BACKACHE, LEG PAINS MAY BE DANGER SIGN Of Tired Kidneys

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention. The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. They help most people pass about 3 pints a day. If the 18 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting burning sometimes shows there is something wrong with your kidneys or bladder. Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 40 years. Doan's give happy relief and will help the 18 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

Luncheon, Card Party — The Homemaking committee of the Women of the Moose will hold a potluck luncheon in the hall Friday, August 3, at 12:30 p. m., with the chairman, Laura Brumby, in charge of arrangements. At 2 p. m., that same afternoon there will be a card party in the hall, the first of a new series.
