Today's Roundup

By MALCOLM EPLEY

ONE of the fine things we have in this big area of ours is the friendship that exists among our many communities.

That thought comes up in connection with the quick approval given by the Modoc county defense council to a resolution favoring establishment of through airline service to Klamath Falls.

While such service would be highly valuable to Modoc people, and they know it, we nevertheless have seen similar circumstances elsewhere in which smaller communities would refrain from giving such support to a larger town through prejudice.

There is nothing of that kind in the family of communities of this fine section of northern California and southern Oregon, and it is a condition which will benefit all of us as time goes on.

Examiner's Letter

INCIDENTALLY, we have a letter from Francis W. Brown, chief examiner of the civil aeronautics board, which is of great interest.

Referring to the report of the examiner who recommended Klamath be omitted from through airline service, he said:

"It should be pointed out that this report constitutes the recommendations by the examiner based upon his consideration of the evidence introduced during the course of public hearing and does not necessarily represent the views of the board. Under the board's procedure, the various parties to the proceeding will be afforded opportunity to file exceptions, briefs in support thereof, and to present oral argument before the board. . . . Please be assured that in reaching its decision the board gave careful consideration to the needs of Klamath Falls for a fully adequate air transportation system."

That's not news, but it emphasizes what we have been saying—that Klamath has a chance to get the service it needs and deserves in this case if it presents the information properly and the board gives it real consideration.

The War Today

By DEWITT MACKENZIE

ASSOCIATED PRESS Foreign Affairs Analyst
LABOR's victory over Winston Churchill's conservative party in the English elections means a strong swing to the left, but we shouldn't mistake it as representing the long-haired brand of intellectual socialism.

It isn't a revolutionary upheaval but an evolutionary change arising from the desire of labor for a bigger place in the sun—for a new way of life. We may expect a big change in England's social politics under the new government. There will be considerable nationalization of industry. There will be an even greater redistribution of incomes—a leveling off. The big estates of the landed aristocracy will continue to disappear with increasing rapidity.

However, this change relates to domestic

EPLEY

DeWitt Mackenzie

conditions, and there is no reason to anticipate any major alteration in foreign policy, especially since British labor is internationalist. John Bull works on a long-term foreign policy and therefore we may expect him to carry on along his old lines in the war against Japan and in the rehabilitation of the world.

Tokyo Forecasts

FOR some three weeks Tokyo has been nervously forecasting a British attack on the mammoth naval base of Singapore which for nearly three and a half years has been one of Japan's key positions for offense and defense.

Frequently when the mikado's spokesmen broadcast prophecies like that they are fishing for information from the allies—hoping that we shall be foolish enough to make a retort that will divulge our plans. In this case, however, the Japs undoubtedly are sincere. As witness that they have been evacuating civilians from the island to the Malayan mainland and are preparing for attack.

Well, they may be right. My information from good sources is that Admiral Lord Louis Mountbatten, commander-in-chief in the southeast Pacific, has been getting a lot of ships and materiel from Europe and is fairly well set for major action. It's worth noting too, that Mountbatten attended the Big Three conference at Potsdam yesterday. Certainly it's a position for us to watch.

IT is true that the monsoon season, with its fierce winds and rains, is now in full blast over the Indian ocean. But this wouldn't necessarily prevent an operation against Singapore, since the lower Malay peninsula is outside the monsoon belt. As I see it, the British could make an amphibious invasion of the narrow part of the peninsula, establish a base through which to funnel reinforcements and supplies, and then fight their way down to Singapore, which lies just off the tip.

Recapture of Singapore would be one of the big victories of the war, for it would permit the allies to reopen the narrow Strait of Malacca between the Malay peninsula and Sumatra. Through this strait, which is a shortcut between the Indian ocean and the South China sea, the British East India fleet could pour for operations against the China coast and Japan proper.

Revenge

IT will be a great moment for John Bull when he starts his assault to avenge the disaster which the Japs inflicted on him at the beginning of '42. "Invincible" Singapore fell on February 15 at one of the bleakest periods of the World War for the allies. The mikado's forces had assaulted Pearl Harbor on December 7, Wake Island fell on December 23, Hongkong followed on Christmas Day and the enemy had occupied Manila on January 2. Hitler already was counting his chickens—and why not!

Singapore was the most powerful naval base in all that part of the globe. It had taken 15 years to build it, at a cost of \$80,000,000, and it was one of the wonders of the world.

Its 22 square miles of deep sea anchorage could accommodate the entire British fleet. It had a floating dock capable of handling a 45,000-ton battleship, a graving dock able to take care of the vast liner Queen Mary, and great underground depots. It was guarded by huge coastal guns.

Good Guess?

NOBODY—barring the Japanese—had dreamed that this Gibraltar of the Orient could be captured or even harmed. Thus it was one of the greatest shocks of the whole war when the Nipponese fought their way down through the steaming jungle of the Malay peninsula and swarmed over onto this 217 square miles with its population of some 600,000.

Tokyo believes that a preliminary to the assault against Malaya will be British occupation of the Nicobar islands, off the northwest tip of Sumatra. That seems like another good guess on their part. Keep an eye on it!

Telling The Editor

Letters printed here must not be more than 300 words in length, must be written legibly on ONE SIDE of the paper and must be signed. Contributions following these rules, are warmly welcomed.

ABOUT THOSE COMPLAINTS

KLAMATH FALLS, Ore., (U) the editor—In Tuesday's paper I read a complaint about our navy planes doing night flying. I'd like to answer that.

You people who complained of our planes making too much noise and awakening you. Yes, they woke me up too and I live near the base where it sounds much louder than some places. But do you know what I think of when they wake me up? I say, thank God our boys are up there training to keep our sky and land safe from those sneaky Japs. Do you ever stop to think that all the enemies raids are really made at night?

Oh, yes, we just go to bed to sleep and never stop to think of the hell our allies had while they tried to sleep, the bombs bursting all around them and of our boys going over on ships and trying to get a little shut-eye and hear the sound of the sneaky Jap planes overhead and then seeing our boys' bodies flying through the air.

May you folks who complain realize our servicemen are keeping us from knowing there is a war on. The next time our boys wake you, take time to sit up and pray and say, "Thank God for our boys, stay up there and keep up the good work. And may God bless all the servicemen. Then lay down and see if you don't get the sleep of justice. Amen."

MRS. OLGA RILEY.

Hart Arrested Twice Yesterday

Merle Hart of Chemult was arrested twice by city police yesterday and is now in the city jail in lieu of fine for failure to stop at the scene of an accident.

Hart was driving a truck which side-swiped a parked car owned by L. C. Shook, 3040 Cress, on 12th yesterday afternoon. He failed to stop and was arrested on a warrant by city police. He had been apprehended earlier in the day for violation of the basic rule and had posted \$20 bail.

He was fined \$20 or 10 days for violation of the basic rule and fined \$25 or 12½ days for failure to stop at the scene of an accident. His driver's license was also suspended for a period of six months by Police Judge Harold Franey.

Warrants will be served on all persons who fail to pay their parking tickets. Acting Police Chief Orville Hamilton said this morning. Bail on these warrants will be \$5. Hamilton said, "Ten more parking tickets were paid yesterday for overtime parking in the business district."

Two drunks and one vag appeared in police court this morning and one drunk and disorderly case, two drunks, and two vags bailed out.

Mobile Unit Begins County Tour At Bly

The mobile chest X-ray unit sponsored by the Klamath county department of public health will begin its tour of the county Friday, July 27, when it stops at the Crane Mills in Bly, Friday afternoon and evening.

Mrs. C. A. Smith of Bly, is chairman of the committee for arrangements.

The unit, which offers free chest X-rays to interested people, is financed by the Oregon Tuberculosis association and was bought with money from the annual Tuberculosis Christmas seal sales. It will be in Klamath county until about August 13 and a schedule of stops will be announced later.

The unit will move from Bly to Sprague River for Saturday, July 28.

ARMY SEIZES PLANT; WORKERS TO RETURN

SPRINGFIELD, Ore., July 26 (AP)—Employees of the Springfield Plywood corporation were ordered back on their regular shifts today by the army which seized the plant late yesterday under orders from President Truman.

Conferees with union officials started this morning, said the commandant, Lt. Col. Leroy Burns.

Officials of both AFL and CIO unions pledged their cooperation with the army's back-to-work program. Eldon Kraal, representative of the AFL Wilamette Valley council, Lumber and Sawmill Workers, asked AFL men to report to work at

8 a. m. Henry Peck, business agent for the CIO plywood workers local, requested his men to return, saying: "We feel the government has done the proper thing in taking over this plant, due to the need for plywood in the war area."

Workers had been out since July 19 at the mill, which employs 300 men on a two-shift day and has more than 9,000,000 board feet of war orders waiting. The dispute flared when the NLRB refused a bargaining election despite AFL claims of a majority at the plant. The AFL local was adjudged an improper bargaining group because the firm has an industry-wide CIO contract.

HOME STRETCH

SPOKANE, Wash., July 26 (AP) Rejected a month ago by the marine corps because he was an inch too short, Donald A. Dunn, 17, swung from a horizontal bar 15 minutes each day.

Yesterday he took another examination. He measured 5-feet-5 and was accepted with an inch to spare. "Hope I don't shrink," said Dunn happily.

Emil's

Klamath's Yesterdays

From the files—40 years ago and 10 years ago.

From the Klamath Republican July 27, 1905

A huge pile of cordwood at Teters' landing, belonging to J. F. Adams and Capt. Woodbury, is on fire.

Spring creek near Chiloquin is each year attracting more and more visitors. Many Californians are enjoying the fishing there.

From the Evening Herald July 28, 1935

The state highway commission has appropriated \$100,000 for the Klamath river bridge on the Weed highway.

A headquarters for the WPA will be established in Klamath Falls.

C. W. Woodcock will start a new mill at Bly.

INDEPENDENCE, Mo., July 26 (AP)—It was unfair to ask a picket to carry an "unfair to union labor" sign in brooding mid-summer heat, Raymond Proctor decided.

He was picketing the city waterworks for using municipal employees to lay pipe outside the town limits. Proctor said, but after a few hours he mopped his brow, folded an umbrella which displayed his sign and told a bystander:

"To— with it; I'm going home!"

A GEM of THOUGHT

A very excited Father named Ben, Called the Doc when his son swallowed his pen. The doctor said, What are you doing now? Well, I'm in a quandary, I vow, But I'll use a Pencil till you recover my Pen.

SEWER LINES LAID TO BASIN CAMP

MALIN—Sewer lines are being laid this week to the Klamath basin's only permanent, farmer-owned, and operated labor camp adjacent to Malin, on land purchased from Mrs. Katie Spolek. The big camp, located here by mutual agreement of farmers of the Merrill, Malin, Klamath Falls and Prezanza communities will be ready for occupancy in time for this fall's harvest dates, probably August 20, it was announced today by Louis Lyon, president of the chamber of commerce and member of the Calore Packing company.

All camp installations in addition to the land are the responsibility of the growers. The 125 tents and some equipment owned by the government will be used. The government also contributes \$4000 toward the project and, in addition, the growers, by assessment against all irrigated land in the Malin district, will add between \$7500 and \$8000 to complete the camp. Assessment rates are 75 cents per acre.

Tents will be rented at \$5 per week. Cost of electricity, fuel, camp management, salary of a nurse and other expenses will be paid by the rental fees and accumulated fund. Water will be furnished free by the city of Malin.

Growers of Malin, following a suggestion by the Malin chamber of commerce met some months ago with growers of other districts in the basin and

proposed the camp, one of three in the state, assuring responsibility for construction and maintenance. No camp for Mexican nationals will be located here this year. These if they are available, will be housed as before at the old CCC camp north of Merrill.

There is no guarantee that Mexicans will be available this season for the potato harvest, Lyon stated, and it is his belief that the labor situation in the Klamath basin is the most critical since the beginning of the war.

A. E. Street, principal of the high school here, is directing preliminary work on the camp which will accommodate 500 people.

The American flag is the third oldest of all national standards.

After the fire is a poor time to insure. BEFORE is so much more satisfactory. Hank Norland, 118 North 7th street.

KIDNEYS MUST REMOVE EXCESS ACIDS

Help 15 Miles of Kidney Tubes Flush Out Poisonous Waste

If you have excess acids in your blood, your 15 miles of kidney tubes may be overworked. These tiny filters and tubes are working day and night to help Nature rid your system of excess acids and poisonous waste. When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatism, leg pain, loss of sleep and energy, getting up, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder. Kidneys may need help the same as bowels, so ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 45 years. Doan's give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Men, Women! Old at 40, 50, 60! Want Pep? Want to Feel Years Younger?

Do you blame exhausted, worn-out feeling on age? Thousands wonder at what a little sleeping pill has done. Contains tonic many need at 40, 50, 60. Buy it because how to find: also supplies vitamins B1, calcium, phosphorus. Top introductory size now only 2¢! Try OTC's Tonic 24 hours for new pep, fresher feeling, this very day. At drug stores everywhere—in Klamath Falls, at Whitman Drug and Walgreen's.
