

CITY COUNCIL QUESTS DOWNS AS INSPECTOR

The city council last night suspended A. W. Downs, city building inspector, who is in jail charged with arson. Temporarily stepping into the position will be Police Judge Harold Francy, who was granted permission to pass on construction until a new building inspector is chosen.

Councilmen decided to withhold \$15, which Downs allegedly owed the city, from his salary. The former building inspector is specifically accused of burning one local building.

Arising with the business of building inspector was E. T. Jefferson for permission from the council to continue work on a house he was building. Green had gotten permission to remodel an old building on the back of his lot, but when he discovered that it was beyond repair he was granted a building permit to build a 3-room cottage there as he wanted to save the front part for another house he planned to build at a later date. After the concrete foundation had been laid Downs then advised Green that he move the house to the front part of his lot as Green was building a two-story house instead of the three-room cottage. Green's request to continue the work was referred to the mayor's office.

The baseball question raised its head again last night when Mrs. Charles Hollenbeck of 625 Adams street, charged that another window in her house had been broken. She has added 14 baseballs to her collection during the past week. The council stated that it could do nothing about it as she had not allowed it to put up on her property, screens which would protect her from the baseballs. Mrs. Hollenbeck declared that the park was a menace to property and was a chicken yard. Councilman Paul Landry asked her to bear with the council and the games as only a few remained to be played. Councilmen Landry and Harvey Martin arranged to meet with Charles Hollenbeck this evening in an effort to settle the matter.

A bill for \$14.60 from the Glass House was presented to the council by the West End market, charging that their store window had been cracked by a rock left on the street by the city when a nearby sewer being repaired. E. A. Thomas, city engineer, explained that a loose rock in the street had been thrown by a truck or car, cracking the window. He pointed out that the rock was not necessarily left there when the city had repaired the sewer but could have come from a number of other sources. This matter was referred to the city attorney to determine if the city was liable.

Thomas requested permission from the council to put in a storm sewer at S. Riverside next to the California Oregon Power company warehouse.

The outlet which in the past had gone into low property has been filling up until it is now necessary to run the storm sewer to a lower point. This project, costing \$300, was approved by the council.

Crawford Pleads Guilty To Charge

Irving H. Crawford, 1417 Worden, was fined \$107.20 in justice court yesterday after he pleaded guilty to driving while under the influence of intoxicating liquor.

His driver's license was also suspended. Crawford was arrested at the intersection of E. Main and Owens on August 15.

More Milk Provided For Civilian Use

WASHINGTON, Aug. 21 (P)—More milk will be available for civilians under an order issued yesterday by Secretary of Agriculture Anderson suspending sales quotas on milk, light cream, buttermilk and chocolate dairy drinks. Supplies of whipping cream are not affected by the quota suspension.
