## 6 WESTERN STATES FEEL SUGAR STOP

SEATTLE, Aug. 14 (AP) — Charles R. Baird, regional office of price administration official, said yesterday he had suspended issuance of home canning sugar in six western states to conserve dwindling sugar supplies. The states affected are Washington, Oregon, California, northern Idaho, Arizona and Nevada.

The actions were taken to enable the OPA to determine the extent of remaining stocks for home canning purposes. Suspension will remain in effect until total remaining sugar stocks are accounted for and a new maximum allotment for home canning can be formulated.

Coupons already issued, the OPA said, remain valid and can be turned in for their worth in goods at any time.

**Two Known Dead In Plane Crash**

SEATTLE, Aug. 14 (AP) — The OPA district office today protested "vigorously" the indefinite suspension of home canning sugar coupons in the six western states. Local rationing boards were instructed to continue accepting applications for processing when the suspension is lifted and new quotas established.

**IWA Certified As Bargaining Agent**

WASHINGTON, Aug. 14 (AP) — The CIO International Woodworkers of America was certified today by the National Labor Relations board as collective bargaining agent for Fischer Lumber company, Marcola, Ore.

## City Schools Get Summer Cleaning And Renovations

City schools are getting new coats of paint, kalsomine and varnish in preparation for the opening of school in September. With work well underway on several major building projects, Arnold Gralapp, city schools superintendent, states that the local schools are in as fine shape as any western community, despite the war.

In an effort to build up light in the classrooms, woodwork is being lightened and classrooms are being kalsomined in pastel colors of green, buff, cream, peach and blue. The kalsomining is being painted darker colors to prevent fingerprinting.

In the Fairview auditorium a sloping floor has been added to improve visibility. Previously, with the low stage and flat floor, it was practically impossible to see the stage from the fifth row. A stairway leading from the fifth grade classroom to the back of the stage is being built to allow students to dress in the classroom for performances on the stage. Other work being done at Fairview includes the re-roofing of a section of the roof, the black-topping of the back alley and the addition of linoleum in the cafeteria.

Two major projects being carried on at Roosevelt include the lengthening of the cafeteria and the kalsomining and painting of the auditorium. With the removal of a storage room the size of the cafeteria has been increased. The serving tables have been arranged and the room kalsomined in green and white. Retaining walls and a delivery entrance behind the school have been built.

The septic tank at Pelican school has been enlarged and improved drainage facilities from the roof enlarged. The bus approach to the rear of the school which was graded by the county grading crews has been graveled.

To greatly facilitate bus delivery of students to Conger school, the city has opened a new street completing a loop in front of the school. The ceiling in the downstairs auditorium and play room is being insulated so the room can be used as a play room while classes are going on upstairs.

Riverside school has been re-roofed while extensive kalsomining has been done in the class rooms, basement and playroom area. Bulletin boards have also been added over the blackboards.

The building of a new wing on Fremont school will be deferred for the time being as the bids submitted for the building are more than the preliminary estimate. The next plan, according to Gralapp, will be to re-advertise for bids. Meanwhile, work is being done on the roof. If time permits, work will be done on the auditorium, otherwise this will be done during Christmas vacation.

Extensive work is being done in the library at Mills school. Portable book cases have been built and the storage space re-designed. A hall has been cut through some storage rooms in order to re-route traffic from the gymnasium to the school wing.

The bulk of the work has been done by regular staff members and teachers. Staff members are G. E. Robertson, P. L. Welch, Paul Angstead, Verne Spears, Lowell Culp, Jim Scott and Houston Robison. John Glubrecht is in charge of the maintenance and repair crews.

Janitors who have done maintenance work during the summer are Mr. and Mrs. Willie Thomas of Roosevelt, Mr. and Mrs. Anton Olsen of Mills, John Larson of Fremont, Mr. and Mrs. G. L. Holbrook of Pelican, P. J. Richter of Riverside, Dave Haskett of Conger and Mr. and Mrs. Ernest Wingert of Fairhaven.

## Detroit Disaster Probed By Police

DETROIT, Aug. 14 (AP) — Police and fire officials pushed an inquiry today into one of Detroit's worst disasters—a boxing plant blaze which snuffed out the lives of 13 persons yesterday.

In the hushed rooms of receiving hospital doctors and nurses worked at the same time to keep the death toll from rising, with more than a score of injured and burned under treatment.

The swift blaze, feeding on inflammables, broke out in mid-afternoon and swept the plant of the Export Box and Sealer company. Within moments the two-story building had turned into a crucible, and the employees, mostly women, fought to escape.
