

LAKE O' WOODS 4-H CAMP TO OPEN SUNDAY

Plans are practically completed for the 4-H summer camp to be held at Lake o' Woods from Sunday, July 29, to Saturday, August 11, inclusive. The girls, numbering 85, will have the first week starting July 29 and ending Saturday, August 4. The boys will start Sunday, August 5, and return Saturday, August 11. On the Sunday of departure those going will meet at the County Health Unit, 1949 Main street, at 10:30 a. m., for their health examination, which will be completed at about 11:30. County school buses will leave the Health Unit at that time for the Lake o' Woods camp. The camp will be at the old CCC camp that has been used for the past two years.

Close Supervision
Both groups will be under close supervision throughout the week, and will be given instruction in swimming, marksmanship, leather-craft, and on plants and trees. A full schedule has been prepared, with ample supervisors and instructors. Those doing this work are: Mrs. Winnifred Gillen, home demonstration agent, in charge, assisted by Mrs. Beulah Holland, acting 4-H club agent, and Mrs. Jack Eichendorf, Vern McDaniels, state forester, will be at the camp during the two weeks' period to discuss forestry and other related subjects with both groups.

Instructors
Miss Maryolive Snarr, from the State 4-H office, Oregon State college, will be present at the entire camp to help in instruction and supervisory work. Lloyd Seely, county sanitary officer, will attend both sections, as will William Peery of Oregon State college. Cpl. Robert Henderson has been assigned to the camp by the Marine Barracks as lifeguard and marksmanship instructor. He is certified by the Marine Barracks swimming coach as a lifeguard and has had considerable experience in this near his home near Lake Oswego, out of Portland.

Prospects Good
Camp equipment and food supplies will be sent to the camp Saturday, July 21, and the boys' camp on July 28. 85 can be accommodated each week. Prospects are excellent for a fine camp, with plenty of exercise, food, and a fine set of instructors.

ANDERSON TELLS OF LAMB INCREASE PLAN

WASHINGTON, July 27 (AP)—Secretary of Agriculture Anderson announced today a subsidy program designed to encourage sheep raisers and lamb feeders to increase the production of their meat animals.

Subsidy rates will range from \$1.50 to \$3.15 per hundred pounds on lamb and a flat \$1 for sheep.

The subsidy program is intended to increase producers' returns on lambs and sheep without raising consumer prices of lamb and mutton meats. Producers have complained that present prices are insufficient to cover their costs.

The subsidy payments will be made by the department's commodity credit corporation on sheep and lambs marketed to authorized slaughterers on and after August 5 and through June 30, 1946. The program was authorized recently by congress.

The rates range from \$1.50 to \$2.50 per hundred weight for lambs weighing 65 to 90 pounds; from \$2.15 to \$3.15 for lambs weighing over 90 pounds, and \$1 for all other sheep and lambs.

Flashes of Life

GOODNESS!

PUEBLO, Colo., July 27 (AP)—The Pueblo City Park Golf club has a membership committee that is rated plenty good.

The co-chairmen are Carl Good and Justin Two-Good.

FISH SHORTENER

TULSA, Okla., July 27 (AP)—City commissioners propose a customer for their new lie detector.

If it works like they think it will, Mayor Olney F. Flynn's face will be red.

His honor, the mayor, on vacation, has been sending back letters describing the big ones he caught.

The Doubting Thomas commissioners expect the fishes to shrink considerably if their colleague submits to the city's new truth-testing gadget.

WEAKER SEX?

SAN FRANCISCO, July 27 (AP)—Women street-sweepers are the latest by-product of the manpower shortage in San Francisco.

Eight of the gentler sex yesterday started pushing seven and one-half pound brooms on the city's thoroughfares.

But they don't do it for free, as they sometimes do at home. Their pay is 95 cents an hour.

SPARE THAT SQUIRREL!

NORMAN, Ill., July 27 (AP)—Stuart Wyatt is trimming a tree when a mother squirrel, irate because he moved her baby, attacked him.

Wyatt escaped unhurt. Then he made a basket and placed it in the tree for the baby squirrel.

CLUB FINDS CALVES IN GOOD CONDITION

Committee members of Rotary club visited 26 4-H club members owning 40 head of steers and other livestock to be shown at the junior livestock show September 16-17.

Calves were found to be in excellent condition, considerably better than average, indicating a very fine show and excellent animals for sale. Inspections Wednesday were made in Henley, Merrill and Malin by L. A. West, A. A. Henderson, Mitchell Tillotson, Henry Semon and Lee McMullen.

Further inspections of livestock were continued Thursday in Poe valley, Bonanza and Langell valley, by Mrs. Beulah Holland, acting 4-H club agent, L. A. West, E. H. Thompson, A. H. Bussman and T. B. Watters.

Most of the calves in this district were found to be in good shape, some weighing 1000 pounds and more.

Rex High, club leader for the Poe valley district, made the inspection tour with the visitors, and Cecil Haley, leader for Bonanza and Langell valley, accompanied them on the trip through this district.

Dairy calves, hogs and sheep to be shown were also inspected.

PORTLAND FATALITIES

PORTLAND, July 27 (AP)—This city's traffic fatality record stood at 41 today after death of Christopher Henry Gross, 72, from injuries when a car backed into him June 27.

TRAVEL INTO CRATER PARK SHOWS GAINS

Traffic to Crater lake and through to Diamond lake in the past two weeks has been heavy, considering wartime restrictions on travel, with many out-of-state licenses noted.

Camp grounds near the rim village were filled, and picnickers lined the crater's rim.

Sunday was particularly favorable for visitors, with the lake putting on its bluest face, reflecting the brilliant color of the Oregon skies overhead.

Visitors reported seeing bears with their cubs, closeups of other woodland creatures, as well as the friendly and acquisitive Clark crows, peculiar to the area. Wildflowers, including bleeding-hearts, paint-brush, wild phlox and mountain lilies coloring the slopes, drew exclamations of delight.

Thomas C. Parker, assistant park superintendent, again regrets visitors that no lodging or eating accommodations are available within the park.

Release Of More Oregon Lamb Refused

PORTLAND, July 27 (AP)—District OPA Director McDannell Brown has declined to recommend to national headquarters any release of additional grades of Oregon soft lamb for point-free purchase.

Brown said he has advised Senators Cordon and Morse they are being misinformed by Oregon interests and that OPA surveys reveal lamb moving to market in satisfactory quantities.

He has yet to receive a "single complaint" from a lamb producer in answer to the senators' charges that the OPA order was a "mere gesture" and has proved confusing, he declared.

Packing House Plans New Meat Distribution Method

Johnson's Packing company, Summers lane, the oldest plant of its kind in Klamath county, is undergoing new, important improvements, keeping one step ahead of the times.

The fabrication department, now under construction, for preparing meat "fresh from packing house to consumer," is an entirely new idea for this area. Convenient cuts of meat for retail consumption will be packaged here in cellophane wrappers with weight, price, points, and type of cut printed on each tag.

The meat packages will be distributed to the smaller suburban stores where they will be placed in containers such as frozen vegetables are found in today, ready for the consumer to take home.

This new way of distributing fresh meat will keep prices down, save shoppers' time, save smaller stores the expense of hiring butchers, and provide meat in convenient quantities and cuts for individual stores.

The entire new fireproof wing under construction now at the Johnson packing house will include, in addition to the fabrication department, a modern sausage unit, quick freezing apparatus, and automatic air-conditioned smoke houses.

There will be no cold storage lockers at the plant for individual use, but food will be frozen

Probe Slaying Of Cove Area Farmer

LA GRANDE, July 27 (AP)—District Attorney C. R. Eberhard said today he will question C. N. Ogelyvie, Cove area farmer jailed here yesterday, about the shotgun slaying of Jack Starvo, 55, while Starvo worked in a hay field.

Eberhard said Starvo was shot twice in the back. The two ranchers had been arguing over a lane on Ogelyvie's ranch to

which Starvo was granted legal access, Eberhard reported.

PICKERS NEEDED

McMINNVILLE, July 27 (AP)—Seven Yamhill county bean yards today sent out a call for pickers to report in a week or 10 days. The farm labor office urged farmers to get extra farm work done now, while the bean crew is adequate and some Mexican farmhands are temporarily idle.

Before the war, when truck tires were freely available, when truck owners still could choose the brand they wanted, 1 of every 4 of the biggest operators were big users of Riversides! Remember, these big "feet" operators keep a mileage record on every tire. They know from their records that Riversides give more miles-per-dollar. So they buy Riversides! And more Riversides! Take a tip from these operators who know which tires stand-up best. Put Riversides on your car. You, too, will get more miles-per-dollar, more protection against blow-outs, and more miles-of-safety!

Today, Riversides are actually stronger than Wards pre-war tires! Each individual tire-cord is stronger to begin with than chemically strengthened to stay strong, next liquid-dipped to "weld" the cords together, then cushioned in rubber! In the final operation, the plies are cemented together before vulcanizing to provide greater protection against blow-outs!
