internal affairs of Spain."

"British interests and policies are based on the independence and unity of Spain and we look forward to seeing her take her rightful place both as a great Mediterranean power and as a leading and famous member of Europe and Christendom."

So far as one can see, there has been no alternation of that British policy. If there is any difference of view among the Big Three, it likely could be met by a popular change of the Spanish government.

KENNEY TO DIRECT AIR BLOWS ON NIPS

(Continued from Page One)

Australia and New Guinea, announced that the army 7th air force, veteran of the Central Pacific, had been transferred to Kenney's command. All army air operations from Okinawa now are under MacArthur's over-all command as chief of army forces in the Pacific.

Adm. Chester W. Nimitz disclosed two days ago that the 7th air force was reverting to army control.

MacArthur said this force was "in the process of deployment to forward bases to participate in the air saturation of Japan." This force includes Liberator heavy bombers and Mitchell mediums.

New Blaze In National Forest

PORTLAND, Ore., July 13 (AP)—Fires which blackened 4600 acres of Oregon and Washington land were being held in check today by crews of 800 men, but a new blaze was reported on the Wenatchee national forest.

The fire broke out on the Great Northern right of way west of Leavenworth, Wash., and spread up hill slopes away from the railroad, the U. S. forest service said. A 200-man crew, fighting the blaze on about 500 acres of grass, brush, and scattered timber, did not immediately report the acreage involved.

Pratt Named Medical Director By Navy

NEW YORK, July 13 (AP)—The naming of Capt. Lester L. Pratt, medical corps, USN, medical officer in command of the U. S. naval hospital at St. Albans, N. Y., as district medical officer of the 13th naval district with headquarters at Seattle, Wash., has been announced by hospital authorities.

Pratt, a native of Bellefontaine, Ohio, has been in command of the St. Albans hospital for two and one-half years.

HARRY KELLY

Veteran Army Newsman Reveals Goodwill Fines

FORT LEWIS, July 13 (AP)—American soldiers fined themselves a penny for every time they profaned, they built toll bridges over creeks and charged a double-penny to those crossing their money-making scheme, they made free-will offerings and promoted other commercial enterprises in the European theater of operations. And what they did with this emolument initiated by "Stars and Stripes," makes goodwill history. They created a war-orphan fund of 79,000 in English pounds to care for homeless waifs, and nearly every military unit had its own adopted child besides.

This is one of the tales related by Lt. Col. Ensey M. Llewellyn, Tacoma, here yesterday as he made his way through the separation center. The veteran who established "Stars and Stripes" in three different theaters of operations was being separated from active duty after fifty-four months of active duty, to return to his wife, Ruth E. Llewellyn, and sons, Robert, 12, and Paul, 9.

He was also organizer of the European and London edition of "Yank," the enlisted men's weekly. For six months he was officer in charge of this publication, and for three years he was circulation and business manager.

Recommended three times for the Legion of Merit, once for the Bronze Star, once for the Purple Heart, and commended more than a hundred times by general officers, the Tacoma said he plans to reestablish his advertising agency and publishing business, and to begin publication of the American continental edition of "Stars and Stripes."

Portland Pilot Lists Favorite PW Recipes

PORTLAND, July 13 (AP)—After the war, Lt. Charles R. Stafford can always don a white apron and chef's cap if he doesn't want to go back to the advertising field.

The Portland pilot learned how to sling a mean flapjack in a German prisoner of war camp, where meager rations took plenty of juggling. One of his favorite recipes is this K ration fruit cake:

"You grind up 12 boxes of biscuits—the K ration wafers of whole wheat, soy beans and vitamins—and add a pound of dissolved powdered milk," he began. "You stir this up into a thick paste. Then you add a pound and a half to two pounds of German beet sugar, three pounds of raisins, a pound of stewed prunes. Grind up a dozen bicarbonate of soda pills and dump them in. This raises the dough a little."

Stafford used melted chocolate bars from D ration packages for frosting. He warned not to eat "too much at one time" of the fruitcake, which measures 18 by 12 by 4 inches and weighs 25 pounds.

Sometimes the Yanks had to leave the cake with toothpaste made chiefly of soda and salt instead of with the bicarbonate of soda pills. To get the pills the GIs would complain of stomach ache, the pilot—now here on a 60-day leave—explained. But the nazis often caught on.

More Holds On Civilian Travel

WASHINGTON, July 13 (AP)—ODT Director J. Monroe Johnson says further civilian travel restrictions are forthcoming "in all categories, not aimed particularly at ports."

Johnson's comments to reporters followed the ban against shipping race horses or show animals by rail or other public carriers.

Hans Norland Auto Insurance, Phone 8090.

KLAMATH SCRAP DRIVE SLATED FOR JULY 21-29

Paul A. Lee, chairman of Klamath county salvage committee, announced that proceeds from the salvage drive July 21 to 29 inclusive, will go to the Shrine hospital for crippled children.

Lee urged everyone to contribute waste paper and tin cans to the drive to help this cause. Both materials are still essential in the war effort, he reminded, and every small contribution helps.

Klamath has fallen from its place among the top 10 in tin salvage, with only a fraction over one pound per capita.

"Two tin cans per capita per month would bring us up where we belong in the per capita basis, and we can do much better than that," Lee stated.

Representatives have been contacted to handle collections in Bly, Chiloquio, Merrill and Malin.

Wait Wiesendanger has been appointed to represent Mayor Ed Ostendorf, who is ill, for the city and the Shrine.

Other members of the executive committee for Klamath county are: Marvin Hixon, city salvage chairman; Judge U. E. Reeder, Charles Stark, civilian defense council co-ordinator; Bill Kunz, junior chamber of commerce chairman for salvage; Frank Jenkins, member of the state executive committee; Mrs. Winnifred K. Gillen, county salvage chairman, and Shrine club and salvage committee members.

Paper and cans may be taken to the salvage depot, 602 Market. On Sunday, July 29, the last day of the drive, a city-wide and suburban area pickup will be conducted by the committee.

VAN ORDEN PAYS TRIBUTE TO CITY

(Continued From Page One)

showed the remarkable accomplishment of the local installation in returning men to full duty status after they came here with malaria or filariasis or both. Out of 4871 men, 3750 have returned to full duty, 290 are standing by for transfer, and 300 will go on tolerance test in a few days.

The colonel said he is happy over the recent developments that assume a large influx of men to the installation, and indicated the probability that it will later return more definitely to the status as a recovery and training center for tropical disease cases.

He outlined the training program which has offered vocational and academic subjects to thousands of marines who otherwise would not have these opportunities.

Keith Ambrose introduced the colonel.

"Saves vehicles—they used to be a vaudeville tumbling act!"

39 Army Remounts Granted Marine Barracks Stables

Thirty-nine saddle horses arrived at the Marine Barracks stables early this week from Fort Robinson, Neb., with army PFC Herman H. Clausen of the veterinary detachment of that post in charge.

The new consignment of army remounts obtained by the marine quartermaster increased the number of saddle horses at the barracks to 60. They are mostly dark-brown or bay color, are all cavalry-trained and adaptable for formal equestrian instruction, a part of the marines' regular training program.

Effectiveness of this instruction for marines was seen here during the recent rodeo and July 4 parade, in which a mounted leatherneck drill team took part.

The newly acquired mounts, to be used for training purposes and recreational riding were brought from Fort Robinson to Klamath Falls in seven days, traveling for a maximum of 28 hours, and then unloading to feed.

C of C OFFICIALS TO BE AT MEETING

Ben E. Lawshe, manager of the commercial organization department, and Paul H. Good, secretary of the committee on education, of the U. S. chamber of commerce will speak at a special luncheon meeting and roundtable at the Willard hotel Saturday noon, July 14.

These men, who are here through arrangements made by Earl C. Reynolds, assistant manager of the western division of the U. S. chamber of commerce, will speak on chamber operations.

Japanese Resort To Mass Suicide

HEADQUARTERS, ARMY FORCES IN PACIFIC, P. I., July 13 (AP)—Helpless, terror-stricken and virtually deserted by their own army, Japanese civilians in interior Mindanao island are resorting to mass suicide to avoid capture, reports here disclose.

An estimated 13,000 of the hapless civilians are living on the slopes of Mt. Apo, commanding Davao gulf on southern Mindanao. Reports to officers of the 24th division have renewed the belief thousands of them, all evacuated from their Davao city homes when the Japanese army fled before the Americans, may resort to a mass suicide and murder program.

New Pine Creek

The grange-sponsored Fourth of July picnic was another big success this year with approximately 175 persons in attendance. Many grangers from other granges were present, as well as non-grange members who were invited.

After the picnic lunch, races were staged for the children and adults. About \$15 in war savings stamps were awarded as prizes.

Raymond Fisher, grange master, was also master of ceremonies. Jesse Keller was in charge of the picnic grounds decorations, assisted by the Girl Scouts.

The sultry weather of the Fourth drove a large number of persons to Lily and Cave lakes where they relaxed in the cool mountain air. Several boats waded on the lakes, cavorting hither and yon, but the boat that gave the passengers the biggest thrill was the one owned by "Red" Ellis of Klamath Falls who was over visiting with his father, Chet Ellis of Willow Ranch and two brothers employed there in the box factory.

His boat was powered by a Ford V-8 motor and could not be driven at more than half-throttle because of the smallness of the lakes. He, his brothers and his father were very generous and took turns giving the picnickers thrilling rides.

Mr. and Mrs. Otis Vincent and daughters, Rose and Alice, accompanied by Mrs. Laura Hadley, visited last weekend with Mr. and Mrs. Charles Vincent and family. They were also visitors with the Vincents July 4, having spent the interim visiting with Mr. and Mrs. Guy McKune of Paisley. They left for their home in Loftus, Calif., last Sunday afternoon.

Mr. and Mrs. Raymond Reese went to Redding a week ago last Sunday and returned on Tuesday of the same week, accompanied by their daughter, Mrs. Dollie Freeman, her young son and a friend, Mary Hamlin.

Mrs. Nellie Ferguson of Santa Rose, and daughter, Mrs. Viola Del Maestro and son, Don Ferguson, and son Don Jr., of Vallejo, are visiting here with relatives, arriving on the morning of July 4.

First biography to be printed in English was that of Sir Thomas Moore, executed in the reign of Henry VIII.
