

FLAMES SWEEP 4 JAP CITIES IN ALLIED BLOW

(Continued From Page One)

were carried out by 778 B-29s. The remaining 42 Superforts mined Shimoneki strait south of Honshu and waters north of Korea.

Tokyo reported 60 Mustang fighters from Iwo Jima struck Honshu again today, raiding the Osaka-Kobe area for two hours while Okinawa-based planes struck other points.

Airdromes and rail transportation in the Nagoya-Kobe area were rocketed and strafed yesterday by 37 Iwo Mustangs and Thunderbolts boring through rain clouds. Four were lost.

Factories Hit
Bombers and fighters from Okinawa raking Kyushu, southern island of Japan, blew up factories and fuel depots, knocked out ten locomotives and seven ships, including two destroyer escorts.

"Bombings of transportation links in the Kyushu region are being carried out in a systematic and thorough manner," conceded Naoto Kohiyama, Japanese transportation minister, after a tour of the island during which American machinegun bullets splattered around him.

Seventh fleet patrol bombers sweeping down the China coast destroyed 28 enemy coastal craft around the ports of Hong Kong and Swatow.

Closest to home of all fleet actions was the Japanese-reported bombardment of O island. Tokyo said carrier planes supported the bombing force, which consisted of one cruiser and three destroyers. The island is in the Sagami sea, 70 miles south of Tokyo.

About 500 miles north of Tokyo, the Japanese said three submarines shelled Erimo cape on Hokkaido island, often reported a submarine target in recent weeks.

Admiral Nimitz admitted some American ships were slightly damaged by shore batteries in the bombardment of Wake, 1985 miles southeast of Tokyo. Carrier planes attacked the island while a battleship shelled it. The bombardment force probably was expending its spare ammunition on the way back to Pearl Harbor.

Nearly 1000 miles to the south LCLS (landing craft, infantry) took 283 natives off a jaulit reef despite Japanese attempt to break up the attempt. Previously 1500 natives and 318 Japanese prisoners were taken off by-passed Marshall islands. General Chennault said Japan itself soon will be isolated as the Marshalls, unable to move either troops or supplies between the mainlands and Japan. He thought chances were "very good" of opening a China port before the end of the year to land supplies for Generalissimo Chiang Kai-Shek's forces.

NEWSMAN KILLED
OKINAWA, Aug. 2 (AP)—John Cashman, 28, war correspondent for International News Service, and all nine members of the crew of a Liberator reconnaissance plane were killed Monday night when it crashed on a ridge two miles from the airport here in a rainstorm.

FORMER CHIEF ENTERS PLEA OF INNOCENCE

(Continued from Page One)

ment in that case had already been returned. It was brought out Rozendal had testified concerning drugs, but that Rozendal understood that his investigation had to do with the Heuvel cases.

After Rozendal left the stand, Judge Combs denied Welch permission to place members of the grand jury to show whether Rozendal had appeared in the Heuvel cases. Then Welch filed four demurrers to the indictments, all were over-ruled, and he dictated exceptions to the court reporter.

Ex-Chief Held
Former Chief Heuvel went back to the county jail, where he has been held in lieu of \$21,000 cash bail. Judge Combs refused yesterday to reduce the bail to \$8000, which Welch said could be raised.

Three young girls are complaining witnesses against Heuvel.

COLONEL SCHNEIDER ADDRESSES KIWANIS

(Continued from Page One)

action in Guam, the Marshalls, and just returned to the states in June from the bloody Okinawa campaign.

Col. Schneider told of the natives in many of the islands on which the marines were landed or stationed. An interesting sidelight was the first question asked by the natives in the Marshall group, "Will we be allowed to worship as we wish?"

These natives were in bad physical condition and will have a hard time regaining their health, according to the colonel. A naval medical unit and a civil affairs unit went in to atolls and islands with the marines and gave physical examinations and food and clothing.

During the three years which Col. Schneider spent overseas, he was on 12 different transports covering 30,000 miles of Pacific and he flew 7000 more miles. He also voiced an appeal for as much blood plasma as possible because of the tremendous need for it in the fighting areas in order to save lives.

Visiting Kiwanians were John Pasek, A. W. Herman, Victor Milnes, and James Mack. Rev.

POTSDAM MEET SETS UP BIG FIVE COUNCIL

(Continued From Page One)

don will be the permanent headquarters of the council. These five are the permanent members of the council of the proposed United Nations organizations—11-member body designed to keep the peace.

First Task
"As its immediate important task," the communique said, "the council shall be authorized to draw up, with a view of their submission to the United Nations, treaties of peace with Italy, Romania, Bulgaria, Hungary and Finland, and the proposed settlement of territorial questions outstanding on the termination of the war in Europe."

"The council shall be utilized for the preparation of a peace settlement for Germany to be accepted by a government of Germany when a government adequate for the purpose is established."

WINDS FAN COAST BLAZE TO DRY TIMBER

(Continued From Page One)

into southern Clatsop county, on the northern front, where the timber is burning heavily.

No sector is under control. About 3000 fighters are at work. Although an accurate estimate of the extent of the conflagration is impossible, fighters held to earlier statements that as many as 150,000 acres have been blackened. The entire area, covered by large and small spot fires, covers approximately 220,000 acres. It is possible that the entire area will be blackened except for small islands.

THREE LOCAL MEN PASS FLIGHT TESTS

Three Klamath Falls men passed flight tests for private pilots' licenses in Fallon, Nev., yesterday. Phil Hitchcock announced today.

Al Reese flew the three men, Raymond McNabb, Lloyd Newlun and Harold McPherson, to Fallon by plane, leaving Klamath Falls Tuesday morning.

Hitchcock accompanied the group, going to Reno in the evening, where he represented the Klamath chamber of commerce at a meeting with the Nevada-Pacific airlines, to see what could be done in setting aside the recommendation of the CAB examiner, to get feeder airline service for Klamath Falls.

Hitchcock reported that the company was going to make an exception to their ruling and take the matter up for further consideration.

Godfrey Matthews was announced as the first reserve member of the Kiwanis club and is a transfer from Haywood, Calif.

have what to us Americans seems an almost curious regard for the sanctity of the law, you start off your career as an alien resident in a chastened and humble mood.

PIERRE LAVAL TO TESTIFY AT PETAIN TRIAL

(Continued From Page One)

mittie, 7 E. 42nd street, New York, which said:

"American veterans who had the honor of serving in France under Gen. Pershing and who have admired you through the years as a soldier and patriot salute you in this grave hour. With abiding affection and confidence, we condemn your trial as unrepresentative of the great French people and pray that the conscience of France will compel termination of the proceedings."

There still was no announcement when Pierre Laval, chief of government in Petain's Vichy government, would be called from Fresno prison to testify.

First Witness
Leon Noel, the first witness, who was ambassador to Poland at the start of the war, testified that the armistice had no secret clauses. He was a member of the French armistice commission.

Charles Trochu, business man and president of the municipal council in Paris during the occupation, was questioned by the defense about the hooded rightist organization "La Cagoule."

It has been alleged that Petain was connected with the organization. He said Petain told him he accepted the armistice to prevent the capture of all France. Three jurors fell asleep before Trochu finished testifying. Petain, too, slept, but awakened when Trochu raised his voice to a shout.

Air Mail Volume Gains Despite Slow Service

(Continued From Page One)

at 9:56, arriving there at 11:21 p. m.

Air mail for Los Angeles must wait in Medford until 12:12 a. m. the following morning, when the southbound plane leaves. It arrives in San Francisco at 3:10 a. m. Eastern mail traveling this route must wait in San Francisco until 7:33 a. m., a delay of four hours and 23 minutes, added to the three hour and 33 minute delay in Medford, after a probable all-day wait at Klamath Falls.

With all the time lost by inadequate air service, it has been noted that often straight mail reaches its destination ahead of air mail.

Air stamp sales could be increased to a much greater extent, except for this delayed service, Klamath postal authorities believe, and for this reason are bending every effort toward getting through air service here, joining the chamber of commerce, the Klamath airport commission, and the city administration to change the decision of the civilian aeronautics board.

High-glass durable enamels, suitable for both inside and outside use, are made by using mixtures of heat-treated linseed oil and elastic copal varnishes.

Band Leader

Bob Wills, above, and his "Texas Playboys" will play at the armory on August 8.

BOB WILLS' BAND PLAYS AT ARMORY

Bob Wills, genial band leader with his "Texas Playboys," is coming to the Klamath armory Wednesday, August 8, for the dancing pleasure of the valley.

"Nothing fancy or forced," is Bob's success formula by which he has eased himself into a number one place among western bands.

Bob and his boys have been starred in several moving pictures, and his song "San Antonio Rose," recorded by Columbia, has gone over a three and a half million mark. Bob Wills and his Texas Playboys have, on several occasions, outgrossed well-known name bands in attendance records.

Baldy Evans says, "Folks, this is the band which will be here to send you with his heart-warming, toe-tickling western ballads next Wednesday night. Come and bring the family."

Total U. S. production of farm machinery in 1944 was valued at more than \$1,080,000,000 compared with \$552,000,000 in 1929.
