

JAPS PROMISE PEACE ENVOYS TO M'ARTHUR

(Continued From Page One)
over Sata Misaki and gave a detailed schedule for the flight from that point to Ie Shima. It said the planes would bear "markings designated by you"—green crosses on a white background.
The Japanese apparently also were using different type planes

than the one MacArthur designated. "Zero type, model 22-L2D3." The general however had said they could make such a change.
Preparations continued under unusual secrecy for holding the momentous preliminary peace conference in this army city. Headquarters continued to decline to reveal details.
From all indications, the Japanese will be moved as quietly as possible on their necessary journeys through Manila, whose residents still remember vividly brutalities of the Japanese occupation. It is understood the visitors will be housed in special residences with a military police guard.
From Okinawa today, Associated Press Correspondent Richard Cushing disclosed a campaign with pamphlets, quoting En-er-pur Hirohito, is underway to induce Japanese on other Ryukyu islands to surrender.

WLB CAUTIONS AGAINST CUTS IN PAY RATES

(Continued From Page One)
for a given job between January and September 15, 1942.
Labor Pledge
Taylor expressed confidence that labor leaders will renew their wartime no-strike pledge before the labor-management conference which President Truman will call in the near future. AFL President William Green plans to see Mr. Truman today or tomorrow.
Taylor said the board still will depend on voluntary acceptance of its orders by employers and unions. Of the 18,000 dispute cases handled since it was established, only 44 resulted in government seizure to force compliance, Taylor said.
There remain 191 dispute cases before the national board and approximately 2700 before the 12 regional boards. Taylor said he hoped to clear the decks in the next 30 days.
There are 16,000 applications of employers for voluntary wage increases now pending before the board. These will be returned with notes saying the increases can be granted automatically as long as no price boost is involved.

British Relay Liberation News

LONDON, Aug. 18 (AP)—A British foreign office commentator, quoting the Swiss charge d'affaires, said today that 6800 inter-allied nationals—including 650 American civilians—were liberated by the Japanese in the Shanghai district August 15.
The Swiss intermediary at Shanghai reported in a telegram that because of transportation and "internal difficulties" he had advised the newly liberated persons to remain temporarily in camps. He added, however, that "the situation is perfectly calm."

Soviet Troops Take Key City

LONDON, Aug. 18 (AP)—Soviet armored columns closed in on the key city of Harbin today as Japanese forces in Manchuria continued to resist despite an ultimatum to surrender by noon Monday.
An indication that the Japanese front might be cracking was seen, however, in Russian reports that 20,000 of the enemy had laid down their arms.
The Russians drove a three-sided assault on Harbin, Central Manchurian city of nearly a half million population and seat of large war industries. Enemy strongpoints were melting away before the relentless armored assaults of the red army.

PAPER SALVAGE CONTINUES

PORTLAND, Aug. 18 (AP)—Oregon housewives were urged today to continue stacking up waste paper, draining used grease into containers instead of the sink, and carefully flattening out tins cans. The state salvage committee pointed out that tin is still a critically short metal, and fats and oils still scarce.

(Continued From Page One)
he utters the words, his shoulders unconsciously square a little, his chin lifts, he stands a bit more proudly.
There is no posing; it is all utterly unselfconscious. But there is music in his voice as the words pass his lips, deep-toned music.
This term "master man" is a strange one to American ears. This writer seeks enlightenment at the first opportunity, and learns it means that Mr. Hall is his OWN MASTER, that he takes orders from no one, that he steers his own ship: if it goes on the rocks it is HIS fault.
Unconsciously one's mind goes back to a picture already printed there, within this day. On several occasions on these larger farms workers when spoken to by their employer have answered respectfully, using the word "sir" and TOUCHING THEIR CAPS when the conversation ended.
INSTANTLY, when that picture recurs, you understand that squaring of Mr. Hall's shoulders, the momentary deep, singing tone in his voice.

THIS writer is told that except on the farms it is becoming highly unusual for a worker to touch his cap (caps are much more common here) when spoken to by his employer, but it is perfectly obvious to an American that in the English system the employer is a very, very big man in his establishment, not one with whom the lowlier workers could possibly fraternize, certainly not one who could be addressed casually as Tom, or Bill, or Pete.
NOTHING you see here strikes you, as an American, with an odder or more jarring bump. It comes to you suddenly that the English farming system is CLOSER TO FEUDALISM than the industrial system, with its unions and its labor movements, and hence is slower to abandon this touching of the cap.
Pondering on this, and on the kindred phenomenon of extreme respect that CUSTOM decrees must be shown to the employer, you find it easier to understand the UPHEAVAL of the recent election.
As this writer has so often said, because he feels it in his bones, there are DEEP STIRRINGS here.

ANDERSON SEES EARLY END TO MEAT RATIONING

(Continued From Page One)
needs will be reduced another 55 per cent for the January-March quarter.
Drop Expected
Requirements are expected to drop another 40 per cent for the March-June quarter and 50 per cent for the July-September period.
Military requirements for October, 1945, through September, 1946, will average about 42 per cent below those of the corresponding period of 1944-1945, officials said.
These planned reductions are in line with government plans to release upwards of 7,500,000 men from the armed services in the next 18 months.
So far this year, army food purchases have averaged about \$400,000,000 a month. Before the surrender of Japan, the army had planned to buy at the monthly rate of about \$300,000,000 for the remainder of 1945. The rate now will be reduced to about \$240,000,000, with further cuts coming up in 1946.
One of the first evidences of reduced military requirements will be army withdrawal from the butter market in September. The army had planned to take about 20 per cent of the September butter output. It now plans to take none. It built up reserves during the spring and summer season of flush production.

SEARCH BEGUN FOR MISSING KF MAN

(Continued From Page One)
conducting a search for three days.
The camp at Odell lake shows signs of recent occupation and all of the camping and fishing equipment appears to be there with the exception of a fishing rod.
The sheriff's office today asked anyone who had seen any sign of the missing man to contact the office immediately.

Chinese To Hear Jap Surrender

By SPENCER MOOSA
CHUNGKING, Aug. 18 (AP)—The Chinese first army, veterans of the Burma campaign, entered Canton today and will accept formal surrender of Japanese forces in South China tomorrow, and plans were under way for overall surrender of Japanese troops in China.
Tentative arrangements have been made for Gen. Ho Ying-Chin, commander of China's field forces, to leave Monday for Chihkiang, U. S. army air base in western Hunan, to accept overall surrender from envoys of Gen. Yosuji Okamura, Japanese commander in China.

Navy To Close 69 V-12 Units

WASHINGTON, Aug. 18 (AP)—The navy department reports that 69 V-12 units now in operation will be discontinued November 1. Units consist of enlisted men taking college work in preparation for commissioning as navy officers.
The units to be discontinued, which have been operating on an emergency wartime basis, include: Willamette university, Salem, Ore.; Gonzaga university, Spokane, Wash.; and Whitman college, Walla Walla, Wash.
The most up-to-date insurance is written by Hans Norland, 118 N. 7th, Phone 6060.
