New Pine Creek

Having locally is getting off at a slow stride because of lack of help. Women and children are playing an important part in a desperate attempt to get the hay into stacks before it gets over-ripe. Charlie Cook was gathered due to the fact that his son, Raymond, happened to be home on his furrough just when he was needed to assist his father in the harvest. Raymond reported back to the armed forces last week.

Mr. and Mrs. Everett Reid and daughter, Dorothy, returned the latter part of last week from Portland where Evert has been taking treatments for arthritis. He had several teeth pulled as a last resort to clear up his malady. He is feeling some better but is still quite weak. Some of the pain has gone from his joints but he has difficulty moving about.

The local Pinecreek club met last Wednesday week with Mrs. Carmen Fleming, Mrs. Dorothy Blunt won high prize and Mrs. Fleming low. Butterscotch pie and punch was served for refreshments.

Mrs. Baker of Fort Klamath was a recent visitor to New Pine Creek. Although she is not very well acquainted here she says she always enjoys reading the local items about the people and things that happen.

Alvin Butler was recently appointed by the forest service as a local fire agent. In case of a grass fire one should get in touch with him and he can get the fire truck from Buck creek. The Modoc forest service offered to send the truck even a mile or so into Oregon territory in an effort to co-operate fully against the fire hazard.

Mr. and Mrs. Garold Madison and son, Stephen, spent the weekend with relatives at Roseburg, Ore. They were accompanied home by two sons, Milton and Roger, who have spent the past month at Roseburg with relatives.

Mrs. Max Cline and Willard returned home last week. They spent 10 days visiting relatives at Mt. Vernon, Wash.

Sailors Arraigned On Larceny Charge

Six sailors, who were reportedly drafted for the USS Bunker Hill, and who jumped a northbound train near Dorris, Calif., were arraigned in Justice court yesterday afternoon on a charge of grand larceny.

They took time to plea and bail was set at \$500 each. They were committed to the county jail in lieu of bail.

The six sailors allegedly stole a car belonging to James Guerin of Klamath Falls and were later apprehended by state police.

It is not yet known whether they will be turned over to navy authorities or held to face the grand larceny charge here.

Oregon is noted throughout the United States for its scenic beauty. Fire destroys or damages irreparably these scenic beauties. Protect the forests of Oregon from fire. Keep Oregon Green.

A big job for those at home is the preservation of what our boys are fighting for—the nation's resources. Here in Oregon forests are the resource. Help protect them by Keeping Oregon Green.

Runaway Truck Mows Down Trees In Accident

A Klamath Heating company truck driven by Oliver Lesh dug a foxhole all its own yesterday morning when it slipped out of gear and ran wild. The wildly careening automobile mowed down three trees, brought down some power lines, and severely damaged the lawn of Mrs. P. G. Smith, 560 Conger, where it finally stopped. The truck is shown above before being taken from the scene of the accident by wreckers. The truck was carrying sawdust and a large pile of sawdust is evident directly in front of the smashed car.

Rich Basin Soil Sells To Fanciers For Flower Pots

TULELAKE—Orders for the rich black loam of the Tulelake basin are being received from many parts of the United States by Bernard C. Schultz, local member of the firm of the Ebon Earth company. This company was organized several months ago for the purpose of selling soil from this area for flower pots and hotbeds. Other mem-

bers of the company are N. S. Gustin and Thomas Hamilton, Los Angeles.

Schultz has announced also the arrival of 15,000 paper cartons which will hold approximately five pounds of soil, and actual distribution will get underway with the arrival of wax liners for the containers. Deliveries will begin the latter part of this month or the first of August, he expects. No advertising programs, except comments made in various publications by garden lore writers, has been undertaken but the novel idea has spread from coast to coast, many of the orders coming from residents of the far east.

Soil immediately adjacent to the lake is largely peat, and dirt of this type is found only here and in the Nile river basin in Egypt. Growing propensities of this soil is well-known locally, and home owners of the basin in large numbers have moved soil from here to residence property to start lawns and shrubs. Packaging of the commodity will be handled at the headquarters of the Tulelake Boat company.

SOONG SEES EARLY END TO JAP WAR

CHUNGKING, July 20 (AP)—Premier T. V. Soong, who returned to Chungking recently from a visit to Moscow, declared today that the war with Japan would end this year or early in 1945.

Soong, addressing the people's political council, also declared that the Chinese government would be reorganized immediately with a view to creating the strongest possible machinery for post-war reconstruction.

He said that while in the United States—where he attended the San Francisco conference before going to Moscow—he had concluded arrangements for building up China's industry and

fostering the country's economic development.

Soong said nothing positive had been decided by his visit to Moscow, during which he had several meetings with Premier Stalin. He indicated, however, that negotiations initiated there were continuing.

The people's political council recommended today that the government decide whether to call a national assembly on November 12, as scheduled, to introduce constitutional government in China.

The council yesterday recommended a settlement with the Chinese communists for the sake of national unity and requested the immediate granting of civil liberties to the people.

From Portland—Oscar S. Nissen has returned from Portland and his office is now open again.
