

NAVY REVEALS PLANE CRASH DAMAGE TOLL

WASHINGTON, Aug. 24 (AP)—The navy disclosed today that ten men were killed, 85 planes destroyed and 55 others damaged when a four-engine navy bomber veered off a runway on Eniwetok atoll in the Marshalls August 9, 1944.

A Consolidated Liberator was taking off on a bombing and reconnaissance mission Sunday by it turned left and plowed into planes assembled in a replacement pool for carriers.

Seven of the Liberator's nine 500-pound bombs began burning or exploded as flames spread rapidly from the plane's 2900 gallons of gasoline.

The navy said an investigating board found that the pilot "failed to realize that the plane was airborne and failed to keep his plane's track along the center of the runway." The pilot was Lt. Romane K. Anderson, whose widow, Florence, lived at Houston, Tex.

All Work, No Pay; Prowler Quits

DENVER, Colo., Aug. 24 (AP)—An energetic prowler climbed a pole, jumped to a third-floor window of a Denver building yesterday, intent on remunerative mischief.

After breaking the screen, he discovered that the window led to an elevator shaft. Next step was to leap for the elevator cables and while swinging on them, kick open the "lift" door. Then he made a hole in the third floor of the building, with the intention of jumping to the second floor.

But at that point the prowling Tom grew discouraged and presumably went home to get some much-needed rest.
