

ALASKANS ASK SELF-RULE AT SENATE MEET

KETCHIKAN, Alaska, Aug. 6 (AP)—A larger measure of territorial self-government plus a plea for ultimate statehood were offered as aims of Alaskans appearing before a congressional committee on roads and territories.

Alaskans argued for the right to elect their own governor; handle their own wild life problems; draft their own divorce legislation; for their own veterans' and insane hospitals for liberalization of land laws.

W. C. Arnold, representing the Alaska salmon canning industry, said he favored statehood as the ultimate goal but said "all we'll get is statehood with reservations."

Statehood without control over resources was not the desire of Alaskans, he indicated. He also urged extension to Alaska of the federal highway act.

W. C. Stump told the congressmen "Alaska wants statehood. Any other request, we make is an interim request."

He also urged extension to Alaska of the federal highway act.

WPB Approves Unit Construction Plans

SPOKANE, Aug. 6 (AP)—Immediate construction of three new generator units, valued at more than \$2,000,000 each, has been approved by the war production board. It was announced yesterday by William E. Warner, assistant bureau of reclamation commissioner, who said they would make Coulee dam the greatest hydroelectric producer in the world.

Congress previously appropriated funds for the units, each of which will have a normal power load of 108,000 kilowatts. The three-year job of construction will begin as soon as contracts are let. Two of the three new units will replace two 75,000 kilowatt units brought from Shasta dam for the duration.

Jack Linkenbach Leaves Force

Jack Linkenbach, who has been a member of the city police force here for the past 19 years, has handed in his resignation from the force.

Linkenbach has purchased the Mobile service station at 6th and Walnut and opened for business this morning.

He bought the station from Leslie Stiles.

Neighbors Finish Interrupted Harvest

LA GRANDE, Aug. 6 (AP)—A harvest barely started when Jack Stareo was fatally shot has been finished by his neighboring Cove area farmers.

Men in the vicinity pitched in to get the crop into the barn, while women served "threshing crew" meals. C. N. Ogilvie has been charged with first degree murder in the shooting.

Our Home Town

FALSE ECONOMY

By EARL WHITLOCK
The best economy is to get the best out of whatever you have and to buy the best that you can afford. The dictionary says that "economy" means system, order, sensible management, particularly as applied to a household. But some people confuse "economy" with "saving." To be saving is often a virtue, one must admit. But it is not always so. Frequently one can be so saving as to overstep the bounds of wise economy.

If you have a dress or a suit or a pair of shoes that you like and enjoy wearing—go on and wear them and get all the enjoyment out of them that you can. If you know a good show that you want to see and have the price, go right away—tonight. The fun you get out of things like that is largely a matter of mood and some later time might find you in another mood. Use what you have and select wisely the things you want. To be miserly is false economy, always.

"Rest in Memory Garden."

Next Monday Mr. Whitlock of the Earl Whitlock Funeral Home will comment on "His Master's Voice."

Center-Aislers Still Pick June

June upheld its reputation for being the month for orange blossoms and rice as marriage licenses issued in the county clerk's office dropped to 38 for July.

A total of 54 licenses were granted in June, showing a decrease of 16 for the month of July.

The devildogs of Uncle Sam's marine corps again led the parade down the aisle with 12 marines taking marital vows. Eleven civilians were married and 10 sailors said "I do." Three soldiers, one coast guardsman, and one member of the merchant marine slipped a ring on third finger, left hand.

Doctor Arranges Escapee's Surrender

SPOKANE, Aug. 6 (AP)—A psychiatrist whom he liked broke down the resistance of an armed mental hospital paroled Saturday and the man surrendered to deputy sheriffs for whom he had evinced a marked aversion.

Dr. H. A. Perry, superintendent of the hospital from which the man, Harold Peebler, 30, had been paroled, talked quietly to the man and persuaded him to drop the vow that "nobody is going to take me back to the hospital."

Peebler confided to a deputy during a short "truce" Friday that he liked Dr. Perry.

HAWAII MARS SINKS IN CHESAPEAKE BAY

ROCK HALL, Md., Aug. 6 (AP)—The 724-ton flying boat Hawaii Mars crash-landed and sank in Chesapeake Bay yesterday.

A single member of the 10-man crew was injured. No others were aboard.

The plane, capable of carrying 138 passengers, is one of 20 ordered by the navy from the Glenn L. Martin company of Baltimore.

Launched only two weeks ago, the Hawaii Mars was on a routine test flight over the bay when, a crewman said, the upper section of the plane's vertical fin broke away at an altitude of 6000 feet.

The Hawaii Mars is a sister-ship of the original Mars, which traveled 325,000 miles in 2600 flying hours between Alameda, Calif., and Pearl Harbor.

Drowning Blamed On Heart Attack

CANBY, Aug. 6 (AP)—Possibility that Leonard V. Tomblason, 37, farm worker who drowned near here in the Molalla river Saturday night, may have died of a heart attack was expressed today by an Oregon City physician.

While his wife and two children watched, Tomblason swam across the stream twice and started a third trip. Suddenly he disappeared in six feet of water.

Rex Barth and Jess Reinhardt recovered the body 45 minutes later.

Sailor Returns Portland Plaque

PORTLAND, Aug. 6 (AP)—A welcoming plaque showing American and Nazi flags united by Portland's official seal, given nine years ago in January to the German cruiser Emden, is back in Portland.

The plaque was presented to the cruiser when it was berthed here in 1936 on a world goodwill tour. It was sent back to Mrs. E. J. Jermann by her son, Albert K. Guy, machinist's mate third class stationed in Germany with the Atlantic fleet. He did not explain how he obtained the plaque.

CITY ISSUES 46 BUILDING PERMITS

Building and remodeling during the month of July in Klamath Falls involved \$20,423 worth of work and materials. Forty-six permits were issued in July for this amount of work.

Sixteen permits were issued for remodeling and repairing business buildings, the work val-

ued at \$9213. Twenty-eight permits were for remodeling and repairing residential buildings at \$10,610.

Two permits were approved for work on residential garages and woodsheds, values at \$600.

RECORD STOCK ENTRIES

GRESHAM, Aug. 6 (AP)—Farmers are entering so much livestock in the 1945 Multnomah county fair August 20-26 that display barns may be inadequate, Manager A. H. Lea said today. Swine entries already outnumber stalls usually available, he reported, and cattle division entries exceed 100.

Lumber Company To Replace Sawmill

PRINEVILLE, Aug. 6 (AP)—Construction of a sawmill to replace the \$125,000 plant burned in a July 24 fire will begin as

quickly as possible. General Manager J. F. Daggett of the Alexander-Yawkey Lumber company said today. Woods crews have been kept intact, he reported, and shipping and planting departments have been working on timber backlogs.

The Victorious Life Campaign

Continues At the FIRST COVENANT CHURCH
823 Walnut Ave.
Albert L. Dwight, Pastor
SPEAKER: Rev. Arvid F. Carlson
Conference Field Worker
